Samburu By Pavitt Nigel:

Samburu Nigel Pavitt, 1991 East Africa affects the imagination like few other places on earth Just north of the Equator where the Great Rift Valley provides some of the most spectacular scenery in Kenya lies Samburuland Isolated and inhospitable subject to a fierce climate it is home to a race of proud tough semi nomadic pastoralists The Samburu akin to the more visible and better known Maasai to the south are traditionalists in a world of change The rule of the elders the guidance of an astrologer sage the force of custom and as a last resort the power of a curse maintain law and order within the tribe As the legendary explorer and long time Samburuland resident Wilfred Thesiger puts it in the Introduction Even today Samburuland is a remote area as yet spared the impact of mass tourism such as occurs on the coast and in the Masai Mara Conservative by nature the Samburu still cherish and retain the customs and ceremonies of their ancestors unlike most tribes in Kenya who today have largely abandoned theirs Mr Thesiger continues Much has been written about the Maasai but almost nothing about the Samburu Now fortunately we have Nigel Pavitt s book which deals with their environment and every aspect of their lives No other book about them has previously been published which combines meticulous and hitherto unrecorded accounts of fascinating customs and ceremonies with such exceptional illustrations I was present when new age sets initiation rites that separate boys from warriors warriors from elders were introduced in 1960 in 1976 and in 1990 As a result I began to understand the importance to them of these rituals and ceremonies Until I read Nigel Pavitt s book I had assumed that I was familiar from personal observation with the details of these initiation ceremonies only then did I realize how much I had overlooked and these are only some of the ceremonies with which he deals On his final visit to Lesepan the tribe s sage and astrologer the author is told that if the customs are not rigorously preserved in a few years a child will have a gun instead of a spear Then traditional Samburu life will disappear as utterly as the Bedu vanished from Arabia or the Plains Indians from North America

Indigenous Religious Musics Graham Harvey, 2017-09-08 Celebrating the diversity of indigenous nations cultures and religions the essays which comprise this volume discuss the musics performed by a wide variety of peoples as an integral part of their cultural traditions These include examinations of the various styles of Maori Inuit and Australian Aboriginal musics and the role of music in Korean Shaman rituals Indeed music forms a key component of many such rituals and belief systems and examples of these are explored amongst the peoples of Uganda Amazonia and Africa Through analysis of these rituals and the part music plays in them the essays also open up further themes including social groupings and gender divisions and engage with issues and debates on how we define and approach the study of indigeneity religiosity and music With downloadable resources featuring some of the music discussed in the book and further information on other available recordings this is a book which gives readers the opportunity to gain a richer experience of the lived realities of indigenous religious musics

Ethno-erotic Economies George Paul Meiu, 2017-10-10 Ethno erotic Economies explores a fascinating case of tourism focused on sex and culture in coastal Kenya where young men deploy

stereotypes of African warriors to help them establish transactional sexual relationships with European women In bars and on beaches young men deliberately cultivate their images as sexually potent African men to attract women sometimes for a night in other cases for long term relationships George Paul Meiu uses his deep familiarity with the communities these men come from to explore the long term effects of markets of ethnic culture and sexuality on a wide range of aspects of life in rural Kenya including kinship ritual gender intimate affection and conceptions of aging What happens to these communities when young men return with such surprising wealth And how do they use it to improve their social standing locally By answering these questions *Ethno erotic Economies* offers a complex look at how intimacy and ethnicity come together to shape the pathways of global and local trade in the postcolonial world [Hyena and the Moon](#) Heather McNeil,1994-05-15 Gathered from 7 of the more than 40 ethnic groups of Kenya these stories are brought to you both as original translations and as lively ready to use retellings Ethnic groups represented are the Kikuyu Turkana Akamba Kipsigis Taita Luhya and Samburu Cultural and historical background information on the groups notes on the stories lists of further resources and tips for retelling make this collection useful to librarians storytellers public speakers teachers and parents The fascinating account of McNeils s own experiences and observations in collecting the tales is woven throughout the book Beautiful color photos of Kenyan storytellers and the animals portrayed in the stories illustrate her journey and the tales *The White Spaces of Kenyan Settler Writing* Terrence L. Craig,2017-03-27 *The White Spaces of Kenyan Settler Writing* provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period *African Art and the Colonial Encounter* Sidney Littlefield Kasfir,2007-10-24 Focusing on the theme of warriorhood Sidney Littlefield Kasfir weaves a complex history of how colonial influence forever changed artistic practice objects and their meaning Looking at two widely diverse cultures the Idoma in Nigeria and the Samburu in Kenya Kasfir makes a bold statement about the links between colonialism the Europeans image of Africans Africans changing self representation and the impact of global trade on cultural artifacts and the making of art This intriguing history of the interaction between peoples aesthetics morals artistic objects

and practices and the global trade in African art challenges current ideas about artistic production and representation

as if they were disparate or disconnected Instead the chapters within the volume reevaluate African history through a geopolitically transcendent lens that brings African countries into conversation with other pertinent histories both within and outside of the continent The collection analyzes the pre and post colonial eras within African countries such as Kenya Malawi and Sudan examining major historical figures and events struggles for independence and stability contemporary urban settlements social and economic development as well as constitutional legal and human rights issues that began in the colonial era and persist to this day *The Wayfinders* Wade Davis,2009 Many of us are alarmed by the accelerating rates of extinction of plants and animals But how many of us know that human cultures are going extinct at an even more shocking rate While biologists estimate that 18 percent of mammals and 11 percent of birds are threatened and botanists anticipate the loss of 8 percent of flora anthropologists predict that fully 50 percent of the 7 000 languages spoken around the world today will disappear within our lifetimes And languages are merely the canaries in the coal mine what of the knowledge stories songs and ways of seeing encoded in these voices In *The Wayfinders* Wade Davis offers a gripping and enlightening account of this urgent crisis He leads us on a fascinating tour through a handful of indigenous cultures describing the worldviews they represent and reminding us of the encroaching danger to humankind s survival should they vanish
