## **Sanctifying Signs Making Christian Tradition In Late Medieval England:**

*Sanctifying Signs* David Aers, 2004 *Sanctifying Signs* presents a critical study of Christian literature theology and culture in late medieval England *The Visual Object of Desire in Late Medieval England* Sarah Stanbury, 2015-07-10 Little remains of the rich visual culture of late medieval English piety The century and a half leading up to the Reformation had seen an unparalleled growth of devotional arts as chapels parish churches and cathedrals came to be filled with images in stone wood alabaster glass embroidery and paint of newly personalized saints angels and the Holy Family But much of this fell victim to the Royal Injunctions of September 1538 when parish officials were ordered to remove images from their churches In this highly insightful book Sarah Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists For Chaucer Nicholas Love and Margery Kempe the image debate provides an urgent language for exploring the demands of a material devotional culture though these writers by no means agree on the ethics of those demands The chronicler Henry Knighton invoked a statue of St Katherine to illustrate a lurid story about image breaking Lollards Later John Capgrave wrote a long Katherine legend that comments through the drama of a saint in action on the powers and uses of religious images As Stanbury contends England in the late Middle Ages was keenly attuned to and troubled by its culture of the spectacle whether this spectacle took the form of a newly made queen in Chaucer's Clerk's Tale or of the animate Christ in Norwich Cathedral's Despenser Retable In picturing images and icons these texts were responding to reformist controversies as well as to the social and economic demands of things themselves the provocative objects that made up the fabric of ritual life Pastoral Care in Medieval England Peter Clarke, Sarah James, 2019-08-06 Pastoral Care the religious mission of the Church to minister to the laity and care for their spiritual welfare has been a subject of growing interest in medieval studies This volume breaks new ground with its broad chronological scope from the early eleventh to the late fifteenth centuries and its interdisciplinary breadth New and established scholars from a range of disciplines including history literary studies art history and musicology bring their specialist perspectives to bear on textual and visual source materials The varied contributions include discussions of politics ecclesiology book history theology and patronage forming a series of conversations that reveal both continuities and divergences across time and media and exemplify the enriching effects of interdisciplinary work upon our understanding of this important topic **Medieval Allegory as Epistemology** Marco Nievergelt, 2023-03-21 In *Medieval Allegory as Epistemology* Marco Nievergelt argues that late medieval dream poetry was able to use the tools of allegorical fiction to explore a set of complex philosophical questions regarding the nature of human knowledge The focus is on three of the most widely read and influential poems of the later Middle Ages Jean de Meun's *Roman de la Rose* the *Pelerinages* trilogy of Guillaume de Deguileville and William Langland's vision of *Piers Plowman* in its various versions All three poets grapple with a collection of shared closely related epistemological problems that emerged in Western Europe during the thirteenth century in the wake of the reception of the

complete body of Aristotle's works on logic and the natural sciences. This study therefore not only examines the intertextual and literary historical relations linking the work of the three poets but takes their shared interest in cognition and epistemology as a starting point to assess their wider cultural and intellectual significance in the context of broader developments in late medieval philosophy of mind, knowledge and language. Vernacular literature more broadly played an extremely important role in lending an enlarged cultural resonance to philosophical ideas developed by scholastic thinkers but it is also shown that allegorical narrative could prompt philosophical speculation on its own terms deliberately interrogating the dominance and authority of scholastic discourses and institutions by using first person fictional narrative as a tool for intellectual speculation.

**Artisans and Narrative Craft in Late Medieval England** Lisa H. Cooper, 2011-03-10

**Piers Plowman and the Reinvention of Church Law in the Late Middle Ages** Arvind Thomas, 2019-03-14

It is a medieval truism that the poet meddles with words, the lawyer with the world. But are the poet's words and the lawyer's world really so far apart? To what extent does the art of making poems share in the craft of making laws and vice versa? Framed by such questions, *Piers Plowman and the Reinvention of Church Law in the Late Middle Ages* examines the mutually productive interaction between literary and legal makynge in England's great Middle English poem by William Langland. Focusing on *Piers Plowman*'s preoccupation with wrongdoing in the B and C versions, Arvind Thomas examines the versions' representations of trials, confessions, restitutions, penalties and pardons. Thomas explores how the literary informs and transforms the legal until they finally cannot be separated. Thomas shows how the poem's narrative voice, metaphor, syntax and style not only reflect but also act upon properties of canon law such as penitential procedures and authoritative maxims. Langland's mobilization of juridical concepts, Thomas insists, not only engenders a poetics informed by canonist thought but also expresses an alternative vision of canon law from that proposed by medieval jurists and today's medievalists.

**The Medicine of the Friars in Medieval England** Peter Murray Jones, 2024. Drawing upon a surprising wealth of evidence found in surviving manuscripts, this book restores friars to their rightful place in the history of English health care. Friars are often overlooked in the picture of health care in late medieval England. Physicians, surgeons, apothecaries, barbers, midwives: these are the people we think of immediately as agents of healing whilst we identify university teachers as authorities on medical writings. Yet from their first appearance in England in the 1220s to the dispersal of the friaries in the 1530s, four orders of friars were active as healers of every type. Their care extended beyond the circle of their own brethren; patients included royalty, nobles and bishops, and they also provided charitable aid and relief to the poor. They wrote about medicine

too Bartholomew the Englishman and Roger Bacon were arguably the most influential authors alongside the Dominican Henry Daniel Nor should we forget the anonymous Franciscan compilers of the *Tabula medicine* a handbook of cures which amongst other items contains case histories of friars practising medicine Even after the Reformation these texts continued to circulate and find new readers amongst practitioners and householders This book restores friars to their rightful place in the history of English health care exploring the complex productive entanglement between care of the soul and healing of the body in both theoretical and practical terms Drawing upon the surprising wealth of evidence found in the surviving manuscripts it brings to light individuals such as William Holme c 1400 and his patient the duke of York d 1402 who suffered from swollen legs Holme also wrote about medicinal simples and gave instructions for dealing with eye and voice problems experienced by his brother Franciscans Friars from the thirteenth century onwards wrote their medicine differently reflecting their religious vocation as preachers and confessors

Cultural Reformations Brian Cummings, James Simpson, 2010-06-24 The deepest periodic division in English literary history has been between the medieval and the early modern Cultural Reformations initiates discussion on many fronts in which both periods look different in dialogue with each other

**The Quest for the Christ Child in the Later Middle Ages** Mary Dzon, 2017-03-09 Beginning in the twelfth

century clergy and laity alike started wondering with intensity about the historical and developmental details of Jesus early life Was the Christ Child like other children whose characteristics and capabilities depended on their age Was he sweet and tender or formidable and powerful Not finding sufficient information in the Gospels which are almost completely silent about Jesus childhood medieval Christians turned to centuries old apocryphal texts for answers In *The Quest for the Christ Child in the Later Middle Ages* Mary Dzon demonstrates how these apocryphal legends fostered a vibrant and creative medieval piety Popular tales about the Christ Child entertained the laity and at the same time were reviled by some members of the intellectual elite of the church In either case such legends so persistent left their mark on theological devotional and literary texts The Cistercian abbot Aelred of Rievaulx urged his monastic readers to imitate the Christ Child s development through spiritual growth Francis of Assisi encouraged his followers to emulate the Christ Child s poverty and rusticity Thomas Aquinas for his part believed that apocryphal stories about the Christ Child would encourage youths to be presumptuous while Birgitta of Sweden provided pious alternatives in her many Marian revelations Through close readings of such writings Dzon explores the continued transmission and appeal of apocryphal legends throughout the Middle Ages and demonstrates the significant impact that the Christ Child had in shaping the medieval religious imagination

**Studies in the Transmission of Wyclif's Writings** Anne Hudson, 2023-05-31 Wyclif s ideas caused a major upheaval both in the country of his birth and in the Bohemian area of central Europe that upheaval affected theological ecclesiastical and political developments from the late 14th to the early 16th centuries Some of those ideas were transmitted orally through Wyclif s university teaching in Oxford and in his preaching in London and Lutterworth but the main medium through which his message was disseminated was the written word using the universal western language of Latin The papers in this collection look at aspects of that dissemination from the organization and revision of Wyclif s works to form a summa of his ideas the techniques devised to identify and make accessible his multifarious writings the attempts of the orthodox clerical establishment to destroy them through to the fortunes of his texts in the Reformation period manuscripts written in England and those copied abroad mostly in Bohemia are considered Although most of the papers have been published previously a new edition of the important Hussite catalogue of Wyclif s writings is provided and three lengthy sections contribute new material and additions and corrections to previous listings of Wyclif manuscripts

*Tellers, Tales, and Translation in Chaucer's Canterbury Tales* Warren Ginsberg, 2015 *Tellers Tales and Translation* argues that Chaucer often recast a coordinating idea or set of concerns in the portraits prologues tales and epilogues that make up a Canterbury performance

Cushions, Kitchens and Christ Louise Campion, 2022-01-15 This book represents the first full length study of the prevalence of domestic imagery in late medieval religious literature It examines as yet understudied patterns of household imagery and allegory across four fifteenth century spiritual texts all of which are Middle English translations of earlier Latin works These texts are drawn from a range of popular genres of medieval religious writing including spiritual guidance texts

Lives of Christ and collections of revelations received by visionary women All of the texts discussed in this book have identifiable late medieval readers which further enables a discussion of the way in which these book users might have responded to the domestic images in each one This is a hugely important area of enquiry as the literal late medieval household was becoming increasingly culturally important during the fourteenth and fifteenth centuries and these texts frequent recourse to domestic imagery would have been especially pertinent

**The Arts of Disruption** Nicolette Zeeman, 2020 This volume offers original readings of Piers Plowman and rethinks the genre of allegorical narrative in the Middle Ages It presents five studies of allegorical narratives with implications for different aspects of medieval culture

*Medieval Poetics and Social Practice* Seeta Chaganti, 2012 This collection responds to the critical legacy of Penn R Szittya Its contributors investigate how medieval poetic language reflects and shapes social political and religious worlds In addition to new readings of canonical poetic texts it includes readings of texts that have previously not held a central place in critical attention

Two Guides for the Journey Sheryl Overmyer, 2016-10-27 Thomas Aquinas and William Langland inherited the dynamic metaphor of journeying as a fundamental concept of the Christian life and harnessed it to animate their magisterial texts the Summa Theologiae and Piers Plowman Christians journey back to God consists in the way of charity yet it is far from straightforward or sequential Rather it is impinged upon by epistemic ambiguity our willful continued habits of resistance and inherent limitations on our perfection In sum the virtues are divine gifts humanly received treasure in earthen vessels Together these authors show the complexity we ourselves will find along this life s journey enable our understanding to appreciate that complexity and in limited ways cultivate in us the virtues they describe

Singing the New Song Katherine Zieman, 2013-02-12 In Singing the New Song Katherine Zieman examines the institutions and practices of the liturgy as central to changes in late medieval English understandings of the written word Where previous studies have described how writing comes to supplant oral forms of communication or how it objectifies relations of power formerly transacted through

ritual and ceremony Zieman shifts the critical gaze to the ritual performance of written texts in the liturgy effectively changing the focus from writing to reading Beginning with a history of the elementary educational institution known to modern scholars as the song school Zieman shows the continued centrality of liturgical and devotional texts to the earliest stages of literacy training and spiritual formation Originally these schools were created to provide liturgical training for literate adult performers who had already mastered the grammatical arts From the late thirteenth century on however the attention and resources of both lay and clerical patrons came to be devoted specifically to young boys centering on their function as choristers Because choristers needed to be trained before they received instruction in grammar the liturgical skills of reading and singing took on a different meaning This shift in priorities Zieman argues is paradigmatic of broader cultural changes in which increased interest in liturgical performance and varying definitions attached to reading and singing caused these practices to take on a life of their own unyoked from their original institutional settings of monastery and cathedral Unmoored from the context of the choral community reading and singing developed into discrete portable skills that could be put to use in a number of contexts sacred and secular Latin and vernacular Ultimately they would be carried into a wider public sphere where they would be transformed into public modes of discourse appropriated by vernacular writers such as Geoffrey Chaucer and William Langland Staging Harmony Katherine Steele

Brokaw, 2016-07-18 In Staging Harmony Katherine Steele Brokaw reveals how the relationship between drama music and religious change across England's long sixteenth century moved religious discourse to more moderate positions It did so by reproducing the complex personal attachments nostalgic overtones and bodily effects that allow performed music to evoke the feeling if not always the reality of social harmony Brokaw demonstrates how theatrical music from the late fifteenth to the early seventeenth centuries contributed to contemporary discourses on the power and morality of music and its proper role in religious life shaping the changes made to church music as well as people's reception of those changes In representing social affective and religious life in all its intricacy and in unifying auditors in shared acoustic experiences staged musical moments suggested the value of complexity resolution and compromise rather than oversimplified absolutist binaries worth killing or dying for The theater represented the music of the church's present and past By bringing medieval and early Tudor drama into conversation with Elizabethan and Jacobean drama Brokaw uncovers connections and continuities across diverse dramatic forms and demonstrates the staying power of musical performance traditions In analyzing musical practices and discourses theological debates devotional practices and early staging conditions Brokaw offers new readings of well known plays Marlowe's *Doctor Faustus* Shakespeare's *The Tempest* and *The Winter's Tale* as well as Tudor dramas by playwrights including John Bale Nicholas Udall and William Wager
