Second Language Acquisition: The Basics Gregory D. Keating, 2015-09-16 Starting from the premise that language instruction should be informed by how humans learn language this module on second language acquisition SLA aims to provide teachers at any level with a comprehensive and up to date introduction to the key findings about how second languages are learned in adulthood This module explores a variety of topics including the mechanisms in the mind responsible for language acquisition the roles that input and output play in acquisition and how language develops in the learner's mind over time Furthermore the module explores the many factors believed to impact the outcome of SLA such as the role of the native language individual differences in aptitude and motivation and age of acquisition Please visit the series companion website for more information <http://routledgetextbooks.com/textbooks/9781315679594>

Peer Interaction and

Second Language Learning Masatoshi Sato (Psycholinguist), Susan Gail Ballinger, 2016 This volume represents the first collection of empirical studies focusing on peer interaction for L2 learning These studies aim to unveil the impact of mediating variables such as task type mode of interaction and social relationships on learners interactional behaviors and language development in this unique and pedagogically powerful learning context To examine these issues contributors employed quantitative qualitative and mixed methods designs as well as cognitive social and sociocognitive theoretical frameworks The majority of the studies are classroom based and were conducted in a rich array of settings covering five continents and encompassing a wide range of learner L1s and target languages These settings include second and foreign language classrooms from primary to university level content based programs online contexts and after school programs To span the divide between research and practice each study includes a section suggesting pedagogical implications

Strategies in Learning and Using a Second Language Andrew D. Cohen, 2014-06-11 *Strategies in Learning and Using a Second Language* examines what it takes to achieve long term success in languages beyond the first language Distinguishing language learning from language use strategies Andrew D Cohen disentangles a morass of terminology to help the reader see what language strategies are and how they can enhance performance Particular areas of research examined in the book include links between the use of task specific strategies and language performance how multilinguals verbalise their thoughts during language learning and use strategies that learners use in test taking contexts In this fully revised and substantially rewritten second edition every chapter has been reworked with material either updated or replaced Entirely new material has also been developed based on examples of specific strategies supplied by actual learners mostly drawn from a website featuring these strategies in the learning of Spanish grammar *Strategies in Learning and Using a Second Language* will be an invaluable resource for language teachers and researchers as well as for administrators of second language programmes and for students of applied linguistics
