Personal Wars:

My Three Wars William Weir, 2012-03-11 *My Three Wars* is the Story of Three Life Wars Few wars have been fought that have so spectacularly brought heroes to the fore front of history World War II saw the bravery of some very special men and women Bill Weir is one such a man who lived a life championing causes all the time See how he not only survived the war to end all wars but helped build an entire community from scratch In this real life story you will see what it took to live not only in the war era but in the age of reconstruction after that Another masterpiece in the Acashic WW2 Series showcasing human achievement despite the odds We Are at War Vitalis Chi. Nwaneri, 2012-10-09 OUR MISSION IN THESE SIX BOOKS 1 Growing Decline in World Peace We started our long journey in these six Books with an expression of concern over the growing decline in world peace Our Mission throughout our Six Books had therefore focused on our views on how the state of World Peace can be advanced 2 Enhancing unity between Christianity and Secularity We expressed at the beginning of our first Book that one major source of the growing decline in world peace is the on going wars and crises between the Religious and Secular worlds of today This source of global crises had been acknowledged in a recent conference of global Religious Leaders held in Assisi at the invitation of Pope Benedict XVI The Conference participants resolved unanimously to address this source of crises in world peace Global Secular Leaders had also expressed much concern on the growing decline in world peace They did so again at the last meeting of the United Nations General Assembly in New York 3 Our Mission to contribute to Pope Benedict XVI's New Evangelization In our view the recent launching of the New Evangelization by Pope Benedict XVI reflected in part the resolution of Religious Leaders in the Assisi Conference to find ways of addressing the growing decline in world peace due partly to Religious conflicts with Secularity across the world The Pope called on all Lay members of the Catholic Church and Christians in general to contribute to the success of the Popes New Evangelization PCNE As we expressed throughout our six books our mission in these Books is to respond to the call by Pope Benedict XVI 4 Military and Secular Perspectives on the Religious and Secular Peace We stated clearly from the start that our contribution would reflect on the military and secular aspects of the growing conflicts between Christianity and Secularity using the global experience in both sectors by our Author throughout his career We had to take these perspectives because we must identify the source leadership and strategies in the wars and conflicts between the Religious and Secular worlds Unless we know the leaders in the conflicts and their missions we cannot achieve any progress in resolving these wars and crises and enhance the level of world peace 5 My Background A few words of introduction on my background may enable the Reader understand my perspectives in these Books I started the project of writing the Books because I am convinced that I can contribute to the PCNE by bringing my African background in Nigeria education at the London School of Economics and exposure to global secular governance through my position as a former Economic Adviser with The U K Government and a Senior Economist at The World Bank 6 Is anything wro *Private Military and Security Companies* Erika Calazans, 2016-05-11 This book s

primary concern is the application of International Humanitarian Law and International Human Rights Law in addressing the business conduct of Private Military and Security Companies PMSCs during armed conflicts as well as state responsibility for human rights violations and current attempts at international regulation The book discusses four interconnected themes First it differentiates private contractors from mercenaries presenting an historical overview of private violence Second it situates PMSCs employees under the legal status of civilian or combatant in accordance with the Third and Fourth Geneva Conventions of 1949 It then investigates the existing law on state responsibility and what sort of responsibility companies and their employees can face Finally the book explores current developments on regulation within the industry on national regional and international levels These themes are connected by the argument that in order to find gaps in the existing laws it is necessary to establish what they are what law is applicable and what further developments are needed War Beatrice Heuser,2022 War examines the nature of war and presents a genealogy of Western ideas and practices spanning over 2500 years The True Grandeur of Nations Charles Sumner,1845 *Miscellaneous Pamphlets* Charles Sumner,1845

Collection of Independence Day Speeches ,1844 **Marque and Reprisal** Kenneth B. Moss,2019-04-22 Letters of marque might suggest privateers of the Elizabethan era or the American Revolution But such conventions are duly covered in the US Constitution and the private military instruments they sanction are very much at work today in the form of mercenaries and military contractors A history of such practices up to the present day *Marque and Reprisal* by Kenneth B Moss offers unique insight into the role of private actors in military conflicts and the reason they are increasingly deployed in our day Along with an overview of mercenaries and privateers *Marque and Reprisal* provides a comprehensive history of the marque and reprisal clause in the US Constitution reminding us that it is not as arcane as it seems and arguing that it is not a license for all forms of undeclared war Within this historical context Moss explains why governments and states have sought control over warfare and actors and why private actors have reappeared in force in recent conflicts He also looks ahead to the likelihood that cyberwar will become an important venue for private warfare Moss wonders if international law will be up to the challenges of private military actors in the digital realm Is international law in fact equipped to meet the challenges increasingly presented in our day by such extramilitary activity A government makes no more serious decision than whether to resort to military force and war and when doing so Moss suggests it should ensure that such actions are accountable not on the sly and not decided in the marketplace *Marque and Reprisal* should inform future deliberations and decisions on that count Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee,2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law *Genocide Mass Atrocity and War Crimes*

in Modern History Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regime s that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs
