Ego-Mankind's Inner Terrorist! Gene Matlock,2005-09 Gene Matlock says personal testimonies of reincarnation contact with spirits bilocation and all manner of psychic events are invalid as scientific proofs Most people aren t conscious of psychic experiences and events operating in their lives Gene says that we can and must provide our fellow humans with a common and collective memory of having lived before They don t need to remember any details of past lives but just the memory of having had repeated births and deaths Gene claims to have valid evidence that all of us remember having lived before Gene also traces the original meaning of God back to its North Indian roots telling how God reveals his her existence through natural archetypes He says Christianity originated more than ten millennia ago in India as Krishtaya providing historical evidence He also explains carefully why religion can never be eradicated plus many other fascinating and little known facts Gene shows how anyone can break the Bible Code easily without computer assistance Within these pages is a simple instant Cabala for all people of all religions

Logic and Philosophy of Science in Uppsala D. Prawitz,Dag Westerståhl,2013-06-29 The International Congresses of Logic Methodology and Philosophy of Science which are held every fourth year give a cross section of ongoing research in logic and philosophy of science Both the invited lectures and the many contributed papers are conducive to this end At the 9th Congress held in Uppsala in 1991 there were 54 invited lectures and around 650 contributed papers divided into 15 different sections Some of the speakers who presented contributed papers that attracted special interest were invited to submit their papers for publication and the result is the present volume A few papers appear here more or less as they were presented at the Congress whereas others are expansions or elaborations of the talks given at the Congress A selection of this kind containing 38 papers drawn from the 650 contributed papers presented at the Uppsala Congress cannot do justice to all facets of the field as it appeared at the Congress But it should allow the reader to get a representative survey of contemporary research in large areas of philosophical logic and philosophy of science About half of the papers of the volume appear in sections listed at the Congress under the heading Philosophical and Foundational Problems about the Sciences The section Foundations of Logic Mathematics and Computer Science is represented by three papers Foundations of Physical Sciences by six papers Foundations of Biological Sciences by three papers Foundations of Cognitive Science and AI by one paper and Foundations of Linguistics by three papers
