**Decker's patterns of exposition. 13** Randall E. Decker,1992 The Darwinian Delusion Michael Ebifegha,2011-10-14 The postulate of molecules to human evolution by natural selection evolutionism like creationism cannot be demonstrated empirically Therefore the creationism evolutionism controversy offers a choice between intelligent design by God and unintelligent design by evolutionary selection Scientists are split on philosophical grounds since events in the immaterial realm are outside the purview of science In reality designers claim products no product of a process can account for how it was designed or for its ontology Accordingly Scientific American Editor John Rennie suggested that one way to override a purely evolutionary worldview is if the creator s appeared and claimed credit Author Michael Ebifegha s previous book The Death of Evolution provides the historical details of Gods ancient claim for creating the universe before an audience Dawkins in his The God Delusion failed to address this historical event hence his statement that There almost certainly is no God is flawed The Darwinian Delusion discusses the fossil record the role of natural selection the mystery of the origin of life and Gods affirmation of agency in world history Ebifegha argues that both the scientific and philosophical analysis point to God as the Creator and hence the delusion as such is not about God but about the Darwinian paradigm of materialism
