Eighty Days was first published in 1873 and conveys the excitement and fascination felt by both the author and his readers for the Victorian era's fresh new possibilities in travel. The sweep and charm of this adventure classic are undimmed today. With an eye-catching new cover and professionally typeset manuscript, this edition of *Around the World in Eighty Days* is both modern and readable.

Modernist Circumnavigations Kevin Riordan, 2022-05-26 This book shows how Jules Verne's *Around the World in Eighty Days* changed the global imagination. Through his novel, the world was converted into a personal itinerary scaled to the individual traveller and by extension to the individual reader. Exploring Verne's modern legacy, this study shows how subsequent generations of artists and writers took on *Around the World in Eighty Days* as an adaptable guidebook to the modern world. It investigates how Verne's work leads its reader beyond the book itself. It considers Verne's place in world literature, traces some of the many real reenactments of Verne's itinerary, and recalls the theatrical adaptations of Verne's story. Published to coincide with the 500th anniversary of the first circumnavigation and the 150th anniversary of Verne's novel, this book offers new insights into the largely overlooked influence of Verne on twentieth-century literature and culture and on the field of global modernism.

Translating the Monster Douglas Robinson, 2022-10-24 One of the hottest battles emerging out of the theoretical and methodological collisions between Comparative Literature and Translation Studies, especially on the battleground of World Literature, has to do with translatability and untranslatability. Is any translation of a great work of literature not only a lamentable betrayal but an impossibility? Or is translation an imperfect but invaluable tool for the transmission of works and ideas beyond language barriers? Both views are defensible; indeed, both are arguably commonsensical. What Douglas Robinson argues in *Translating the Monster* however is that both are gross oversimplifications of a complex situation that he calls on Jacques Derrida to characterize as the monster. The Finnish novelist Robinson takes as his case study for that monstrous rethinking is Volter Kilpi, 1874-1939, regarded by scholars of Finnish literature as Finland's second world-class writer, the first being Aleksis Kivi, 1834-1872. Kilpi's modernist experiments of the 1930s, especially his so-called Archipelago series beginning with his masterpiece *In the Alastalo Parlor* (1933), were forgotten and neglected for a half-century due to the extreme difficulty of his narrative style; he reinvents the Finnish language to the extent that many Finns say it is like reading a foreign language, and one contemporary critic called it the Mesopotamian language of a half-wit. That novel has been translated exactly twice into Swedish and German. *Translating the Monster* also gives the English-speaking reader an extended taste of the novel in English, en route to a series of reframings of the novel as allegories of translation and world literature.
