Romanes, 1914 *Social Life in Early England* Geoffrey Barraclough, 2024-10-30 First Published in 1960 Social Life in Early England provides an authoritative introduction to the periods of English history usually taught in the middle school The essays in the volume are well adapted in picking out the social background and environment in which English history moved from the time of the Roman settlement until the close of the Middle Ages It discusses themes like Roman Britain English monasteries development of the castle in England and Wales European arms and armour Norman London the meaning of medieval money and medieval trade routes This is a must read for students of British history This book contains four fold out plan maps which due to modern print on demand manufacture cannot be reproduced They are available from the publisher free of charge to any purchaser of the book English and French Towns in Feudal Society Rodney Howard Hilton, 1995-05-04 This is a comparative study of the role of English and French towns in feudal society in the middle ages In bringing together much material which dissolves old categories and simplifications in the study of medieval towns Professor Hilton provides an important new perspective on medieval society and on the nature of feudalism He argues that medieval towns were not as is often thought the harbingers of capitalism and emphasises the way in which urban social structures fitted into rather than challenged feudalism **Annual Report** Bromley (London, England).
