Pastimes And Politics:

Pastimes and Politics Laura Fair, 2001-10-01 The first decades of the twentieth century were years of dramatic change in Zanzibar a time when the social economic and political lives of island residents were in incredible flux framed by the abolition of slavery the introduction of colonialism and a tide of urban migration *Pastimes and Politics* explores the era from the perspective of the urban poor highlighting the numerous and varied ways that recently freed slaves and other immigrants to town struggled to improve their individual and collective lives and to create a sense of community within this new environment In this study Laura Fair explores a range of cultural and social practices that gave expression to slaves ideas of emancipation as well as how such ideas and practices were gendered *Pastimes and Politics* examines the ways in which various cultural practices including taarab music dress football ethnicity and sexuality changed during the early twentieth century in relation to islanders changing social and political identities Professor Fair argues that cultural changes were not merely reflections of social and political transformations Rather leisure and popular culture were critical practices through which the colonized and former slaves transformed themselves and the society in which they lived Methodologically innovative and clearly written *Pastimes and Politics* is accessible to specialists and general readers alike It is a book that should find wide use in courses on African history urbanization popular culture gender studies or emancipation **Things**

The Politics of South African Cricket Jon Gemmell, 2004-03-31 *The Politics of South African Cricket* analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is

symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime

much better in this new age *Mobilizing Zanzibari Women* C. Decker,2014-11-05 The experiences of African women in the era before independence remain a woefully understudied facet of African history This innovative and carefully argued study thus adds tremendously to our understanding of colonial history by focusing on women s education professionalization and political mobilization in the East African islands of Zanzibar **Fashioning Africa** Jean Allman,2004-09-09 There is a close connection between the clothes we wear and our political expression In *Fashioning Africa* an international group of anthropologists historians and art historians bring rich and diverse perspectives to this fascinating topic *The Politics of Problem Definition* David A. Rochefort,Roger W. Cobb,1994 At the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought Policy researchers call this process problem definition Written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action and agenda setting dynamics The authors demonstrate in two theoretical chapters and seven provocative case studies how problem definition affects policymaking for high profile social issues like AIDS drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation By examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes In so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research *Performance and Politics in Tanzania* Laura Edmondson,2007-07-20 In *Performance and Politics in Tanzania* Laura Edmondson examines how politics social values and gender are expressed on stage Now a disappearing tradition Tanzanian popular theatre integrates comic sketches acrobatics melodrama song and dance to produce lively commentaries on what it means to be Tanzanian These dynamic shows invite improvisation and spontaneous and raucous audience participation as they explore popular sentiments Edmondson asserts that these performances overturn the boundary between official and popular art and offer a new way of thinking about African popular culture She discusses how the blurring of state agendas and local desires presents a charged environment for the exploration of Tanzanian political and social realities What is the meaning of democracy and who gets to define it Who is in power and how is power exposed or concealed What is the role of tradition in a postsocialist state How will the future of the nation be negotiated This engaging book provides important insight into the complexity of popular forms of expression during a time of political and social change in East Africa War of Words, War of Stones Jonathon Glassman,2011-02-21 The Swahili coast of Africa is often described as a paragon of transnational culture and racial fluidity Yet during a brief period in the 1960s Zanzibar became deeply divided along racial lines as intellectuals and activists engaged in bitter debates about their nation s future ignited a deadly conflict that spread across the island War of Words War

of Stones explores how violently enforced racial boundaries arose from Zanzibar's entangled history Jonathon Glassman challenges explanations that assume racial thinking in the colonial world reflected only Western ideas He shows how Africans crafted competing ways of categorizing race from local tradition and engagement with the Atlantic and Indian Ocean worlds

Sports in African History, Politics, and Identity Formation Michael J. Gennaro, Saheed Aderinto, 2019-04-01 Sports in African History Politics and Identity Formation explores how sports can render a key to unlocking complex social political economic and gendered relations across Africa and the Diaspora Sports hold significant value and have an intricate relationship with many components of African societies throughout history For many Africans sports are a way of life a site of cultural heroes a way out of poverty and social mobility and a site for leisurely play This book focuses on the many ways in which sports uniquely reflect changing cultural trends at diverse levels of African societies The contributors detail various sports such as football cricket ping pong and rugby across the continent to show how sports lay at the heart of the discourse of nationalism self fashioning gender and masculinity leisure and play challenges of underdevelopment and ideas of progress Bringing together the newest and most innovative scholarship on African sports this book will be of interest to students and scholars of contemporary Africa African history culture and society and sports history and politics **African Soccerscapes** Peter Alegi, 2010-02-14 From Accra and Algiers to Zanzibar and Zululand Africans have wrested control of soccer from the hands of Europeans and through the rise of different playing styles the rituals of spectatorship and the presence of magicians and healers have turned soccer into a distinctively African activity African Soccerscapes explores how Africans adopted soccer for their own reasons and on their own terms Soccer was a rare form of national culture in postcolonial Africa where stadiums and clubhouses became arenas in which Africans challenged colonial power and expressed a commitment to racial equality and self determination New nations staged matches as part of their independence celebrations and joined the world body FIFA The Confédération africaine de football democratized the global game through antiapartheid sanctions and increased the number of African teams in the World Cup finals In this compact highly readable book Alegi shows that the result of this success has been the departure of huge numbers of players to overseas clubs and the growing influence of private commercial interests on the African game But the growth of women's soccer and South Africa's hosting of the 2010 World Cup also challenge the one dimensional notion of Africa as a backward tribal continent populated by victims of war corruption famine and disease **Culture and Politics in Early Stuart England** Kevin Sharpe, 1993 In recent years new schools of historiography and criticism have recast the political and cultural histories of Elizabethan and early Stuart England However for all the benefits of their insights most revisionist historians have too narrowly focussed on high politics to the neglect of values and ideology and New Historicist literary scholars have displayed an insufficient grasp of chronology and historical context The contributors to this pioneering volume richly fusing these approaches apply a revisionist close attention to moments to the wide range of texts verbal and visual that critics have begun to read as representations of power

and politics Excitingly broadening the range of areas and evidence for the study of politics these outstanding essays demonstrate how the study of high culture classical translations court portraits royal palaces the conduct of chivalric ceremony and low culture cheap pamphlets and scurrilous verses enable us to reconstruct the languages through which contemporaries interpreted their political environment The volume posits a reconsideration of the traditional antithetical concepts court and country verbal and visual critical and complimentary elite and popular examines the constructions of a moral and social order enacted in a wide variety of cultural practices and demonstrates how common vocabularies could in changed circumstances be combined and deployed to sustain quite different ideological positions This book opens a new agenda for the study of the politics of culture and the culture of politics in early modern England Publisher s website

Sport, Politics, and Literature in the English Renaissance Gregory M. Colón Semenza, 2003 This is the first book length study of the crucial relationship between sport and the political and imaginative literature of Renaissance England In the sixteenth and seventeenth centuries educators medical practitioners and military scientists were among the many contemporaries who praised sport as necessary and functional physiologically beneficial to the individual practitioner vital to the preparedness of the military and necessary to the maintenance of traditional class hierarchy Sport s significance in the period is perhaps best registered by its literal and metaphorical centrality in such popular works of literature as Shakespeare s histories Walton s *Compleat Angler* and Milton s *Samson Agonistes* as well as its prominence in ecclesiastical and secular legislation and polemics By reconstructing a cultural history of sport and investigating representations of it in contemporary prose poetry and drama the book demonstrates sport s pivotal position in the interlocking spheres of Renaissance science politics and art Gregory M. Colón Semenza is Assistant Professor of English at the University of Connecticut

The Poetics and Politics of Youth in Milton's England Blaine Greteman, 2013-08-19 This book argues that concepts of youth and childhood were central to seventeenth century debates about political and poetic voice

The Politics of Reclusion Kendall H. Brown, 1997-01-01 The Chinese themes of the Four Graybeards of Mt Shang and the Seven Sages of the Bamboo Grove figure prominently in the art of Momoyama period Japan ca 1575 1625 Kendall Brown proposes that the dense and multivalent implications of aesthetic reclusion central to these paintings made them appropriate for patrons of all classes the military who were presently in power the aristocracy who had lost power and the Buddhist priesthood who forsook power These paintings and their attendant messages thus serve as dynamic cultural agents that elucidate the fundamental paradigms of early modern Japanese society Unlike traditional art history studies which emphasize the style and history of art objects *The Politics of Reclusion* sets out to reconstruct the possible historical context for the interpretive reception and use of Chinese hermit themes within a specific period of Japanese art In emphasizing the political dimension of aesthetic reclusion it introduces into the field of Japanese art history a discussion of the politics of aesthetics that characterizes recent work in the field of

Japanese literature By embedding the paintings within the contexts of politics philosophy religion and even gender this study restores the reflexive relations between the paintings and their culture and as such is one of the first extensive intellectual and social histories of Japanese art in a Western language It is one that will appeal not only to students of art but to those interested in Japanese literature history and philosophy The Politics of Mirth Leah S. Marcus, 1989-03-23 Leah Marcus's *The Politics of Mirth* Jonson Herrick Milton Marvell and the Defense of Old Holiday Pastimes is a fascinating study of why James and Charles promoted some types of rural sport and festival and of how certain literary texts participated in promoting or critiquing royal policy Marcus provocatively links texts not often studied in conjunction with one another and she provides strong and detailed readings of those texts Jean E Howard **Society and Politics in the Plays of Thomas Middleton** Swapan Chakravorty, 1996-05-23 A comprehensive reassessment of Middleton's cultural importance this wide ranging study examines both the writer's dramatic and non dramatic texts to show how he laid bare the complicit interests at work behind assumptions about sex morality society and politics in late feudal culture Middleton's importance has long been acknowledged in the modern theatre but academic criticism still seems distracted by questions regarding his morals and Puritanism Swapan Chakravorty argues against the reductivism of such enquiries and demonstrates the complexity behind the texts' disengagement from received ideological premises and generic formulae Combining close reading with lively historical analysis *Society and Politics in the Plays of Thomas Middleton* reveals Middleton to have been a pioneer of politically self-conscious theatre Full of insight this study brings alive the plays' meanings by engaging with the social political and cultural concerns of Middleton's day *Baily's Magazine of Sports & Pastimes*, 1915
