Securing Compliance Seven Case Studies:

Encyclopedia of Prostitution and Sex Work Melissa Hope Ditmore, 2006-08-30 The cliché is that prostitution is the oldest profession. Isn't it time that the subject received a full reference treatment? This major 2 volume set is the first to treat in an inclusive reference what is usually considered a societal failing and the underside of sexuality and economic survival. The A to Z encyclopedia offers wide ranging entries related to prostitution and the sex industry past and present both worldwide mostly in the West and in the United States. The topic of prostitution has high interest appeal across disciplines and the narrative entries illuminate literature, art, law, medicine, economics, politics, women's studies, religion, sociology, sexuality, film, popular culture, public health, nonfiction, American and world history, business, gender, media, education, crime, race, technology, performing arts, family, social work, social mores, pornography, the military, tourism, child labor, and more. It is targeted to the general reader who will gain useful insight into the human race through time via its sex industry and prostitution. An introduction overviews the scope of prostitution from the earliest historical records including the Bible. User friendly lists that are alphabetically and topically arranged help the reader find entries of interest as does the comprehensive index. A chronology proffers significant dates related to the topic. Each entry is signed and has suggestions for further reading. Sample entries: Abolition, Actresses, Augustine, Saint Barr, Candy, Bible, Camp Followers, Chamberlain, Kahn, Bill of 1918, Child Prostitution, Clothing, Contagious Diseases, Acts of 1864, 1866 and 1869, Crime, Debby, Doesn't Do It for Free, Dickens, Charles, Devadasi, Entrapment, Fallen Woman, Trope, Feminism, Films, Cult, Five Points, Free Love, Geisha, Globalization, Guidebooks, Hip Hop, HIV/AIDS and the Prostitution Rights Movement, Human Rights, Incest, Internet, Jack the Ripper, Kama Sutra, League of Nations, Lulu, Male Stripping, Mann Act, Mayhew, Henry, Memoirs, Migration and Mobility, Nazi Germany, Poetry, Purity Movements, R, Religion, Salvation Army, Scapegoating, Slang, Storyville, Temporary Marriage, Unions, Venice, Window Prostitution.

Restorative Justice Declan Roche, 2017-11-30 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system. This volume brings together the leading work on restorative justice to achieve two objectives: to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further. The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses. Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates, victim satisfaction and reintegration. The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers. It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate.

over restorative justice *Handbook on Crime* Fiona Brookman, Mike Maguire, Harriet Pierpoint, Trevor Bennett, 2010-02

This comprehensive edited volume contains analysis and explanation of the nature extent patterns and causes of over 40 different forms of crime in each case drawing attention to key contemporary debates and social and criminal justice responses

City of Order Michael Boudreau, 2012-05-15 Interwar Halifax was a city in flux a place where citizens debated adopting new ideas and technologies but agreed on one thing modernity was corrupting public morality and unleashing untold social problems on their fair city To create a bulwark against further social dislocation citizens policy makers and officials modernized the city s machinery of order courts prisons and the police force and placed greater emphasis on crime control These tough on crime measures Boudreau argues did not resolve problems but rather singled out ethnic minorities working class men and female and juvenile offenders as problem figures in the eternal quest for order **Asia-Pacific**

Legal Development Gerry Ferguson, 2011-11-01 In this age of globalization many legal experts see evidence of swift global movement toward an eventual single world legal system Yet the trend to political and economic integration in some parts of the world is matched by the trend to disintegration in others where strong cultural and political resistance to external influences exists Asia Pacific Legal Development traces current and prospective developments in several legal systems of the Asia Pacific region to make sense of these trends and counter trends The contributing authors represent a wide variety of specialist expertise both public and private and together they encompass the three sectors that constitute a modern system of formal law the economic the behavioural and the civic Taking into account the opinions and perspectives of both indigenous and non indigenous experts on topics ranging from prostitution to constitutional law the book surveys how several ASEAN nations as well as Canada Australia and New Zealand are confronting social economic and legal change In the first three parts chapters are grouped along general sectoral lines to cover economic civic and behavioural themes while in the fourth cross sectoral contexts are addressed With the introduction and concluding chapter the editors provide an overall integrating framework as well as provocative insights into trends in legal development in the Asia Pacific region and on comparative legal research and writing in general Asia Pacific Legal Development is not only an exemplary model for cooperative and comparative legal research and scholarly pluralism but also a rich study of the increasingly relevant issue of convergence and divergence of legal systems with a unique Asian focus **Intergenerational Equity** Julia M.

Puaschunder, 2019 p p1 margin 0 0px 0 0px 0 0px font 10 0px Arial Exploring a topic of growing importance that has scant coverage Intergenerational Equity brings to the fore a comprehensive discussion of intergenerational predicaments The book explores how corporate and financial social responsibility can leverage intergenerational harmony through Corporate Social Responsibility CSR and Socially Responsible Investment SRI *Critical Criminology in Canada* Aaron Doyle, Dawn Moore, 2011-01-01 Canada s criminal justice landscape has been shaped by contrary trends in recent years As the crime rate declines policy makers continue to push for tough on crime legislation and university criminology programs continue to

expand Given these trends what does the future hold for criminology and criminal justice This book presents the work of a new generation of critical criminologists who explore the geographical institutional and political context of the discipline in Canada Breaking away from mainstream criminology and popular law and order discourses the authors present a spectrum of theoretical approaches to criminal justice from governmentality to feminist criminology from critical realism to anarchism and they propose novel approaches to topics such as genocide white collar crime and the effect of prison sentences on families By posing crucial questions and attempting to define what criminology should be this book will shape debates about crime policing and punishment for years to come *Policing for a New South Africa* Mike Brogden, Clifford D.

Shearing, 2005-08-04 The state police force of South Africa has acquired massive notoriety since its formation Its officers have developed a reputation for routinely provoking violence and torturing suspects As the key bastion of apartheid it is in urgent need of change In *Policing for a New South Africa* Mike Brogden and Clifford Shearing evaluate the options for change They critically analyse orthodox policing ideas imported from the West and contrast them with the indigenous model of independent policing from the townships of South Africa itself Together they offer significant possibilities for the future Importantly they suggest that rather than South Africans import ideas wholesale from the West the latter countries in the light of the failures of their own police systems have much to learn from South Africa **Reconstructing Criminal Law**

Nicola Lacey, Celia Wells, Oliver Quick, 2003-09 The authors analyse central aspects of criminal law in the context of the assumptions surrounding it and employ a number of critical approaches including a feminist perspective to give insights into the current state of the law **Policing the Markets** James Williams, 2012-01-17 Set against the backdrop of the recurring waves of financial scandal and crisis to hit Canada the US the UK and Europe over the last decade this book examines the struggles of securities enforcement agencies to police the financial markets While allegations of regulatory failure in this realm are commonplace and are well documented in policy and legal scholarship James Williams seeks to move beyond these conventional accounts arguing that they are based on a limited view of the regulatory process and overlook the actual practices and dilemmas of enforcement work Informed by interviews with police regulators lawyers accountants and investor advocates along with a wealth of documentary materials the book is rooted in a uniquely interdisciplinary social science perspective Peering inside the black box of enforcement it examines the organizational professional geographical technological and legal influences that shape securities enforcement as a distinctly knowledge based enterprise The result of these influences Williams argues is the production of a very particular vision of financial disorder which captures certain forms of misconduct while overlooking others a reflection not of incompetence or capture but of the unique demands and constraints of the regulatory craft Providing a very different and much needed account of the challenges faced by regulators and enforcement agencies this book will be of enormous interest to current research on enforcement regulation and governance both within and beyond the financial realm Regulating Lives John McLaren, Dorothy E. Chunn, Robert J.

Menzies,2002 Nine essays investigate the history of law as an instrument of social control moral regulation and the government focusing primarily on British Columbia Canada where most of the contributors work as scholars in law or criminology Among the areas they tackle are the sex trade the spread of venereal disease the use and abuse of liquor child welfare mental disorder intrafamily sexual abuse Aboriginal culture and traditions and Doukhobor beliefs and customs The studies rely on forays into archival material at the national provincial and local levels Annotation copyrighted by Book News Inc Portland OR

Promoting Information in the Marketplace for Financial Services Paul Latimer,Philipp Maume,2014-11-14 This book provides a unique comparative and global analysis of the regulation of disclosure in financial securities markets It is written by two authors who represent both the new world Australia and the old world Germany The authors present their research in the global business context with legal and regulatory perspectives including some references from Africa Asia the Middle East and South America After every boom and bust legislators pass new disclosure legislation often in a heated environment fuelled by politics and the media Little regard is paid to existing regulation or the lessons learned from earlier regulation The result is the continuing enactment of redundant and overlapping disclosure laws Since financial markets are often described as markets for information the failure to ensure disclosure is at the heart of financial services regulation This book argues that the solution to the failure of disclosure is a brief easily understood principles based plain English safety net amendment to statute law such as you must keep the financial market fully informed a measure that would support effective mandatory continuous disclosure of information to financial markets This book examines the reasons for disclosure regulation and how the efficient operation of financial markets is dependent on disclosure It examines the adequacy of common law and civil law concerning broker client disclosure and concludes that industry licensing in itself fails to keep the market informed While recognizing the failures of securities commissions to achieve good disclosure in financial markets it confirms the effectiveness of coregulation of disclosure by a commission with the support of the financial markets such as the stock exchange Coregulation builds on financial market self regulation and is best described in the words of one time SEC Chairman William O Douglas who in the 1930s described it as a shotgun behind the door

Designing Government F. Pearl Eliadis,Margaret M. Hill,Michael Howlett,2005 This collection of readings examines the tools used by today s government to achieve legitimacy effectiveness and accountability The contributors examine the instrument choice perspective on government and public policy over the past two decades moving beyond the preoccupation with deregulation and efficiency to trace the complex relationships between instrument choices and governance Readers are encouraged to consider factors in the design of complex mixes such as issues of redundancy context the rule of law and accountability These latter factors are especially central in today s world to the design and implementation of effective instrument choices by governments and ultimately to good governance The authors conclude that instrument choice itself is integral to government and governance

Enforcing Pollution Control Regulation Carolyn

Abbot,2009-05-18 Monitoring and enforcement issues must be analysed when determining the effectiveness of pollution control regulation and clearly influence choices about how to regulate This book demonstrates how an economic analysis of law enforcement can generate important insights into how best to enforce pollution control regulation It seeks to provide a clear and accessible way into the law and economics literature on enforcement More specifically it uses Gary Becker s deterrence model which by differentiating between two enforcement variables namely the probability of apprehension and conviction and the severity of sanction facilitates a comparison of the effectiveness of different enforcement tools in inducing desirable behaviour As such it provides a valuable analytical tool in considering how best to pursue cost effective enforcement Major themes to be addressed include Becker s deterrence model and expansions thereof reasons for compliance environmental enforcement strategies and the importance of a deterrence threat and formal pollution control law enforcement mechanisms such as prosecution and criminal sanctions administrative mechanisms and civil liability The book argues that in pursuing cost effective enforcement much can be learned from examining enforcement practices in different jurisdictions and to this end the author examines pollution control laws enforcement strategies and sanctions in Australia Canada and England and Wales The book makes an important contribution to existing literature on environmental law enforcement but its value extends beyond this The theoretical framework adopted and the range of issues discussed make it of interest to regulatory and public law scholars more generally Canadian Criminal Law in Ten Cases Martin L. Friedland,2024-07-05 Canadian Criminal Law in Ten Cases explores the development of criminal justice in Canada through an in depth examination of ten significant criminal cases Martin L Friedland draws on cases that went to the Supreme Court of Canada or the Privy Council including well known cases such as those of Louis Riel Steven Truscott Henry Morgentaler and Jamie Gladue The book addresses such issues as wrongful convictions the enforcement of morality Indigenous experiences with criminal law bail and trial delay and the impact of the 1982 Charter of Rights and Freedoms on the criminal justice system Friedland describes in a masterful way the factual background of each case and the political social and economic conditions of the time Each character the accused judges and counsel is described in detail as are the relevant laws and procedures Friedland includes recommendations on how the criminal justice system can be improved such as by creating a new federal commission devoted solely to criminal justice and by the enactment by Parliament of enhanced codes of evidence and criminal law and procedure Canadian Criminal Law in Ten Cases is an indispensable guide to understanding the criminal justice system for lawyers students and anyone interested in criminal law and the administration of criminal justice **Canadian Books in Print. Author and Title Index** ,1975 **Controlling Chemical Hazards** R.P. Cote,P.G. Wells,2012-12-06 This book presents environmental protection managers and advanced students in environmental studies programs with an overview of the principles facts multidisciplinary approaches and some of the complex ities of the management of toxic substances The text explores critical issues facing managers responsible for prevent ing and controlling

problems associated with the manufacture transport storage use and disposal of chemicals It does this from two perspectives The first is a disciplinary perspective that is environmental chemistry of toxicology engineering economics sociology and political science all which play a role in implementing comprehensive programs to manage chemicals The second perspective is from the view of industry government academia and non government organizations For example Chapter 5 is authored by technical managers of a major chemical company Chapters 6 and 12 by government scientists and managers respectively and Chapter 10 by a respected member of the environmental lobby An appreciation of these perspectives is very important for developing and running effective chemical management programs

Criminal Legal Doctrine Peter Rush, Shaun Mc Veigh, Alison Young, 2018-08-13 First published in 1997 this volume examines questions of legal doctrine which have never been far from the study of crime It has not always been able to keep the doctrinal aspects of law clearly in sight There is always the pressure to turn to philosophy for the consideration of questions of moral and legal responsibility and to criminology and psychology for the analysis of action The essays collected in this book turn again to questions of doctrine and consider the dogmatic order of law as the basis of the understanding of crime It is the general argument of this book that without an understanding of the dogmatic order of the legal subject of crime there will only ever be answers to questions that have never been appropriately asked Loosely collected around questions of institution judgement and address these essays bring modern historical doctrinal and cultural scholarship to bear on the practices of legal doctrine Their aim is to offer an account of criminal law as a practice that institutes judges and addresses the legal subject through a range of practices and knowledges These range from the disciplinary knowledges of mental health to the cultural knowledges of femininity and female desire They include the technical demands of law writing and court room procedure as well as symbolic powers of imagining corporate crime These all are returned to the practical question of the production of knowledge through legal doctrine These essays address a set of questions that have lain dormant in legal scholarship for much of the post 1945 era In a time when the authority of law is being reconsidered at its foundations it is appropriate too to reconsider the means and manner of the transmission of criminal law Without an understanding of the formation of criminal law it is hardly surprising that questions of law reform raise such confusion

Corporate Management in a Knowledge-Based Economy G. Zanda, 2011-10-26 Corporate Management in a Knowledge Based Economy traces the evolution of corporate governance over time with a particular focus on the changing nature of power The control of scarce resources used in production materials labour and capital has evolved considerably over the past centuries with government landowners non owner managers and institutional investors acting as controlling powers at different points in time In order to appropriately protect the various and changing stakeholders the system of corporate governance has also developed over the years a process that continues to the present In today's knowledge based economy with the rising importance of intangible assets a new corporate management paradigm is needed This book incorporates theoretical work as well as practical applications to analyse these
