contained in the possibility of large land owners being permitted to work their estates with cheap Oriental labor The necessity of making the state attractive to immigrants and the good results which would ensue from the creation of a population mainly made up of small farmers were likewise emphasized and the rational view which subsequently prevailed was clearly set forth About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
