Memory And History In Christianity And Judaism:

Memory and History in Christianity and Judaism Michael Alan Signer, 2001 The essays in this volume reflect the effort to recognize the alteration in the intellectual and social contexts in which Jews and Christians gather for prayer and the undermining of the conjunction between memory and ritualization The Christian Schism in Jewish History and Jewish Memory Joshua Ezra Burns, 2016-02-11 How did Jews perceive the first Christians By what means did they come to appreciate Christianity as a religion distinct from their own In *The Christian Schism in Jewish History and Jewish Memory* Professor Joshua Ezra Burns addresses those questions by describing the birth of Christianity as a function of the Jewish past Surveying a range of ancient evidences he examines how the authors of Judaism's earliest surviving memories of Christianity speak to the perspectives of rabbinic observers who were conditioned by the unique circumstances of their encounters with Christianity to recognize its adherents as fellow Jews Only upon the decline of the Church's Jewish demographic were their successors compelled to see Christianity as something other than a variation of Jewish cultural expression The evolution of thought in the classical Jewish literary record thus offers a dynamic account of Christianity's separation from Judaism counterbalancing the abrupt schism attested in contemporary Christian texts Jesus the Jew in Christian Memory Barbara U. Meyer, 2020-03-12 Shows how research and reflection on Jesus's Jewishness transforms contemporary Christian thought on memory otherness natality and law Jewish Studies in Memory of Israel Abrahams Jewish Institute of Religion (New York, N.Y.), Alexander Kohut Memorial Foundation, 1927 **Jewish History and Jewish Memory** Yosef Hayim Yerushalmi, 1998 Publication of Yosef Yerushalmi's *Zakhor* in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times *Between Memory and History* Marie Noelle Bourguet, Lucette Valensi, Nathan Wachtel, 2016-03-31 The recent wave of interest in oral history and return to the active subject as a topic in historical practice raises a number of questions about the status and function of scholarly history in our societies This article in this volume originally published in 1990 and which originally appeared in *History and Anthropology* Volume 2 Part 2 discuss what contributions meanings and consequences emerge from scholarly history turning to living memory and what the relationships are between history and memory

Memory - Papers Read at the Jewish and Christian Perspectives Conference, Utrecht 2022, 2025-07-28 Memory Papers Read at the Jewish and Christian Perspectives Conference Utrecht 2022 connects past present and future This conference volume demonstrates the diversity of memory in the Jewish and Christian traditions Memory turns out to be a key

to investigating and better understanding many aspects of Judaism and Christianity including their mutual relationship In these traditions memory is not simply about recalling events but about preserving identity culture and divine teachings The act of remembering is central to how communities pass down their religious beliefs laws and moral frameworks across generations It also plays a role in communal cohesion ensuring that the experiences of the fathers and their wisdom would not get lost but rather actively re lived and celebrated **A Social History of Christian Origins** Simon J.

Joseph,2022-12-30 *A Social History of Christian Origins* explores how the theme of the Jewish rejection of Jesus embedded in Paul s letters and the New Testament Gospels represents the ethnic social cultural and theological conflicts that facilitated the construction of Christian identity Readers of this book will gain a thorough understanding of how a central theme of early Christianity the Jewish rejection of Jesus facilitated the emergence of Christian anti Judaism as well as the complex and multi faceted representations of Jesus in the Gospels of the New Testament This study systematically analyzes the theme of social rejection in the Jesus tradition by surveying its historical and chronological development Employing the social psychological study of social rejection social identity theory and social memory theory Joseph sheds new light on the inter relationships between myth history and memory in the study of Christian origins and the contemporary re construction of the historical Jesus *A Social History of Christian Origins* is primarily intended for academic specialists and students in ancient history biblical studies New Testament studies Religious Studies Classics as well as the general reader interested in the beginnings of Christianity Memory in Jewish, Pagan and Christian Societies of the Graeco-Roman World Doron Mendels,2004-06-14

The ten studies in this book explore the phenomenon of public memory in societies of the Graeco Roman period Mendels begins with a concise discussion of the historical canon that emerged in Late Antiquity and brought with it the distorted memory of ancient history in Western culture The following nine chapters each focus on a different source of collective memory in order to demonstrate the patchy and incomplete associations ancient societies had with their past including discussions of Plato s Politeia a site of memory of the early church and the dichotomy existing between the reality of the land of Israel in the Second Temple period and memories of it Throughout the book Mendels shows that since the societies of Antiquity had associations with only bits and pieces of their past these associations could be slippery and problematic constantly changing multiplying and submerging Memories true and false oral and inscribed provide good evidence for this fluidity *Social Memory and Social Identity in the Study of Early Judaism and Early Christianity* Samuel Byrskog,Raimo Hakola,Jutta Maria Jokiranta,2016-09-12

The concepts of social memory and social identity have been increasingly used in the study of ancient Jewish and Christian sources In this collection of articles international specialists apply interdisciplinary methodology related to these concepts to early Jewish and Christian sources The volume offers an up to date presentation of how social memory studies and socio psychological identity approach have been used in the study of Biblical and related literature The articles examine how Jewish and Christian sources participate in the processes of collective recollection and in

this way contribute to the construction of distinctive social identities The writers demonstrate the benefits of the use of interdisciplinary methodologies in the study of early Judaism and Christianity but also discuss potential problems that have emerged when modern theories have been applied to ancient material In the first part of the book scholars apply social collective and cultural memory approaches to early Christian sources The articles discuss philosophical aspects of memory the formation of gospel traditions in the light of memory studies the role of eyewitness testimony in canonical and non canonical Christian sources and the oral delivery of New Testament writings in relation to ancient delivery practices Part two applies the social identity approach to various Dead Sea Scrolls and New Testament writings The writers analyse the role marriage deviant behaviour and wisdom traditions in the construction of identity in the Dead Sea Scrolls Other topics include forgiveness in the Gospel of Matthew the imagined community in the Gospel John the use of the past in Paul s Epistles and the relationship between the covenant and collective identity in the Epistle to the Hebrews and the First Epistle of Clement
