Tongues? Ann Massa, Alistair Stead, 1994 This fascinating collection of 18 essays sets out to discover the distinctiveness of modern British and American literature by comparing and contrasting the two traditions It covers all the principal generic categories poetry drama and prose from Eliot Waugh and Fitzgerald to Fowles and Philip Roth and considers some major themes such as women s and black fiction It uses particular case studies to consider both the way the two literatures have influenced one another and what distinguishing characteristics they each possess Waterstone's Guide to Books Waterstone & Co, 1988 International Books in Print , 1990 **Canadiana** , 1988-07 Industrial Policy Beyond the Crisis David Bailey, Helena Lenihan, Josep-Maria Arauzo-Carod, 2014-06-11 After years of official disrepute industrial policy IP is back in vogue at regional national and international levels driven by concerns over competitiveness globalisation de industrialisation unemployment and the comparatively slow growth of the EU economy especially in this post recession phase At the same time IP has been seen as a catalyst for designing economic recovery strategies at regional national and international levels as well as being a concerted strategy to develop new clean tech industries to tackle environmental challenges If anything the recent global recession and credit crunch have highlighted the fragility of some states and localities economic development paths and the unbalanced nature of their economies in terms of an over reliance on sectors such as retail financial services and construction to the detriment of manufacturing This also suggests an accompanying need for greater economic diversity so as to avoid over dependencies on certain sectors and a better balance of ownerships forms But what should be the shape of IP in the wake of the crisis and how can IP rebalance economies help support sustainable development and catalyse new technologies and innovations whilst learning lessons from past experience and debate This edited volume examines these questions through a wide range of diverse contributions from expert international authors This book was originally published as a special issue of Policy Studies **The New York Times Index** , 1990
