Parent,2016-12-01 This volume attempts to solve a grave problem about critical self reflection The worry is that we critical thinkers are all in epistemic bad faith in light of what psychology tells us After all the research shows not merely that we are bad at detecting ego threatening thoughts la Freud It also indicates that we are ignorant of even our ordinary thoughts e g reasons for our moral judgments of others Haidt 2001 and even mundane reasons for buying one pair of stockings over another Nisbett Wilson 1977 However reflection on one s thoughts requires knowing what those thoughts are in the first place So if ignorance is the norm why attempt self reflection The activity would just display naivety about psychology Yet while respecting all the data this book argues that remarkably we are sometimes infallible in our self discerning judgments Even so infallibility does not imply indubitability and there is no Cartesian ambition to provide a foundation for empirical knowledge The point is rather to explain how self reflection as a rational activity is possible T.P.'s Weekly ,1928 A

Cottingham,2011-05-19 **Xenophon's Other Voice** Yun Lee Too,2021-08-26 This volume explores irony in its essence saying other than one actually means in the collected works of Xenophon Xenophon's Other Voice argues that there are two voices in the author one ostensible at the level of the literal text which is available to everyone while the sub title designates the other voice which is less obvious to the reader and indeed an ironic one It presents a unified view of the author's entire corpus and argues that the function of Xenophonic irony is to offer critiques of the societies in which he finds himself Rejecting both non ironic and Straussian interpretations of Xenophon's writings Yun Lee Too offers a wholly original perspective on the contemporary debate of how he should be read which is underpinned by a series of incisive readings of the individual works Beginning with Xenophon's representation of an ironic Socrates who condemns the contemporary city and its more prominent citizens the book moves on to consider how the author develops his own approach to irony He deploys irony to criticize aspects of Athenian society such as its understanding of wealth its armed forces and sophistic education The book then turns to his treatment of other Hellenic societies including the Spartan city state and laws kingship in Syracuse and war amongst the Greek states It finally considers Persia covering Xenophon's depiction of Cyrus the Great and the expedition with Cyrus the Younger *Ireland as Gaeilge* Olga Balaeva,2017-12-21 Are you confused by all the Irish language signs you see around you Do you wonder if and when the Irish actually speak Irish After spending thirteen years learning Irish in school why do so few Irish people actually speak it Ireland as Gaeilge tells the story of the Irish language in a popular and engaging way combining historical and linguistic facts with a light tone Written by a Russian linguist living in Ireland it gives an outsider's perspective on this most national of subjects Ireland as Gaeilge Explains the impact of Irish history on the fortunes of the Irish language Discusses the present state of the language Looks at everyday manifestations of Irish in Irish society Explores the linguistic peculiarities of Irish and how the English and Irish languages have influenced each other Examines the role of Irish in the international arena Ireland as Gaeilge will appeal to tourists especially those with Irish connections long term visitors residents international students and professionals and Irish people who are less familiar with the Irish language and are willing to give it a second chance **Language and a Sense of Place** Chris

How to Believe John Cottingham,2015-11-19 In Why Believe Continuum Professor John Cottingham argued that every human being possesses impulses and aspirations for which religious belief offers a home His new book How to Believe is concerned not so much with why we should believe as with what leads a person to become a believer Cottingham challenges believers and non believers alike to think afresh about the need to change their lives and about what such change might involve Many people are deeply interested in the spiritual aspects of human existence but hold back from religious commitment because of doubts about the evidence for God In this lucid and emotionally engaged study John Cottingham charts a rational pathway towards religious belief by showing how it requires all the responses of the human mind Intellectual analysis has its place but to grasp all the relevant evidence we also need emotional openness and imaginative sensitivity Drawing on a rich array of literary scriptural and poetic resources the author locates religious belief in a transformative framework of meaning and value
