Selected Essays of Edward P. J. Corbett Edward P. J. Corbett,1989 Contemporary Composition Studies Edith Babin,Kimberly Harrison,1999-12-30 Composition studies is a rapidly growing and constantly changing field At present however graduate students new to the field and writing teachers who want to make new connections between theory and practice have little choice of current reference works that define key terms in composition studies and provide information about the scholars and researchers who have shaped and are shaping the discipline This book supplies this information in an easily accessible format and places both scholars and terms in the context of the field s development Included are alphabetically arranged entries for 108 individuals who have developed the field and 128 terms central to the discipline The first part of the book provides entries for leaders in composition studies Each entry identifies the areas in which the scholar has contributed most influentially to the field and provides both a chronological overview of the person s contributions and a bibliography of representative works The second part includes entries for terms that are problematic both for newcomers and for those already familiar with the discipline The entries for the terms show how the disciplinary context has shaped the ways in which they have been used The entries also indicate how established thinkers in composition studies and other disciplines have explained or defined the terms provide examples of the terms in context and list scholars often associated with them An appendix includes entries for scholars from other disciplines who have contributed to the field Selected Essays of Edward P. Scholarship in Historical and Contemporary Rhetoric has become a classic in its field proving to be an invaluable resource for students of rhetoric and composition as well as for scholars in English speech and philosophy This revised and updated edition defines the field of rhetoric as no other volume has Publishers website **Rhetoric in American Colleges**,

The Little Rhetoric and Handbook Edward P. J. Corbett,1977 *Rhetoric and Composition As Intellectual Work* Gary A. Olson,2002 In response to those who insist that rhetoric and composition should remain only a service discipline editor Gary A Olson s Rhetoric and Composition as Intellectual Work demonstrates that it already is an intellectual discipline that for at least a quarter of a century the field has developed an impressive tradition of intellectual work in a remarkable assortment of subject areas Rhetoric and Composition as Intellectual Work suggests the diversity of intellectual projects that have and will continue to make rhetoric and composition more than a service to the university more than a field devoted solely to improving writing pedagogy and more than a preliminary to literary studies This collection of nineteen essays by some of the most distinguished scholars in the discipline illustrates that rhetoric and composition has much to contribute to the intellectual milieu of the contemporary university as the field continues to push its disciplinary borders and discover new sites of investigation Publisher s description **Elements of Rhetoric and Composition** David Jayne Hill,2019 **Rhetorics, Poetics, and Cultures** James A. Berlin,2003 Rhetorics Poetics and Cultures is James Berlin s most comprehensive effort to refigure the field of English Studies Here in his last book Berlin both historically situates and recovers for today the tools and insights of rhetoric displaced and marginalized he argues by the allegedly disinterested study of aesthetic texts in the college English department Berlin sees rhetoric as offering a unique perspective on the current disciplinary crisis complementing the challenging perspectives offered by postmodern literary theory and cultural studies Taking into account the political and intellectual issues at stake and the relation of these issues to economic and social transformations Berlin argues for a pedagogy that makes the English studies classroom the center of disciplinary activities the point at which theory practice and democratic politics intersect This new educational approach organized around text interpretation and production not one or the other exclusively as before prepares students for work democratic politics and consumer culture today by providing a revised conception of both reading and writing as acts of textual interpretation it also gives students tools to critique the socially constructed politically charged reality of classroom college and culture This new edition of Rhetorics Poetics and

Cultures includes JAC response essays by Linda Brodkey Patricia Harkin Susan Miller John Trimbur and Victor J Vitanza as well as an afterword by Janice M Lauer These essays situate Berlin's work in personal pedagogical and political contexts that highlight the continuing importance of his work for understanding contemporary disciplinary practice
