Reflections On The Puritan Revolution

Peter Bayne

Reflections On The Puritan Revolution:

Reflections on the Puritan Revolution A.L. Rowse, 2023-04-17 *Reflections on the Puritan Revolution* 1986 examines the damage done by the Puritans during the English Civil War and the enormous artistic losses England suffered from their activities. The Puritans smashed stained glass monuments, sculpture, brasses in cathedrals and churches; they destroyed organs, dispersed the choirs and the music. They sold the King's art collections, pictures, statues, plate, gems and jewels abroad and broke up the Coronation regalia. They closed down the theatres and ended Caroline poetry. The greatest composer and most promising scientist of the age were among the many lives lost and this all besides the ruin of palaces, castles and mansions.

Reflections on the Puritan Revolution Alfred Leslie Rowse, 2023 *Reflections on the Puritan Revolution* 1986 examines the damage done by the Puritans during the English Civil War and the enormous artistic losses England suffered from their activities. The Puritans smashed stained glass monuments, sculpture, brasses in cathedrals and churches; they destroyed organs, dispersed the choirs and the music. They sold the King's art collections, pictures, statues, plate, gems and jewels abroad and broke up the Coronation regalia. They closed down the theatres and ended Caroline poetry. The greatest composer and most promising scientist of the age were among the many lives lost and this all besides the ruin of palaces, castles and mansions.

John Goodwin and the Puritan Revolution John Coffey, 2006 A major contribution to our understanding of the English Revolution. Ann Hughes, Professor of Early Modern History, Keele University. John Goodwin, 1594-1665 was one of the most prolific and controversial writers of the English Revolution; his career illustrates some of the most important intellectual developments of the seventeenth century. Educated at Queens College, Cambridge, he became vicar of a flagship Puritan parish in the City of London. During the 1640s he wrote in defence of the civil war, the army revolt, Pride's Purge and the regicide, only to turn against Cromwell in 1657. Finally repudiating religious uniformity, he became one of England's leading tolerationists. This richly contextualised study, the first modern intellectual biography of Goodwin, explores the whole range of writings produced by him and his critics. Amongst much else it shows that far from being a maverick individualist, Goodwin enjoyed a wide readership, pastored one of London's largest Independent congregations and was well connected to various networks. Hated and admired by Anglicans, Presbyterians and Levellers, he provides us with a new perspective on contemporaries like Richard Baxter and John Milton. It will be of special interest to students of Puritanism, the English Revolution and early modern intellectual history.

JOHN COFFEY is Professor of Early Modern History at the University of Leicester.

The Chief Actors in the Puritan Revolution Peter Bayne, 1879 *Flesh in the Age of Reason* Roy Porter, 2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul, Roy Porter charts how, through figures as diverse as Locke, Swift, Johnson and Gibbon, ideas about medicine, politics and religion fundamentally changed notions of self. He shows how the Enlightenment, with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries, provided a lens through which we can best see

the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God s image gave way to the Enlightenment s notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Christian Origins of Social Revolt William Dale Morris,2021-09-05 This book first published in 1949 analyses the thread of Christian anti authority thought that runs through protests and revolts from the first days of Christianity to modern times It examines social protests of the Middle Ages through to the Reformation and the Peasant War of Germany the English Civil War Christian Socialists and fascism and bolshevism It presents a clear case for the role of Christianity in social unorthodoxies protests and revolts Hume's Reflection on Religion Miguel A. Badía Cabrera,2001-08-31 Considering the Scotsman David Hume 1711 76 to be the most important influential and studied philosopher to have written in English Badia Cabrera philosophy U of Puerto Rico Rio Piedras could not resist the temptation to translate his 1966 Le reflexion de David Hume en torno a la religion from the Spanish into English He offers a significantly different view of his work on religion and natural theology than has appeared in the anglophone tradition Among the aspects he examines are the historical setting of his investigation of religion the ethical depreciation of religion and the rejection of miracles c Book News Inc Romanticism, Nationalism, and the Revolt Against Theory David Simpson,1993-06 Why has Anglo American culture for so long regarded theory with intense suspicion In this important contribution to the history of critical theory David Simpson argues that a nationalist myth underlies contemporary attacks on theory Theory s antagonists Simpson shows invoke the same criteria of common sense and national solidarity as did the British intellectuals who rebelled against theory and method during the French Revolution Simpson demonstrates the close association between theory and method and shows that by the mid eighteenth century method had acquired distinctly subversive associations in England Attributed increasingly to the French and the Germans method paradoxically evoked images both of inhuman rationality and unbridled sentimentality in either incarnation it was seen as a threat to what was claimed to be authentically British Simpson develops these paradigms in relation to feminism the gendering of Anglo American culture and the emergence of literature and literary criticism as antitheoretical discourses He then looks at the Romantic poets response to this confining ideology of the cultural role of literature Finally Simpson considers postmodern theory s claims for the radical energy of nonrational or antirationalist positions This is an essential book not only for students of the Romantic period and intellectual historians concerned with the idea of method but for anyone interested in the historical background of today s debates over the excesses and possibilities of theory

The Rise and Fall of English Radicalism, 1760 to 1800 Mark Hulliung,2025-03-25 This book explores the major political debates in England during the

final decades of the eighteenth century a period when responses to the American and French Revolutions were a major concern and the entire future of public life in England was in question Offering an in depth treatment of the political pamphlets and literature of the time this book examines the voices of both the radicals and their detractors The volume attempts to do justice to the talented radical Whigs Edmund Burke demeaned in Reflections on the Revolution in France and who have been long forgotten buried unfairly under the memory of the excesses of French revolutionary violence This accessibly written volume is perfect for undergraduates graduates and professors of history political science and literature

Monstrous Society David Collings,2009 Monstrous Society problematizes competing representations of reciprocity in England in the decades around 1800 It argues that in the eighteenth century moral economy power is divided between official authority and the counter power of plebeians This tacit mutual understanding comes under attack when influential political thinkers such as Edmund Burke Jeremy Bentham and T R Malthus attempt to discipline the social body to make state power immune from popular response But once negated counter power persists even if in the demands of a debased inhuman body Such a response is writ large in Gothic tales especially Matthew Lewis s The Monk and Mary Shelley s Frankenstein and in the innovative embodied political practices of the mass movements for Reform and the Charter By interpreting the formation of modern English culture through the early modern practice of reciprocity David Collings constructs a nonmodern mode of analysis one that sees modernity not as a break from the past but as the result of attempts to transform traditions that however distorted nevertheless remain broadly in force Jacket Nonfictional Romantic Prose Steven P. Sondrup, Virgil Nemoianu, Gerald Gillespie,2004 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction

to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

The Journal of William Dowsing Trevor Cooper,2001 In this modern edition the long separated Cambridgeshire and Suffolk entries are published together for the first time emphasising Dowsing s extensive coverage of the region A detailed commentary accompanies the Journal based on an examination of each of the churches he visited Full use has been made of contemporary records including those of the Cambridge colleges to fill out the details of Dowsing s diary entries maps and photographs graphically illustrate the range and scale of his activities

Remapping Early Modern England Kevin M. Sharpe,2000-05 A collection of new and previously published essays on the culture of the English Renaissance state

The Monograph ,1883 Reflections on the Causes of Human Misery and Upon Certain Proposals to Eliminate Them Barrington Moore,1972 *Aids to Reflection on the seemingly double character of the Established Church, with reference to the foundation of a "Protestant Bishopric" at Jerusalem, recently announced in the Prussian State Gazette* William PALMER (M.A., Fellow of Magdalen College, Oxford.),1841

The Puritan Smile Robert Cummings Neville,1987-09-30 This book develops a contemporary metaphysics of morals Currently the liberal tradition defines the field of moral and political theory It contains the popular utilitarian the deontological and the virtue ethics approaches to normative theory and by a broad dialectical negation it also defines the

historical materialism of Marx The Puritan Smile circumvents the Liberalism Marxism dialectic with the Puritan emphasis on responsibility and their social definition of individuality To this core of classical puritanism is added the deeply rooted sense of culture and the vast historical experience of Confucianism with which it resonates strongly The need for tolerance and the celebration of liberty is asserted by Neville in order to offset the tendencies toward dogmatism and totalitarianism inherent within the Puritan and Confucian views The book integrates a Puritan sense of participation with a Confucian sense of moral obligation and a liberal appreciation of freedom and tolerance

Aids to Reflection on the Seemingly Double Character of the Established Church William Palmer,1841 The Norvicensian Norwich sch,1873 **A Rule of Law** Aaron Palmer,2014-04-03

A Rule of Law Elite Political Authority and the Coming of the Revolution in the South Carolina Lowcountry 1763 1776 by Aaron J Palmer offers a fresh examination of how South Carolina planters and merchants the wealthiest in the thirteen colonies held an iron grip on political power in the province Their authority rooted in control of the colonial legislature s power to make law extended into local government courts plantations and the Church of England areas that previous political studies have not thoroughly considered These elite planters and merchants who were conservative by nature and fiercely guarded their control of provincial government led the province into the American Revolution in defense of the order they had established in the colonial period

Unveiling the Magic of Words: A Report on "**Reflections On The Puritan Revolution**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
