## **Long Run To Tobruk:**

**Long Run to Tobruk** Gordon Landsborough, 1975-01-01      Death of the Wehrmacht Robert M. Citino, 2007-10-22 For Hitler and the German military 1942 was a key turning point of World War II as an overstretched but still lethal Wehrmacht replaced brilliant victories and huge territorial gains with stalemates and strategic retreats In this major reevaluation of that crucial year Robert Citino shows that the German army's emerging woes were rooted as much in its addiction to the war of movement attempts to smash the enemy in short and lively campaigns as they were in Hitler's deeply flawed management of the war From the overwhelming operational victories at Kerch and Kharkov in May to the catastrophic defeats at El Alamein and Stalingrad Death of the Wehrmacht offers an eye opening new view of that decisive year Building upon his widely respected critique in *The German Way of War* Citino shows how the campaigns of 1942 fit within the centuries old patterns of Prussian German warmaking and ultimately doomed Hitler's expansionist ambitions He examines every major campaign and battle in the Russian and North African theaters throughout the year to assess how a military geared to quick and decisive victories coped when the tide turned against it Citino also reconstructs the German generals view of the war and illuminates the multiple contingencies that might have produced more favorable results In addition he cites the fatal extreme aggressiveness of German commanders like Erwin Rommel and assesses how the German system of command and its commitment to the independence of subordinate commanders suffered under the thumb of Hitler and chief of staff General Franz Halder More than the turning point of a war 1942 marked the death of a very old and traditional pattern of warmaking with the classic German way of war unable to meet the challenges of the twentieth century Blending masterly research with a gripping narrative Citino's remarkable work provides a fresh and revealing look at how one of history's most powerful armies began to founder in its quest for world domination

majority of his service he was on HMS Royalist a modified Dido class light cruiser seeing action in the Arctic and operations against the German battleship Tirpitz The ship then deployed to the Mediterranean taking part in Operation Dragoon the invasion of the South of France and later in operations against German occupied Greek Islands in the Aegean After which MacLean and Royalist were deployed to the Indian Ocean and operations against the Japanese in Malaya Burma and Sumatra His wartime experiences coupled with exceptional literary skill resulted in the runaway success of his first novel HMS Ulysses 1955 followed by The Guns of Navarone 1957 and South by Java Head 1958 These three blockbusters cemented his position as one of the most successful and highly paid authors of the era While not a whole life biography Mark Simmon's book provides a fascinating insight into Maclean's war service and subsequent works which deserve enduring popularity

**Tobruk's Easter Battle 1941** John H. G. Mackenzie-Smith, 2011 The initial Australian and British victory over Rommel's Afrika Korps on Easter Monday 1941 at Tobruk was Germany's first defeat in World War II Incongruously the vital actions of Queensland's 215 Battalion on that day have been generally ignored For the first time this investigation places that lost body of infantrymen nearly four miles from the outer perimeter near El Adem crossroads There they were dug in around two gallant Royal Horse Artillery batteries which incurred heavy losses in turning around a concerted Panzer attack In that battle the 215 A Company delivered the final blow to the accompanying German infantry led by the formerly invincible Lt Colonel Gustav Ponath who was killed in the field This ably researched and intriguing episode redresses the brave 215s subsequent sense of injustice *Bombers over Sand and Snow* Alun Granfield, 2011-10-05 205 Group RAF provided the only mobile force of heavy night bombers in the Mediterranean theater in the Second World War It operated mainly from bases in Egypt Libya Tunisia and Italy with occasional excursions to Malta Greece and Iraq attacking tactical and strategic targets according to the demands of the wider war in the theater The force was relatively small when compared with the numbers of aircraft available to Bomber Command in the Western European theater and it carried on using the venerable Vickers Wellington long after this aircraft had been relegated to the training role in the United Kingdom Like their UK based counterparts the night bombers were intended to operate in a strategic role bombing targets away from the immediate battlefield However

the demands of the war in the Middle East and Mediterranean soon diverted the bombers from their strategic role and saw them operating much closer to the front line in support of the hard pressed ground forces The bomber squadrons in North Africa usually operated from Advanced Landing Grounds scraped out of the bare desert with only a few tents for shelter In Italy they did have more or less permanent bases but they still lived in tents if they were lucky often surrounded by a sea of mud There were no pubs often no beer and the only contact with their families were the eagerly awaited letters from home Also the squadrons in England did not have Rommel continually knocking on their door Thus the operations of the night bombers in the Middle East and Mediterranean were often governed by the general progress of the war in the theater The ebb and flow of the land battles not only determined the activities of the night bombers but also determined their location This book tells their story
