Sanctity Of Time And Space In Tradition And Modern:

Sanctity of Time and Space in Tradition and Modernity Alberdina Houtman, Joshua J. Schwartz, Marcel Poorthuis, 2020-01-29 Time and space can take on a sacred nature in both Judaism and Christianity accompanied by a permanent critical attitude towards the sacred Conceptions of sacredness imply a conception of community and of society at large This study investigates the different attitudes toward sacred time and space from an interdisciplinary perspective ranging from the Biblical period through Qumran Patristics Rabbinics archaeology and theology to modern and even to post modern rituals This approach offers a fascinating insight into both the common heritage of Judaism and Christianity and their mutual differences Paratext and Megatext as Channels of Jewish and Christian Traditions August den Hollander, Ulrich Schmid, Willem Smelik, 2020-01-29 Religious traditions are channeled to new audiences by textual markers which inform their understanding and influence Such markers are signs of contextualisation which belong to the paratext of a tradition textual elements that do not belong to the core text itself but belong to their embedding and as such affect their reception Alternatively some texts function purposely in tandem with another text and cannot be understood without that text While the second text informs the way the first one is being understood it can hardly function independently The discussions include the arrangement of textual blocks in the Hebrew Bible how the oral transmission of Jewish Aramaic Bible translations had to be recited as a counterpoint to the Hebrew chant how synagogue poetry presupposes the channels of liturgical instruction how the Talmud can be perceived as a translation of Mishnah how the presence of paratextual elements such as annotations and prefaces influenced the Index Librorum Prohibitorum concerning 16th century Bibles the function of paratext and scope for modern Bible translations This volume will tentatively explore the wide range of paratext and megatext as devices of channeling religious traditions **Religious Identity and the Problem of Historical Foundation** Judith Frishman, Willemien Otten, Gerard Rouwhorst, 2004-02-01 The essays collected in this book deal with the question how throughout the history of Christianity Christian communities have tried to construct their identity by anchoring their views in authoritative and normative sources The main focus is upon the problem of historical foundation through textual traditions but other authoritative sources role of religious leaders ritual traditions are taken into consideration as well The book takes as its point of departure the fact that with the rise of modernity the former dependence of western church and society on authoritative sources was called into question Ever since appeal to such sources is no longer self evident at times it is even regarded as problematic Based on this radical change brought about by modernity the book is divided in two main parts The first part deals with the question how Christian churches and confessions Roman Catholic and Protestant confronted modernity and which role was played by authoritative sources in the tradition to the modern era Special attention will be paid to the way in which Judaism reacted to many of the same impulses both societal and religious ones The second part deals with the premodern period from early Christianity to the post Reformation era and focuses on the role authoritative

traditions textual or otherwise have played in providing various Christian communities with a relative stable identity The aim of the book is to elucidate processes resulting in the formation of authoritative traditions as well as the effects of these traditions on the identity of Christian and Jewish communities In addition the book attempts to clarify the various ways in which Christian and Jewish communities have reacted to the growing suspicion authoritative traditions aroused in the western world since the rise of modernity

Sanctity of Time and Space in Tradition and Modernity Alberdina Houtman,M. J. H. M. Poorthuis,Joshua J. Schwartz,1998 Time and space can take on a sacred nature in both Judaism and Christianity accompanied by a permanent critical attitude towards the sacred Conceptions of sacredness imply a conception of community and of society at large This study investigates the different attitudes toward sacred time and space from an interdisciplinary perspective ranging from the Biblical period through Qumran Patristics Rabbinics archaeology and theology to modern and even to post modern rituals This approach offers a fascinating insight into both the common heritage of Judaism and Christianity and their mutual differences

The Politics of Economic Life Martin Beckstein,2015-09-07 In recent years economic life has become increasingly politicized now every company has a philosophy promising its customers some ethical surplus in return for buying their products consumers shop for change workers engage in individualized forms of employee activism such as whistleblowing and governments contribute to the re configuration of the economic sphere as a site of political contestation by reminding corporate and private economic actors of their duty to do their bit The Politics of Economic Life addresses this trend by exploring the ways in which practices of consumption work production and entrepreneurship are imbued with political strategy and ideology and assesses the potentials and perils of the politicization of economic activity for democracy in the 21st century

Saints and Role Models in Judaism and Christianity Marcel Poorthuis,Joshua J. Schwartz,2004-01-01 This volume deals with the role of saints and exemplary individuals in Judaism and Christianity Although sharing the Hebrew Bible and recognizing the same Biblical figures there both religions have developed widely divergent perspectives upon the significance of these figures although there are occasional common motifs and themes Moreover even the contrasting themes betray an underlying interaction between both religions as is clear from the contributions on for example Melchizedek Elijah the Desert Fathers Rabbis on clothing the Apostle Peter in Jewish tradition the Maccabees in Christian tradition and the Biblical examples in Saint Antony the Hermit The book examines Jewish and Christian perspectives upon saints and role models from the Biblical period to the present time It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology rabbinics history art history and much more

Purity and Holiness Marcel Poorthuis, Joshua J. Schwartz, 2020-01-29 Purity has long been recognized as one of the essential drives which determines humankind's relationship with the holy Codes of purity and impurity dealing with such far ranging topics as external stains and inner remorse represent the physical and bodily side of religious experience and provide the key to the understanding of human orientation to nature and the structure of society including even relationships between the sexes Starting with the Hebrew Bible a number of articles study some rather neglected passages from both exegetical and cultural anthropological standpoints Next it is shown that the concept of purity is far more central to the New Testament than previously thought Luke is portrayed as a Jewish oriented writer The discussion of purity in Mark is compared with Rabbinical and Qumranic material Patristic discussions of purity reflect both allegorical and literal interpretations while rabbinical rulings display a fine sense for detail and realia Biblical references to illness are interpreted both in Christian and Jewish traditions as a metaphor for immoral behavior The present collection of studies proceeds far beyond other collections on purity studying both the medieval and modern periods Purity rules in both Christian and Jewish society do not disappear in the Middle Ages but become increasingly stronger Sometimes there appear unexpected and surprising similarities between both societies Modern society sees a decline in the importance of purity reflecting a growing ambiguous attitude to the relationship between the body and the holy A feminist perspective is also provided examining the intertwined relationship between religion gender and power Exegesis archaeology liturgy anthropology and even architecture are all used to study the complex phenomena of purity in their religious and social dimensions from both Christian and Jewish perspectives

A Holy People Marcel Poorthuis, Joshua J. Schwartz, 2006-05-01 A Holy

People investigate the various ways in which Jews and Christians define their religious identity people or community as being holy Keeping in mind that historical studies can offer food for thought regarding contemporary issues the study offers a large collection of essays relating to the biblical patristic and medieval period and especially to the modern period The obvious question of many in the modern world as to whether the attribute of the holiness allows for acknowledgement of authentic religion outside the own religious community deserves an honest answer and well documented study too easily the claim of holiness intertwines with claims of power whether by rivalling groups within the religious community by groups divided along gender lines or on the level of territorial claims It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology rabbinics history political science and much more **Nationalism**

and the Israeli State Don Handelman, 2020-06-11 National festivals Military parades Patriotic memorials Such public events and tributes naturally bring to mind the idea of nationalism But what is the cultural logic behind them How does a country such as Israel facilitate state related public events as enactments of nationalism To answer these questions renowned anthropologist Don Handelman unpacks the meaning of national ritual and symbol in Israel today He argues that public events mirror social order a mirror that reflects to its participants and audiences the message that the designers of such events wish to communicate Handelman considers the meaning of Holocaust and military memorialism and he investigates the role of holiday celebrations especially how they affect young children first learning about their country Analyzing state ceremonies such as Holocaust Remembrance Day for the war dead and Independence Day he notes the absence of minorities and examines their significance in the promotion of a national identity He also looks at how Israel exports powerful symbols of statehood Throughout Handelman develops his theory of bureaucratic logic as the driving force behind expressions of nationalism in the modern state He argues that bureaucratic logic has a much wider cachet than simply functioning as a way of thinking only about bureaucratic institutions The logic is crucial to how these institutions function but more so it is a dominant force in forming modern state social order Bureaucratic logic is used incessantly to invent and to modify all kinds of systems of classification that often have profound consequences for individuals and for groups and that are ritualized powerfully through a host of state related public events After Eden Hanneke

Reuling, 2005-10-01 This volume charts the interpretation of Genesis 3 16 21 in a number of patristic and classical rabbinic sources It is a case study in the reception of a biblical fragment in two intrinsically related yet distinct interpretative communities early Christianity and rabbinic Judaism Following the lead of the biblical text this study sheds new light on each tradition's view of the human condition more specifically on the way Church Fathers and Rabbis approach the themes of procreation labour mortality and corporeality The book carefully studies the reading of the biblical text as proposed by a number of representative and influential authors or documents including Ambrose of Milan Didymus the Blind John Chrysostom and Augustine as well as Genesis Rabbah and Avot de Rabbi Nathan The introductions at the beginning of each
