Rediscovering Magical Realism In The Americas:

Rediscovering Magical Realism in the Americas Shannin Schroeder, 2004-10-30 Drawing from a variety of contemporary literature including such works as *One Hundred Years of Solitude*, *Beloved* and *Like Water for Chocolate* Schroeder explores magical realism as one of many common denominators in the literature of the Americas challenging the notion that magical realism should be defined merely in terms of geography or Latin American history By relying on an all encompassing vision of this unique mode of writing the author argues that the Americas share a literary tradition and validates the North American strain of the mode In addition she points to fundamentally similar approaches to fiction that illustrate the ways in which the Americas share a common literature and calls for increased Pan American scholarship Counteracting the critical tendency to label anything unreal or supernatural in literature as magical realism Schroeder traces the mode through a variety of contemporary works including well known and lesser known examples Through a carefully articulated history and description of the mode itself she is able to show that while Latin American and North American fiction share in common certain features of magical realism their distinctive approaches to it reflect Latin America's third world concerns and North America's preoccupation with popular culture and capitalism Tracing the forces of change at work on the mode in an effort to counter the tendency among scholars to apply the label without justification this book reclaims magical realism as a current and significant term for use in its application to literary works

Magical American Jew Aaron Tillman,2017-11-15 Efforts to describe contemporary Jewish American identities often reveal more questions than concrete articulations more statements about what Jewish Americans are not than what they are Highlighting the paradoxical phrasings that surface in contemporary writings about Jewish American literature and culture language that speaks to the elusive difference felt by many Jewish Americans Aaron Tillman asks how we portray identities and differences that seem to resist concrete definition Over the course of *Magical American Jew* Tillman examines this enigma the indefinite yet undeniable difference that informs contemporary Jewish American identity demonstrating how certain writers and filmmakers have deployed magical realist techniques to illustrate the enigmatic difference that Jewish Americans have felt and continue to feel Similar to the indeterminate nature of Jewish American identity magical realism is marked by paradox and does not fit easily into any singular category Often characterized as a mode of literary expression rather than a genre within literature magical realism has been the subject of debates about definition origin and application After elucidating the features of the mode Tillman illustrates how it enables uniquely cogent portrayals of enigmatic elements of difference Concentrating on a diverse selection of Jewish American short fiction and film including works by Woody Allen Sarah Silverman Cynthia Ozick Nathan Englander Steve Stern and Melvin Jules Bukiet *Magical American Jew* covers a range of subjects from archiving Holocaust testimony to satirical Jewish American humor Shedding light on aspects of media marginalization excess and many other facets of contemporary American society the study concludes by addressing the ways that the magical realist mode has been and can be used to examine U S ethnic literatures more broadly

Magical Realism in Postcolonial British Fiction Taner Can,2014-06-01 This study aims at delineating the cultural work of magical realism as a dominant narrative mode in postcolonial British fiction through a detailed analysis of four magical realist novels Salman Rushdie s *Midnight s Children* 1981 Shashi Tharoor s *The Great Indian Novel* 1989 Ben Okri s *The Famished Road* 1991 and Syl Cheney Coker s *The Last Harmattan of Alusine Dunbar* 1990 The main focus of attention lies on the ways in which the novelists in question have exploited the potentials of magical realism to represent their hybrid cultural and national identities To provide the necessary historical context for the discussion the author first traces the development of magical realism from its origins in European Painting to its appropriation into literature by European and Latin American writers and explores the contested definitions of magical realism and the critical questions surrounding them He then proceeds to analyze the relationship between the

paradigmatic turn that took place in postcolonial literatures in the 1980s and the concomitant rise of magical realism as the literary expression of Third World countries *The Routledge Companion to Latino/a Literature* Suzanne Bost, Frances R. Aparicio, 2013 Latino a literature is one of the fastest developing fields in the discipline of literary studies It represents an identity that is characterized by fluidity and diversity often explored through divisions formed by language race gender sexuality and immigration The Routledge Companion to Latino a Literature represents over forty essays by leading and emerging international scholars of Latino a literature and analyses Regional cultural and sexual identities in Latino a literature Worldviews and traditions of Latino a cultural creation Latino a literature in different international contexts The impact of differing literary forms of Latino a literature The politics of canon formation in Latino a literature This collection provides a map of the critical issues central to the discipline as well as uncovering new perspectives and new directions for the development of the field It is essential reading for anyone interested in the past present and future of this literary culture

Magical Realism and the Postcolonial Novel Christopher Warnes, 2009-03-19 This book rethinks the origins and nature of magical realism and provides detailed readings of key novels by Asturias Carpentier Garc a M rquez Rushdie and Okri Identifying two different strands of the mode one characterized by faith the other by irreverence Warnes makes available a new vocabulary for the discussion of magical realism

Spectrality in the Novels of Toni Morrison Melanie R. Anderson, 2013-03-30 At first glance *Beloved* would appear to be the only ghost story among Toni Morrison's nine novels but as this provocative new study shows spectral presences and places abound in the celebrated author's fiction Melanie R. Anderson explores how Morrison uses specters to bring the traumas of African American life to the forefront highlighting histories and experiences both cultural and personal that society at large too frequently ignores Working against the background of magical realism while simultaneously expanding notions of the supernatural within American and African American writing Morrison peoples her novels with what Anderson identifies as two distinctive types of ghosts spectral figures and social ghosts Deconstructing Western binaries Morrison uses the spectral to indicate power through its transcendence of corporality temporality and explication and she employs the ghostly as a metaphor of erasure for living characters who are marginalized and haunt the edges of their communities The interaction of these social ghosts with the spectral presences functions as a transformative healing process that draws the marginalized figure out of the shadows and creates links across ruptures between generations and between past and present life and death This book examines how these relationships become increasingly more prominent in the novelist's canon from their beginnings in *The Bluest Eye* and *Sula* to their flowering in the trilogy that comprises *Beloved* *Jazz* and *Paradise* and onward into *A Mercy* An important contribution to the understanding of one of America's premier fiction writers *Spectrality in the Novels of Toni Morrison* demonstrates how the Nobel laureate's powerful and challenging works give presence to the invisible voice to the previously silenced and agency to the oppressed outsiders who are refused a space in which to narrate their stories Melanie R. Anderson

Lost Homelands Audrey Goodman, 2022-02-08 Before the 1930s landscapes of the American Southwest represented the migrant's dream of a stable and bountiful homeland. Around the time of the Great Depression, however, the Southwest suddenly became integrated into a much larger economic and cultural system. Audrey Goodman examines how, since that time, these southwestern landscapes have come to reveal the resulting fragmentation of identity and community. Through analyzing a variety of texts and images, Goodman illuminates the ways that modern forces such as militarization, environmental degradation, internal migration, and an increased border patrol presence have shattered the perception of a secure homeland in the Southwest. The deceptive natural beauty of the Southwest deserts shields a dark history of trauma and decimation that has remained as a shadow on the region's psyche. The first to really synthesize such wide-ranging material about the effects of the atomic age in the Southwest, Goodman realizes the value of combined visual and verbal art and uses it to put forth her own original ideas about reconstructing a new sense of homeland. *Lost Homelands* reminds us of the adversity and dislocation suffered by people of the Southwest by looking at the ways that artists, photographers, filmmakers, and writers have grappled with these problems for decades. In assessing the ruination of the region, however, Goodman argues that those same artists and writers have begun to reassemble a new sense of homeland from these fragments.

Books and Beyond Kenneth Womack, 2008-10-30 There's a strong interest in reading for pleasure or self-improvement in America, as shown by the popularity of Harry Potter and book clubs including Oprah Winfrey's. Although recent government reports show a decline in recreational reading, the same reports show a strong correlation between interest in reading and academic achievement. This set provides a snapshot of the current state of popular American literature, including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories such as cyberpunk, fantasy, literature, flash fiction, GLBTQ literature, graphic novels, manga, and anime and zines. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected general bibliography. Reading in America for pleasure and knowledge continues to be popular even while other media compete for attention.
