Rebuke Of History The Southern Agrarians And American Conservative Thought:

The Rebuke of History Paul V. Murphy, 2003-01-14 In 1930 a group of southern intellectuals led by John Crowe Ransom Allen Tate Donald Davidson and Robert Penn Warren published *I'll Take My Stand: The South and the Agrarian Tradition*. A stark attack on industrial capitalism and a defiant celebration of southern culture the book has raised the hackles of critics and provoked passionate defenses from southern loyalists ever since. As Paul Murphy shows its effects on the evolution of American conservatism have been enduring as well. Tracing the Agrarian tradition from its origins in the 1920s through the present day Murphy shows how what began as a radical conservative movement eventually became alternately a critique of twentieth century American liberalism a defense of the Western tradition and Christian humanism and a form of southern traditionalism which could include a defense of racial segregation. Although Agrarianism failed as a practical reform movement its intellectual influence was wide ranging. Murphy says This influence expanded as Ransom Tate and Warren gained reputations as leaders of the New Criticism. More notably such neo Agrarians as Richard M Weaver and M E Bradford transformed Agrarianism into a form of social and moral traditionalism that has had a significant impact on the emerging conservative movement since World War II. *The Rebuke of History* Paul Vincent Murphy, 1996 **Conservative**

Thought and American Constitutionalism since the New Deal Johnathan O'Neill, 2022-11-29 An intellectual history of American conservatism since the New Deal. The New Deal fundamentally changed the institutions of American constitutional government and in turn the relationship of Americans to their government. Johnathan O'Neill's *Conservative Thought and American Constitutionalism since the New Deal* examines how various types of conservative thinkers responded to this significant turning point in the second half of the twentieth century. O'Neill identifies four fundamental transformations engendered by the New Deal: the rise of the administrative state, the erosion of federalism, the ascendance of the modern presidency and the development of modern judicial review. He then considers how various schools of conservative thought: traditionalists, neoconservatives, libertarians, Straussians responded to these major changes in American politics and culture. Conservatives frequently argued among themselves and their responses to the New Deal ranged from adaptation to condemnation to political mobilization. Ultimately the New Deal pulled American governance and society permanently leftward. Although some of the New Deal's liberal gains have been eroded a true conservative counterrevolution was never. O'Neill argues a realistic possibility. He concludes with a plea for conservative thinkers to seriously reconsider the role of Congress a body that is relatively ignored by conservative intellectuals in favor of the courts and the presidency in America's constitutional order. *Conservative Thought and American Constitutionalism since the New Deal* explores the scope and significance of conservative constitutional analysis amid the broader field of American political thought. **The Myth of Southern Exceptionalism** Matthew D. Lassiter, Joseph Crespino, 2010 *The Myth of Southern Exceptionalism* dismantles clichés about regional distinctiveness and rewrites modern American history through a national focus on topics such as the

civil rights movement conservative backlash and liberal reform the rise of the Religious Right the emergence of the Sunbelt and the increasing diversity of the suburbs **The Conservative Intellectual Movement in America Since 1945** George H. Robert Lowell's Imitations and the Cold War Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's *Imitations and the Cold War* argues that Lowell's imitations are simultaneously symptomatic of and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused

solely on Imitations 1961 Lowell's book-length collection of translational adaptations by demonstrating how imitation shadows Lowell's work from his earliest collections *Land of Unlikeness* 1944 and *Lord Weary's Castle* 1946 through his celebrated mid-career collections *Life Studies* 1959 and *For the Union Dead* 1964 and to later works such as *Near the Ocean* 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle's anthology *Poets on Street Corners* 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell's compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell's restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment's dualities porosities leakages and contaminants are most clearly displayed Lowell's imitations simultaneously challenge and develop our understanding of confession's presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood

The Fourth Ghost Robert H. Brinkmeyer, Jr., 2009-01-01 In the 1949 classic *Killers of the Dream* Lillian Smith described three racial ghosts haunting the mind of the white South the black woman with whom the white man often had sexual relations the rejected child from a mixed race coupling and the black mammy whom the white southern child first loves but then must reject In this groundbreaking work Robert H Brinkmeyer Jr extends Smith s work by adding a fourth ghost lurking in the psyche of the white South the specter of European Fascism He explores how southern writers of the 1930s and 1940s responded to Fascism and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system As Brinkmeyer shows nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism Their responses varied widely ranging from repression and denial to the repulsion of self recognition With penetrating insight Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture He shows how white southern writers both those writing cultural criticism and those writing imaginative literature turned to Fascist Europe for images analogies and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie Brinkmeyer considers the works of a wide range of authors of varying political stripes the Nashville Agrarians W J Cash Lillian Smith William Alexander Percy Thomas Wolfe William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar *The Fourth Ghost* offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development

Resisting Equality Stephanie R. Rolph, 2018-06-04 In *Resisting Equality* Stephanie R Rolph examines the history of the Citizens Council an organization committed to coordinating opposition to desegregation and black voting rights In the first comprehensive study of this racist group Rolph follows the Citizens Council from its establishment in the Mississippi Delta through its expansion into other areas of the country and its success in incorporating elements of its agenda into national politics to its formal dissolution in 1989 Founded in 1954 two months after the Brown v

Board of Education decision by the U S Supreme Court the Council spread rapidly in its home state of Mississippi Initially the organization relied on local chapters to monitor signs of black activism and take action to suppress that activism through economic and sometimes violent means As the decade came to a close however the Council s influence expanded into Mississippi s political institutions silencing white moderates and facilitating a wave of terror that severely obstructed black Mississippians participation in the civil rights movement As the Citizens Council reached the peak of its power in Mississippi its ambitions extended beyond the South Alliances with like minded organizations across the country supplemented waning influence at home and the Council movement found itself in league with the earliest sparks of conservative ascension cultivating consistent messages of grievance against minority groups and urging the necessity of white unity Much more than a local arm of white terror the Council s work intersected with anticommunism conservative ideology grassroots activism and Radical Right organizations that facilitated its journey from the margins into mainstream politics Perhaps most crucially Rolph examines the extent to which the organization survived the successes of the civil rights movement and found continued relevance even after the Council s campaign to preserve state sanctioned forms of white supremacy ended in defeat Using the Council s own materials papers from its political allies oral histories and newspaper accounts *Resisting Equality* illuminates the motives and mechanisms of this destructive group

Sherman's March in Myth and Memory Edward Caudill, Paul Ashdown, 2009-09-16 General William Tecumseh Sherman s devastating March to the Sea in 1864 burned a swath through the cities and countryside of Georgia and into the history of the American Civil War As they moved from Atlanta to Savannah destroying homes buildings and crops killing livestock and consuming supplies Sherman and the Union army ignited not only southern property but also imaginations in both the North and the South By the time of the general s death in 1891 when one said The March no explanation was required That remains true today Legends and myths about Sherman began forming during the March itself and took more definitive shape in the industrial age in the late nineteenth century Sherman s March in Myth and Memory examines the emergence of various myths surrounding one of the most enduring campaigns in the annals of military history Edward Caudill and Paul Ashdown provide a brief overview of Sherman s life and his March but their focus is on how these myths came about such as one description of a 60 mile wide path of destruction and how legends about Sherman and his campaign have served a variety of interests Caudill and Ashdown argue that these myths have been employed by groups as disparate as those endorsing the Old South aristocracy and its Lost Cause and by others who saw the March as evidence of the superiority of industrialism in modern America over a retreating agrarianism Sherman s March in Myth and Memory looks at the general s treatment in the press among historians on stage and screen and in literature from the time of the March to the present day The authors show us the many ways in which Sherman has been portrayed in the media and popular culture and how his devastating March has been stamped into our collective memory

World War I and Southern Modernism David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty

Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region s existing agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles
