Seeds of Contention Per Pinstrup-Andersen, Ebbe Schiøler, 2003-05-12 In recent years the media have reported on the increasing use of genetically modified crops in agriculture This text focuses attention on the less discussed issues of the potential benefits of genetically modified crops for developing countries **Seeds of Contention** Per

Pinstrup-Andersen, 2003 In recent years the media have reported on the increasing use of genetically modified crops in agriculture This text focuses attention on the less discussed issues of the potential benefits of genetically modified crops for developing countries **Critical Perspectives on Genetically Modified Crops and Food** Susan Gordon, 2006-01-15

Primary and secondary source documents discuss the evolution of genetically modified crops their impact on society and the laws that govern their use and sale **Eco Crime and Genetically Modified Food** Reece Walters, 2010-10-04 The GM

debate has been ongoing for over a decade yet it has been contained in the scientific world and presented in technical terms **Eco Crime and Genetically Modified Food** brings the debates about GM food into the social and criminological arena This book highlights the criminal and harmful actions of state and corporate officials It concludes that corporate and political corruption uncertain science bitter public opposition growing farmer concern and bankruptcy irreversible damage to biodiversity corporate monopolies and exploitation disregard for social and cultural practices devastation of small scale and local agricultural economies imminent threats to organics weak regulation and widespread political and biotech mistrust do not provide the bases for advancing and progressing GM foods into the next decade Yet with the backing of the WTO the US and UK Governments march on but at what cost to future generations **Ending Hunger in Our Lifetime** C. Ford

Runge, Benjamin Senauer, Philip G. Pardey, Mark W. Rosegrant, 2003-07-08 At a time in history when conflict erupts daily in far flung corners of the world ending severe deprivation may be critical to global peace and stability Yet we are far from reaching the goal of reducing hunger by 2025 The authors of this book bring good news hunger can be banished in our lifetime They first distill what is already known about fighting hunger and then report on important new research findings and projections that show it can be done through new and renewed institutions scientific innovation global economics and investment and sustainable environmental practices Although the book encompasses a wide array of ideas arguments facts and figures it is not a dry academic text Anyone wanting a better understanding of poverty and hunger and how to end it will benefit from reading it **GMO China** Cong Cao, 2018-10-02 In China as elsewhere the debate over genetically modified

organisms has become polarized into anti and pro GMO camps Given the size of China's population and market much is at stake in conflicts over regulation for domestic as well as international actors In this book Cong Cao provides an even handed analysis that illuminates the tensions that have shaped China's policy toward agricultural biotechnology in a global perspective Cao presents a comprehensive and systematic analysis of how China's policy toward research and commercialization of genetically modified crops has shifted that explains how China's changing GMO stances reflect its

evolving position on the world stage While China s scientific community has set the agenda it has encountered resistance rooted in concerns over food safety and consumers rights as well as issues of intellectual property rights and food sovereignty Although Chinese leaders at first sought to take advantage of the biotech revolution by promoting GMO crop consumption Cao demonstrates that policy has since become precautionary as seen in new laws and regulations grounded in concerns over safety and the deferral of commercialization of GM rice He presents China s policies in light of changing global attitudes toward GM crops As shifts in China have closely followed global trends so has domestic activism Drawing on government and scientific documents as well as interviews with scientists officials policy analysts activists and journalists *GMO China* is an important book for China studies science and technology studies policy analysts and professionals interested in the Chinese biotechnology market **Food Policy for the Poor** Joachim Von Braun,Rajul

Pandya-Lorch,2005-01-01 *Environmental Governance Reconsidered* Robert F. Durant,Daniel J. Fiorino,Rosemary O'Leary,2004-05-07 A comprehensive in depth and thematically integrated analysis of key issues in environmental governance today from perspectives including environmental economics democratic theory public policy law political science and public administration Australia, Oceania, & Antarctica Kevin Hillstrom,Laurie Collier Hillstrom,2003-11-19 A concise yet thorough overview of environmental issues problems and controversies facing Australia Oceania and Antarctica They are vast distant and scarcely populated Yet the environments of Australia Oceania and Antarctica are facing the same threats confronting the rest of the planet as well as some unique ones of their own How have human introduced species impacted Australia s natural order What new global conventions are helping close Antarctica s ozone hole And how is global climate change threatening the South Pacific s species rich coral reefs The region s governments are grappling with the spectre of global warming which if not meaningfully addressed by industrialized nations half a world away could produce rising sea levels capable of engulfing several states of Oceania and partially submerging portions of many other inhabited islands Australia Oceania and Antarctica tackles the difficult issues tough problems and political controversies surrounding these lands of extremes Encyclopedia of Environmental Change John A Matthews,2013-12-13 Accessibly written by a team of international authors the Encyclopedia of Environmental Change provides a gateway to the complex facts concepts techniques methodology and philosophy of environmental change This three volume set illustrates and examines topics within this dynamic and rapidly changing interdisciplinary field The encyclopedia includes all of the following aspects of environmental change Diverse evidence of environmental change including climate change and changes on land and in the oceans Underlying natural and anthropogenic causes and mechanisms Wide ranging local regional and global impacts from the polar regions to the tropics Responses of geo ecosystems and human environmental systems in the face of past present and future environmental change Approaches methodologies and techniques used for reconstructing dating monitoring modelling projecting and predicting change Social economic and political dimensions of environmental issues environmental

India's Economy Raj Kapila,Uma Kapila,2006 Featuring 20 articles from leading economic development experts this collection provides rare insight into the challenges facing India following the country s entry into the world economy From growth poverty and reform to globalization and sectoral developments the essays address potential problems but coalesce to form an optimistic picture of India s future A potential root of the nation s current problems tardy or incomplete policy implementation is also discussed

Making Better Policies for Food Systems OECD,2021-01-11 Food systems around the world face a triple challenge providing food security and nutrition for a growing global population supporting livelihoods for those working along the food supply chain and contributing to environmental sustainability Better policies hold tremendous promise for making progress in these domains

Plowed Under Andrew P. Duffin,2009-11-17 In Plowed Under Andrew P Duffin traces the transformation of the Palouse region of Washington and Idaho from land thought unusable and unproductive to a wealth generating agricultural paradise weighing the consequences of what this progress has wrought During the twentieth century the Palouse became synonymous with wheat and the landscape was irrevocably altered At the dawn of the twenty first century native vegetation is almost nonexistent stream water is so dirty that it is often unfit for even livestock and 94 percent of all land has been converted to agriculture Commercial agriculture also created a less noticeable ecological change soil erosion While common to industrial agriculture nationwide topsoil loss evoked different political and social reactions in the Palouse Farmers all over the nation take pride in their freedom and independence but in the Palouse Duffin shows this mentality a remnant of an older agrarian past has been taken to the extreme and is partly responsible for erosion problems that are among the worst in the nation In the hope of charting a better more sustainable future Duffin argues for a candid look at the land its people their decisions and the repercussions of those decisions As he notes the debate is not over whether to use the land but over what that use will look like and its social and ecological results

The Regulation of Agricultural Biotechnology Robert E. Evenson,V. Santaniello,2004-03-29 The regulatory systems in place prior to the development and expansion of agricultural biotechnology are still responding to this new form of technology Such systems include trade law intellectual property law contract law environmental regulations and biosafety regulations This book reviews these regulatory changes and consists of 24 chapters developed from papers presented at a conference of the International Consortium on Agricultural Biotechnology Research

held in Italy in July 2002 It primarily considers the relationship between these changes and innovation market development and international trade

Globalization and the Human Factor Joseph Mensah,2018-01-18

Since the 1980s the world has experienced an unprecedented push towards economic political social cultural financial and technological integration This integration is a key element of the process of globalization Much of this revolves around the tensions and conflicts inherent in globalization with emphasis on political economy but at the expense of the human factor HF which places people at the centre of all discussions about globalization This volume brings the HF into the debate and examines to what extent this hitherto marginalized concept holds the key to providing a holistic understanding and contestation of globalization The volume develops a distinct concept or framework of the human factor examines the role and significance in global change from an interdisciplinary perspective analyzes the extent and significance in contemporary globalization discourse and provokes further debate about the unresolved disputes surrounding globalization The account will help readers navigate the minefields of the globalization debate

Biotechnology and Agriculture in 2020 Anthony J. Cavalieri,2005-04-21

The New Famines Stephen Devereux,2006-11-22 The recent occurrences of famine in Ethiopia and Southern Africa have propelled this key issue back into the public arena for the first time since 1984 as once again it becomes a priority not only for lesser developed countries but also for the international community Exploring the paradox that is the persistence of famine in the contemporary world this book looks at the way the nature of famine is changing in the face of globalization and shifting geo political forces The book challenges perceived wisdom about the causes of famine and analyzes the worst cases of recent years including close analysis of food scarcity in North Korea Ethiopia Sudan and Malawi and less well known cases in Madagascar Iraq and Bosnia With fresh conceptual frameworks and analytical tools major theoretical constructs which have previously been applied to analyze famines such as the democracy ends famine argument Sen s entitlement approach and the complex political emergency framework are confronted This volume assembles an international team of contributors including Marcus Noland Alex de Waal and Dan Maxwell an impressive roster which helps make this book an important resource for those in the fields of development studies and political economics

Latin America & the Caribbean Kevin Hillstrom,Laurie Collier Hillstrom,2003-12-02 A concise yet thorough overview of the environmental issues problems and controversies facing Latin America and the Caribbean from the tip of South America to the Windward Islands Home to Earth s longest mountain range largest river and greatest rainforest no region boasts greater geographic extremes faces greater environmental dangers and enjoys more economic potential from its biodiversity than Latin America and the Caribbean What are the political and economic factors affecting the Amazon s rapidly disappearing rainforest What is being done to harvest life saving drugs from the plants of the Orinoco And what lies behind the mysterious disappearance of Central America s frogs The work includes essays tables and figures and an appendix titled International

Environmental and Developmental Agencies Organizations and Programs on the World Wide Web Latin America the Caribbean examines a region waking up to its environmental problems and possibilities What's economics worth? Philip G. Pardey, Vincent H. Smith, 2004-01-01 In an era of limited research resources and limitless research needs demonstrating the worth of any research discipline to policymakers and administrators is a prerequisite for obtaining future funding and making an impact in policy matters Economists have worked diligently in developing both quantitative and qualitative indicators of the value of science and technology R D At the same time they have paid little or no attention to valuing their own work In What's Economics Worth Valuing Policy Research several expert economists take an important first step towards redressing this imbalance Anyone who wants to understand what economists do and how to think about valuing their work will find this book intriguing and worthwhile Contributors Jeffrey Alwang Connie Chan Kang John Freebairn Bruce Gardner Arnold Harberger Amir Heiman Anne Krueger Paul Krugman Bob Lindner George Norton Philip G Pardey James Ryan Vincent H Smith C Peter Timmer and David Zilberman
