 guan li ju ban ben tu shu guan,1956      ,1999      Information Assurance Andrew Blyth,Gerald L. Kovacich,2013-04-17  
 When you first hear the term Information Assurance you tend to conjure up an image of a balanced set of reasonable  
 measures that have been taken to protect the information after an assessment has been made of risks that are posed to it In  
 truth this is the Holy Grail that all organisations that value their information should strive to achieve but which few even  
 understand Information Assurance is a term that has recently come into common use When talking with old timers in IT or at  
 least those that are over 35 years old you will hear them talking about information security a term that has survived since the  
 birth of the computer In the more recent past the term Information Warfare was coined to describe the measures that need  
 to be taken to defend and attack information This term however has military connotations after all warfare is normally their  
 domain Shortly after the term came into regular use it was applied to a variety of situations encapsulated by Winn Schwartau  
 as the three classes of Information Warfare Class 1 Personal Information Warfare Class 2 Corporate Information Warfare  
 Class 3 Global Information Warfare Political sensitivities lead to warfare being replaced by operations a much more  
 politically correct word Unfortunately operations also has an offensive connotation and is still the terminology of the military  
 and governments      *MCSE Fast Track* Emmett A. Dulaney,1998 The two parts of this book cover what readers need to know  
 to pass the MCSE and takes readers through the test with chapters on sample test questions and an Insider s spin on
