Redesigning the Welfare State in New Zealand Jonathan Boston, Paul Dalziel, Susan St. John, 1999 Compensation education housing social welfare employment assistance and superannuation **Transforming the Welfare State** Jonathan Boston, 2020-02-04 Eighty years ago New Zealand s welfare state was envied by many social reformers around the world Today it stands in need of urgent repair and renewal One of our leading public policy thinkers asks What might the contours of a revitalised social contract for New Zealand look like Packed full of analysis Jonathan Boston s latest BWB Text directs us towards nothing less than a new political settlement Wide ranging reform of the welfare state is needed Boston argues if we are to address the challenges presented by economic social and technological upheaval This quest is made all the more demanding and pressing by alarming ecological crises and the need for the good society to place intergenerational responsibilities at its heart **Policy Change, Public Attitudes and Social Citizenship** Humpage, Louise, 2014-11-05 Neoliberal reforms have seen a radical shift in government thinking about social citizenship rights around the world But have they had a similarly significant impact on public support for these rights This unique book traces public views on social citizenship across three decades through attitudinal data from New Zealand the United Kingdom and Australia It argues that

support for some aspects of social citizenship diminished more significantly under some political regimes than others and that limited public resistance following the financial crisis of 2008 2009 further suggests the public rolled over and accepted these neoliberal values Yet attitudinal variances across different policy areas challenge the idea of an omnipotent neoliberalism providing food for thought for academics students and advocates wishing to galvanise support for social citizenship in the 21st century

Radical Welfare State Retrenchment P. Starke, 2007-12-07 This book confronts one of the most fiercely contested issues in current political debates how is welfare state retrenchment possible in modern democracies despite the welfare state s continuing popular appeal Starke offers an international comparative analysis of welfare state retrenchment and an in depth examination of its radical deployments

The Future of Christianity John Stenhouse, Brett Knowles, Antony Wood, 2004 This book written by a group of New Zealand scholars theologians historians and lawyers examines the question of New Zealand s Western culture and Christianity The contributors explore recent debates over secularisation exploring its merits and explanatory power while also showing its limitations

Social Investment Jonathan Boston, Derek Gill, 2017-12-04 The idea of social investment has obvious intuitive appeal But is it robust Is it built on sound philosophical principles and secure analytical foundations Will it deliver better outcomes For almost a decade the idea of social investment has been a major focus of New Zealand policy making and policy debate The broad aim has been to address serious social problems and improve long term fiscal outcomes by drawing on big data and deploying various analytical techniques to enable more evidence informed policy interventions But recent approaches to social investment have been controversial In late 2017 the new Labour New Zealand First government announced a review of the previous government s policies As ideas about social investment evolve this book brings together leading academics commentators and policy analysts from the public and private sectors to answer three big questions How should social investment be defined and conceptualized How should it be put into practice In what policy domains can it be most productively applied As governments in New Zealand and abroad continue to explore how best to tackle major social problems this book is essential for people seeking to understand social policy in the twenty first century Contributors Peter Alsop Ben Apter Jonathan Boston Holly Briffa Simon Chapple Alex Collie Isabelle Collins Steffan Crausaz Jo Cribb Sir Michael Cullen Killian Destremau Elizabeth Eppel Diane Garrett Derek Gill David Hanna Gary Hawke Sarah Hogan Tim Hughes Girol Karacaoglu Gail Kelly Michael Mintrom Graham Scott Verna Smith Simon Wakeman Peter Wilson Amanda Wolf John Yeabsley and Warren Young

Global Dimensions of Public Administration and Governance Jos Raadschelders, Eran Vigoda-Gadot, 2015-01-21 A comparative interdisciplinary examination of the mechanisms behind public administration Global Dimensions of Public Administration and Governance is a comprehensive comparative text on the structure and function of governments around the world Written by two of the field s leading public administration scholars this book provides an interdisciplinary perspective and a global historical and theoretical examination of the management and governance of the modern state Readers learn how territory

bureaucracy and political systems influence policy and reform in over thirty countries and how these mechanisms affect the everyday lives of citizens. This comparative approach features rich examples of how policy is shaped by culture and how modern policy principles are filtered to fit a country's needs and expectations. Chapters conclude with comparative analyses that help readers better understand the role and position of government in the contemporary world both in democratic societies and less than democratic environments. Governance doesn't happen in a vacuum. Those responsible for policy regulation and reform take cues from history, current events and visions for the future to inform thinking on matters that can potentially affect a large number of everyday lives. This book illustrates the thought process providing the necessary insight these important decisions require. Understand the relationship between structure and function of government. Learn how policy is culture dependent. Examine the political and societal contexts of reform. Discover the myriad forms of modern bureaucracy. The various social sciences provide valuable information and perspectives for those involved in public administration. Those perspectives converge here to form a thorough well rounded examination of the success and failure possible and the mechanisms through which they take place. Global Dimensions of Public Administration and Governance provides a detailed wide ranging look at how modern governments operate how they got this far and where they're headed for the future.

Workers in the Margins Cybèle Locke, 2012 Marginalised workers of the late twentieth century were those last hired in times of plenty and first fired in times of recession. Often women, Maori or people from the Pacific they were frequently unemployed and marginalised within the union movement as well as the labour force. **WORKERS IN THE MARGINS** tells the story of these workers in the tumultuous years of post war New Zealand. These were years characterised by massive changes in the workforce as it expanded to accommodate a growing urban Maori population and an increasing desire for women to enter paid work. The world of trade unions and employment conflicts such as the 1951 waterfront lockout was vigorous and challenging. As free market policies deregulated the labour market and splintered the union movement toward the end of the century Te Roopu Rawakore o Aotearoa the national unemployed and beneficiaries movement gave a new voice to workers in the margins. The people of this history come to life through oral histories from the poet and boilermaker Hone Tuwhare building a palisade at Orakei through to activists Sue Bradford and Jane Stevens working with the unemployed in the 1980s and 90s. Their experiences speak to the lives of many workers of the early twenty first century.

The Palgrave Handbook of Disabled Children's Childhood Studies Katherine Runswick-Cole,Tillie Curran,Kirsty Liddiard,2017-11-05 Disabled children s lives have often been discussed through medical concepts of disability rather than concepts of childhood Western understandings of childhood have defined disabled children against child development norms and have provided the rationale for segregated or special welfare and education provision
