Reincarnation Paul Roland, 2008 Children's Past Lives Carol Bowman, 2012-02-01 Has your child lived before In this fascinating controversial and groundbreaking book Carol Bowman reveals overwhelming evidence of past life memories in children Not only are such experiences real they are far more common than most people realize Bowman's extraordinary investigation was sparked when her young son Chase described his own past life death on a Civil War battlefield an account so accurate it was authenticated by an expert historian Even more astonishing Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory Inspired by Chase's dramatic healing Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives spontaneously and naturally In Children's Past Lives she tells how to distinguish between a true past life memory and a fantasy offers practical advice to parents on how to respond to a past life memory and shows how to foster the spiritual and healing benefits of these experiences Perhaps the most moving convincing and best documented evidence yet for life after death Children's Past Lives will stand alongside the classics of Betty J Eadie Raymond Moody and Brian Weiss in its power to comfort uplift and transform our thinking about life after death

Tucker, M.D., 2013-12-03 Dr Tucker in a follow up to his book *Life Before Life* explores American cases of young children who report memories of previous lives in the New York Times bestseller *Return to Life* A first person account of Jim Tucker's experiences with a number of extraordinary children with memories of past lives *Return to Life* focuses mostly on American cases

presenting each family's story and describing his investigation. His goal is to determine what happened, what the child has said, how the parents have reacted, whether the child's statements match the life of a particular deceased person, and whether the child could have learned such information through normal means. Tucker has found cases that provide persuasive evidence that some children do in fact possess memories of previous lives. Among others, readers will meet a boy who describes a previous life on a small island. When Tucker takes him to that island, he finds that some details eerily match the boy's statements, and some do not. Another boy points to a photograph from the 1930s and says he used to be one of the men in it. Once the laborious efforts to identify that man are successful, many of the child's numerous memories are found to match the details of his life. Soon after his second birthday, a third boy begins expressing memories of being a World War II pilot who is eventually identified. Thought provoking and captivating, *Return to Life* urges its readers to think about life and death and reincarnation and reflect about their own consciousness and spirituality. *The Journey Within* Henry Leo

Bolduc, 2004-01-01 Past life memories are being discovered through an exciting form of hypnosis referred to as regression. Henry Bolduc, a research hypnotist of 30 years, will teach readers how to tape scripts and use self hypnosis for recalling past lives. Includes case histories of two individuals who channeled profound information while under hypnosis. Past Lives

Peter Fenwick, Elizabeth Fenwick, 2001-07-01 For centuries the existence of reincarnation has been a firmly held belief of millions that crosses races, religions, and cultures. In *Past Lives*, Dr. Peter Fenwick and Elizabeth Fenwick examine this extraordinary phenomenon by attempting to determine whether people are experiencing actual memories or thoughts and ideas based on imagination. Featuring more than 100 firsthand accounts from those who believe they can recall their previous existences, this insightful exploration of reincarnation may change the way you think and challenge your views of life itself. A World War II veteran relives the moment of his death in the cockpit of a bi plane during the first World War. A hypnotized woman starts speaking with an Irish brogue about her life in Ireland although she's never visited there. While vacationing in Egypt, a woman correctly describes a temple she was once worshipped in without ever having been inside. *Remembering*

Past Lives Sonrisa East, 2019-12-24 One in four people in the world believe in reincarnation. But stripping religious dogma from the search for our past lives can be difficult. In this easy to follow guide, Sonrisa East explains each of us remembers at least some part of a past life on a daily basis. We simply don't notice. Or we pass it off as an odd, random thought. But once we shift our awareness just slightly, we can use those things in our lives that seem vaguely familiar, along with modern clues like ancestry and DNA analyses, to create a private guidebook to past lives. Poignant examples light the way for your own personal journey, a journey that has never been easier. And perhaps one that has never been more important. WHAT READERS ARE SAYING: an accessible source of wisdom and insight on an important topic, deeply practical, cueing us into the sophistication of relationships and timeless questions about soul mates. My favorite idea from this book: What you fear is ancient. Really gets me thinking. How We Remember Our Past Lives Curuppumullagē Jinarājadāsa, 1923 Before Jim B. Tucker,
