Heirs of Oppression Angelo J. Corlett, 2010-11-16. Packing his case with moral argument and relevant facts, Angelo Corlett offers the most comprehensive defense to date in favor of reparations for African Americans and American Indians. As Corlett sees it, the heirs of oppression are both the descendants of the oppressors and the descendants of their victims. Corlett delves deeply into the philosophically related issues of collective responsibility, forgiveness, and apology, and reparations as a human right in ways that no other book or article to date has done. He recommends specific policies and tests the basic arguments of this book with a lengthy chapter considering several objections to the line of reasoning grounding the project.

Arguments and Fists Mika LaVaque-Manty, 2002-03-22. Many theorists have addressed a central concern of current political theory by contending that the dithering intellectualism of left politics prevents genuine political action. *Arguments and Fists* confronts this concern by refuting these arguments and reconciling philosophical debates with the realities of current activism. By looking at theorists such as Montesquieu, Kant, Rousseau, the book contradicts current academic debates and also goes against contemporary theory's image of the liberal political agent as a narrowly rational abstraction. Mika LaVaque-Manty also argues that progressive political philosophy and political action go hand in hand. He then ventures past Kant and Rousseau to talk about specific environmental activism, finding middle ground between the two while asserting that

the liberal urge for political reform stems from sound philosophical considerations about the nature of politics and isn't the cowardly afterthoughts some theorists have called it Arguments and Fists then puts these theoretical insights to use examining environmental justice movements and varieties of environmental radicalism showing how liberal theory illuminates concrete contemporary political practices
