San Francisco, 1846-1856 Roger W. Lotchin, 1974 Kathleen Gregory Klein traces female paid professional private investigators in British Canadian and American novels revealing that the detective novel is both a reflection of and potential barrier to social change for women This edition adds sixty new female private eyes to the roster and includes an afterword that assesses the current state of the genre s new and old novels A comprehensive bibliography and a character list update the field through mid 1994 [A History of the City of San Francisco and Incidentally of the State of California](#) John Shertzer Hittell, 1878 [A Short History of San Francisco](#) Tom Cole, 2012-03-01 A concise colorful well told history of the City by the Bay from the Gold Rush to the Summer of Love to the twenty first century Los Angeles Times This is the story of San Francisco a unique and rowdy tale with a legendary cast of characters It tells of the Indians and the Spanish missions the arrival of thousands of gold seekers and gamblers crackbrains and dreamers the building of the transcontinental railroad and the cable car labor strife and political shenanigans the 1906 earthquake and fire two World Wars two World s Fairs two great bridges the beatniks and hippies and New Left a story that is so marvelous and wild that it must be true A new afterword from the author in this updated third edition brings The City into the twenty first century a time just as hectic experimental and opportunistic as its rambunctious past **Making San Francisco American** Barbara Berglund, 2007 Focuses on the 19th century transformation in San Francisco from Gold Rush to earthquake to show how the city s diverse residents created a modern American city through everyday cultural frontiers such as restaurants hotels and annual fairs and expositions among others *Designing San Francisco* Alison Isenberg, 2024-09-24 A major urban history of the design and development of postwar San Francisco Designing San Francisco is the untold story of the formative postwar decades when U S cities took their modern shape amid clashing visions of the future In this pathbreaking and richly illustrated book Alison Isenberg shifts the focus from architects and city planners those most often hailed in histories of urban development and design to the unsung artists activists and others who played pivotal roles in rebuilding San Francisco between the 1940s and the 1970s Previous accounts of midcentury urban renewal have focused on the opposing terms set down by Robert Moses and Jane Jacobs put simply development versus preservation and have followed New York City models Now Isenberg turns our attention west to colorful pioneering and contentious San Francisco where unexpectedly fierce battles were waged over iconic private and public projects like Ghirardelli Square Golden Gateway and the Transamerica Pyramid When large scale redevelopment came to low rise San Francisco in the 1950s the resulting rivalries and conflicts sparked the proliferation of numerous allied arts fields and their professionals including architectural model makers real estate publicists graphic designers photographers property managers builders sculptors public interest lawyers alternative press writers and preservationists Isenberg explores how these centrally engaged arts professionals brought new ideas to city regional and national planning and shaped novel projects across urban suburban and rural borders San Francisco s rebuilding galvanized

far reaching critiques of the inequitable competition for scarce urban land and propelled debates over responsible public land stewardship Isenberg challenges many truisms of this renewal era especially the presumed male domination of postwar urban design showing how women collaborated in city building long before feminism s impact in the 1970s An evocative portrait of one of the world s great cities *Designing San Francisco* provides a new paradigm for understanding past and present struggles to define the urban future
