an entire industry change and struggle and collapse and grow we see careers made and ruined studios born and destroyed and the landscape of possibility altered beyond all recognition We see some outsized personalities staking the bets of their lives on a few films that became iconic works that defined the generation and other outsized personalities making equally large wagers that didn't pan out at all The product of extraordinary and unprecedented access to the principals of all five films married to twenty years worth of insight covering the film industry and a bewitching storyteller's gift Mark Harris's *Pictures at a Revolution* is a bravura accomplishment and a work that feels iconic itself

Cultural Boundaries of Science Thomas F. Gieryn, 2022-03-29 Why is science so credible Usual answers center on scientists objective methods or their powerful instruments In his new book Thomas Gieryn argues that a better explanation for the cultural authority of science lies downstream when scientific claims leave laboratories and enter courtrooms boardrooms and living rooms On such occasions we use maps to decide who to believe cultural maps demarcating science from pseudoscience ideology faith or nonsense
