attitude towards improving nature the romantic approach which prevailed from the 1860s to the 1880s emphasized the beauty of nature while the rationalistic approach dominant from the 1880s to the 1920s saw nature as the best setting for uplifting activities such as athletics and education Building San Francisco s Parks 1850 1930 maps the political cultural and social dimensions of landscape design in urban America and offers new insights into the transformation of San Francisco s physical environment and quality of life through its world famous park system *A List of Maps of America in the Library of Congress* Library of Congress.
