Finley, 2007-08-30 Throughout U S history attitudes toward young people have vacillated between fear of and fear for These attitudes impact social programs for youth including the system of juvenile justice Attitudes are shaped by the socio political and cultural cliimate of the times and can be traced back to colonial times However changing mores and values often create confusion and conflict resulting in ineffective strategies for preventing and responding to juvenile delinquency Tracing the history of juvenile justice back to the pre colonial era through the present day Finley sheds light on just how we arrived where we are in terms of juvenile justice She connects the competing attitudes about young people to the social economic and political changes of a given era and offers recommendations for establishing more effective and more humane policies toward juveniles in the justice system Early America is known for its harsh treatment of young people most notably the stubborn child laws which authorized use of the death penalty for children who defied their parents Yet even then many people held more nurturing attitudes toward youth Thus originated the mixed messages in the U S regarding juvenile delinquency and the hodgepodge of approaches that follow The establishment of the juvenile justice system founded on the concept of parens patriae or the state as parent would seem to have settled the debate over how juvenile offenders should be treated In reality however there remains much controversy over how best to handle juvenile offenders especially those who commit the most serious offenses While some still maintain juveniles are developmentally different and should be treated in ways consistent with these differences others are dismayed at what they feel to be a system that is too lenient and that leads to higher juvenile crime rates and more serious offenses With the advent of three strikes laws curfew laws boot camps and referring juveniles to adult courts and subsequently assigning them to adult prisons many question just how we got to this

place in juvenile justice Here Finley offers the history behind the controversial goals and development of the juvenile justice system providing detailed descriptions of the major trends in juvenile justice Addressing the most current aspects of the controversy she also sheds light on issues of race social class and gender Offering recommendations for addressing the weaknesses and confusion in the system Finley offers a unique and compelling perspective on controversial subject Criminal Justice Policy Karim Ismaili, 2010-10-28 This current collection of essays on contemporary U S criminal justice policy is a timely response to the significant recent growth of policy oriented research in the fields of criminology and criminal justice U S Criminal Justice Policy A Contemporary Reader addresses how criminal justice policy issues are framed identifies participants in the policy process discusses how policy is made and considers the constraints and opportunities found in the policy process Findings are linked to broader institutional cultural and global criminal justice trends and are used to determine what recent research reveals about crime policy and democratic governance. Deterrence and Crime Prevention David M. Kennedy,2012-08-06 Deterrence is at the heart of the preventive aspiration of criminal justice Deterrence whether through preventive patrol by police officers or stiff prison sentences for violent offenders is the principal mechanism through which the central feature of criminal justice the exercise of state authority works it is hoped to diminish offending and enhance public safety And however well we think deterrence works it clearly often does not work nearly as well as we would like and often at very great cost Drawing on a wide range of scholarly literatures and real world experience Kennedy argues that we should reframe the ways in which we think about and produce deterrence He argues that many of the ways in which we seek to deter crime in fact facilitate offending that simple steps such as providing clear information to offenders could transform deterrence that communities may be far more effective than legal authorities in deterring crime that apparently minor sanctions can deter more effectively than draconian ones that

groups rather than individual offenders should often be the focus of deterrence that existing legal tools can be used in unusual but greatly more effective ways that even serious offenders can be reached through deliberate moral engagement and that authorities communities and offenders no matter how divided share and can occupy hidden common ground The result is a sophisticated but ultimately common sense and profoundly hopeful case that we can and should use new deterrence strategies to address some of our most important crime problems Drawing on and expanding on the lessons of groundbreaking real world work like Boston's Operation Ceasefire credited with the Boston Miracle of the 1990s Deterrence and Crime Prevention is required reading for scholars law enforcement practitioners and all with an interest in public safety and the health of communities The New Pragmatist Sociology Neil L. Gross, Isaac Ariail Reed, Christopher Winship, 2022-07-05 Pragmatist thought is central to sociology However sociologists typically encounter pragmatism indirectly as a philosophy of science or as an influence on canonical social scientists rather than as a vital source of theory research questions and methodological reflection in sociology today In The New Pragmatist Sociology Neil Gross Isaac Ariail Reed and Christopher Winship assemble a range of sociologists to address essential ideas in the field and their historical and theoretical connection to classical pragmatism The book examines questions of methodology social interaction and politics across the broad themes of inquiry agency and democracy Essays engage widely and deeply with topics that motivate both pragmatist philosophy and sociology including rationality speech truth expertise and methodological pluralism Contributors include Natalie Aviles Karida Brown Daniel Cefa Mazen Elfakhani Luis Flores Daniel Huebner Cayce C Hughes Paul Lichterman John Levi Martin Ann Mische Vontrese D Pamphile Jeffrey N Parker Susan Sibley Daniel Silver Mario Small Iddo Tavory Stefan Timmermans Luna White and Joshua Whitford **Community Policing and Peacekeeping** Peter Grabosky, 2009-06-25 In modern industrial societies the demand for policing services frequently exceeds the current and foreseeable availability of public policing resources Conversely developing nations often suffer from an inability to provide a basic level of security for their citizens Community Policing and Peacekeeping offers a fresh overview of the challenge
