Like Nothing on this Earth Tony Hughes-d'Aeth, 2017 During the twentieth century the southwestern corner of Australia was cleared for intensive agriculture In the space of several decades an arc from Esperance to Geraldton an area of land larger than England was cleared of native flora for the farming of grain and livestock Today satellite maps show a sharp line ringing Perth Inside that line tan colored land is the most visible sign from space of human impact on the planet Where once there was a vast mosaic of scrub and forest there is now the Western Australian wheatbelt Tony Hughes d Aeth examines the creation of the wheatbelt through its creative writing Some of Australia s most well known and significant writers Albert Facey Peter Cowan Dorothy Hewett Jack Davis Elizabeth Jolley and John Kinsella wrote about their experience of the wheatbelt Each gives insight into the human and environmental effects of this massive scale agriculture Albert Facey records the hardship and poverty of small time selection in Australia Dorothy Hewett makes the wheatbelt visible as an ecological tragedy Jack Davis shows us an Aboriginal experience of the wheatbelt Through examining these writings Tony Hughes d Aeth demonstrates the deep value of literature in understanding the human experience of geographical change

The Tim Carmody Affair Rebecca Ananian-Welsh, Gabrielle Appleby, Andrew Lynch, 2016-09-01 When Tim Carmody was appointed Chief Justice of Queensland by Premier Campbell Newman in 2014 he had been Chief Magistrate for only nine months It proved to be the most controversial judicial appointment in Australia s history Carmody s elevation plunged the Supreme Court and the legal profession into a bitter

conflict with the government and with Carmody himself How did he come to be appointed to such a significant position What can we learn from this saga about the fragile relationships between politics and the courts The Tim Carmody Affair places the full story of Carmody s damaging and divisive tenure in context and identifies key reforms that could prevent this kind of controversy in the future A spellbinding and alarming account of one of Australia s great judicial dramas that ruptured the legal profession and the courts The Newman Government s appointment of Tim Carmody as Queensland s Chief Justice is a story of patronage betrayal leaking and political folly Brilliant and revealing Richard Ackland **Where is Daniel?** Bruce Morcombe, Denise Morcombe, 2014-08-04 On 7 December 2003 Daniel Morcombe disappeared on the Sunshine Coast while waiting for a bus For Bruce and Denise Morcombe the parents of Daniel and his brothers Bradley and Dean it was apparent within hours that something was very wrong In the first few days following Daniel s disappearance Bruce and Denise made a promise to their son that they would never ever stop looking for him and bring who was responsible to justice We will never give up As the nightmare of hours became days then weeks and months and years the family mobilised to become the moral force behind the longest criminal investigation in Australia s history Where is Daniel covers the decade long investigation into the disappearance of Daniel and the extraordinary courage dignity persistence and fortitude Bruce and Denise displayed under unbearable circumstances This determination also applied to Bruce and Denise s desire to mine something positive from the darkest of experiences They started the Daniel Morcombe Foundation in 2005 to teach children about safety and have since visited hundreds of schools around Australia They ve established Australia s largest annual child safety day of action Day for Daniel and utilised the funds raised to support other children who have been the victims of abuse Over a decade later with Daniel s killer brought to justice thanks to an amazing covert police sting this is the family s story Where is Daniel is a testament to the enduring power of love between parents and their child and the strength and bonds of family to survive *Family Forest: Public Version Volume 2 C-D* Jan Young, 2017-09-15 The result of more than twenty years research this seven volume book lists over 23 000 people and 8 500 marriages all related to each other by birth or marriage and grouped into families with the surnames Brandt Cencia Cressman Dybdall Froelich Henry Knutson Kohn Krenz Marsh Meilgaard Newell Panetti Raub Richardson Serra Tempera Walters Whirry and Young Other frequently occurring surnames include Greene Bartlett Eastman Smith Wright Davis Denison Arnold Brown Johnson Spencer Crossmann Colby Knighten Wilbur Marsh Parker Olmstead Bowman Hawley Curtis Adams Hollingsworth Rowley Millis and Howell A few records extend back as far as the tenth century in Europe The earliest recorded arrival in the New World was in 1626 with many more arrivals in the 1630s and 1640s Until recent decades the family has lived entirely north of the Mason Dixon Line **The Kentucky Land Grants** Willard Rouse Jillson, 1925 **Obsolescence** Daniel M. Abramson, 2016-02-12 In our architectural pursuits we often seem to be in search of something newer grander or more efficient and this phenomenon is not novel In the spring of 1910 hundreds of workers labored day and night to demolish the Gillender Building in New York once the loftiest

office tower in the world in order to make way for a taller skyscraper The New York Times puzzled over those who would sacrifice the thirteen year old structure as ruthlessly as though it were some ancient shack In New York alone the Gillender joined the original Grand Central Terminal the Plaza Hotel the Western Union Building and the Tower Building on the list of just one generation s razed metropolitan monuments In the innovative and wide ranging *Obsolescence* Daniel M Abramson investigates this notion of architectural expendability and the logic by which buildings lose their value and utility The idea that the new necessarily outperforms and makes superfluous the old Abramson argues helps people come to terms with modernity and capitalism s fast paced change *Obsolescence* then gives an unsettling experience purpose and meaning Belief in obsolescence as Abramson shows also profoundly affects architectural design In the 1960s many architects worldwide accepted the inevitability of obsolescence experimenting with flexible modular designs from open plan schools offices labs and museums to vast megastructural frames and indeterminate building complexes Some architects went so far as to embrace obsolescence s liberating promise to cast aside convention and habit envisioning expendable short life buildings that embodied human choice and freedom Others we learn were horrified by the implications of this ephemerality and waste and their resistance eventually set the stage for our turn to sustainability the conservation rather than disposal of resources Abramson s fascinating tour of our idea of obsolescence culminates in an assessment of recent manifestations of sustainability from adaptive reuse and historic preservation to postmodernism and green design which all struggle to comprehend and manage the changes that challenge us on all sides
