Movements for Human Rights David L. Brunsma,Keri Iyall Smith,Brian Gran,2016-09-07 How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth s crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors

Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions *Movements for Human Rights Locally and Globally* offers insights into the ways that people move for and against human rights *Gender and the Social Construction of Illness* Judith Lorber, Lisa Jean Moore, 2002-08-15 In this text the authors consider the interface between gender as a social institution on one hand and Western medicine as a social institution on the other and analyses issues of power and politics which pervade the study of both topics *Institutions Unbound* David Brunsma, Keri Iyall Smith, Brian Gran, 2016-03-02 Institutions like education family medicine culture and law are powerful social structures shaping how we live together As members of society we daily express our adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints *Handbook of Sociology and Human Rights* David L. Brunsma, Keri E. Lyall Smith, Brian K Gran, 2015-10-23 Long the province of international law human rights now enjoys a renaissance of studies and new perspectives from the social sciences This landmark book is the first to synthesize and comprehensively evaluate this body of work It fosters an interdisciplinary international and critical engagement both in the social study of human rights and the establishment of a human rights approach throughout the field of sociology Sociological perspectives bring new questions to the interdisciplinary study of human rights as amply illustrated in this book The Handbook is indispensable to any interdisciplinary collection on human rights or on sociology This text Brings new perspectives to the study of human rights in an interdisciplinary fashion Offers state of the art summaries critical discussions of established human rights paradigms and a host of new insights and further research directions Fosters a comprehensive human rights approach to sociology topically

Sarah E. Chinn,2000-09-01 In this book Sarah E Chinn pulls together what seems to be opposite discourses the information driven languages of law and medicine and the subjective logics of racism to examine how racial identity has been constructed in the United States over the past century She examines a range of primary social case studies such as the American Red Cross lamentable decision to segregate the blood of black and white donors during World War II and its ramifications for American culture and more recent examples that reveal the racist nature of criminology such as the recent trial of O J Simpson Among several key American literary texts she looks at Mark Twain s *Pudd nhead Wilson* a novel whose plot turns on issues of racial identity and which was written at a time when scientific and popular interest in evidence of the body such as fingerprinting was at a peak      **Out Of America** Keith B Richburg,2009-09-22 Keith B Richburg was an experienced and respected reporter who had paid his dues covering urban neighborhoods in Washington D C and won praise for his coverage of Southeast Asia But nothing prepared him for the personal odyssey that he would embark upon when he was assigned to cover Africa In this powerful book Richburg takes the reader on an extraordinary journey that sweeps from Somalia to Rwanda to Zaire and finally to South Africa He shows how he came to terms with the divide within himself between his African racial heritage and his American cultural identity Are these really my people Am I truly an African American The answer Richburg finds after much soul searching is that no he is not an African but an American first and foremost To those who romanticize Mother Africa as a black Valhalla where blacks can walk with dignity and pride he regrets that this is not the reality He has been there and witnessed the killings the repression the false promises and the horror Thank God my nameless ancestor brought across the ocean in chains and leg irons made it out alive he concludes Thank God I am an American      **Inclusion, Participation and Democracy: What is the Purpose?** J.
