Clausen, 1982 The Cambridge History of Classical Literature provides a comprehensive critical survey of the literature of Greece and Rome from Homer till the Fall of Rome This is the only modern work of this scope it embodies the very considerable advances made by recent classical scholarship and reflects too the increasing sophistication and vigour of critical work on ancient literature The literature is presented throughout in the context of the culture and the social and historical processes of which it is an integral part The overall aim is to offer an authoritative work of reference and appraisal for one of the world's greatest continuous literary traditions The work is divided into two volumes each with a similar and broadly chronological structure Among the special features are important introductory chapters by the General Editors on Books and Readers discussing the conditions under which literature was written and read in antiquity There are also extensive Appendices on Authors and Works giving detailed factual information in a convenient form Technical annotation is otherwise kept to a minimum and all quotations in foreign languages are translated *Textual Criticism and Editorial Technique Applicable to Greek and Latin Texts* Martin Litchfield West, 1973
