Reality Of Faith The Problem Of Subjecti

Edwin Proctor Robins

Reality Of Faith The Problem Of Subjecti:

Experiencing the Knowing of Faith Sharon Warner, 2000 What is religious faith And how does modern society view truth Sharon Warner in *Experiencing the Knowing of Faith* discusses the understanding formed by deep truth or knowledge intrinsic to a person's self identity She critiques today's susceptibility to the paradigm of Cartesian dualities such as mind body and subject object and in doing so utilizes the philosophy of Alfred North Whitehead and Michael Polanyi Concluding with an exploration of the relevance of this theory for teaching faith the work will be of great use to religious scholars and to philosophers

The reality of faith. Authorized copyright ed Samuel Phillips Newman Smyth, 1885 Johann Georg Hamann Philosophy and Faith W.M. Alexander, 2012-12-06 THE PROBLEM OF THE INTERPRETATION OF HAMANN Johann Georg Hamann is an intriguing but poorly known figure in the contemporary intellectual world Yet this is the man whom Kierkegaard saluted as Emperor whose writings were to have been arranged for publication by none other than Goethe himself and whom Dilthey numbered among the primordial figures in the rise of modern historical consciousness There are reasons for the persistence of this general ignorance Hamann is deep And in addition there is his forbidding style The readers of Kierkegaard and Dilthey two other giants who themselves achieved late recognition have not had to face this kind of imposing obstacle Not only does Hamann expect his readers to handle themselves in deep water but to intuit their way between his ideas which bob up like islands with no visible connection between them Like Kierkegaard too Hamann has had his troubles with the public He himself referred to the hope that he would be understood by a better posterity In fact only the last few years have seen the printing of some of his more controversial writings in particular his theories on the nature of human sexuality

The Reconstruction of Religion Jan-Olav Henriksen, 2015-03-13 The *Reconstruction of Religion* explores the thoughts of three influential philosophers G E Lessing Søren Kierkegaard and Friedrich Nietzsche looking in particular at their influential approaches to the relationship between religion and modernity In a period of a little more than one hundred years Lessing Kierkegaard and Nietzsche each developed a different theory of religion Rejecting the possibility of maintaining religious faith on the old foundation of church tradition these thinkers formulated new ways of understanding religion in response to the challenges of modernity Though the conclusions of each system are different there remain important elements in common between them such as the importance of religious subjectivity Jan Olav Henriksen compares and contrasts the thought of Lessing Kierkegaard and Nietzsche showing that each of these philosophers still has something important to contribute to understanding religion in our own postmodern era For anyone interested in the position of religious belief in today's world these reconstructions of religion are of great value In addition to their place in the history of ideas these three philosophical approaches anticipate some of the recent issues relating to religion in postmodernity Henriksen's perceptive work moves beyond the level of historical analysis to insightful rereadings of Lessing Kierkegaard and Nietzsche that help us better understand the place of religion in our pluralistic society

The End of Democracy and

Faith Sean Wallace,2016-03-15 We are born into an automatic social contract democracy that we never consent to While seemingly championing the individual and the value of individual choice democracy ultimately degenerates into collectivism and mob rule Coupled with a reified religious mythology widespread economic and market collapse and deep political corruption the individual is lost within a democracy to the collective majority However can a just viable form of governance and society exist without the coercion of democracy The End of Democracy and Faith presents an alternative vision that wrests the value of individual choice from mob rule and restores the consent and supremacy of the individual in the social contract Eschewing faith and hope instead for a movement toward building bonds with our fellow men and women and for taking the reins and helping each other save our future it explores the connections between our morality identity history philosophy and economy And with the introduction of the concept of the voluntary state it offers a philosophical foundation in support of using freedom instead of coercion to handle our responsibilities regarding our own income retirement health care and way of life The promises of democracy and any individualism inherent to the founding of the nation have been largely replaced by a perilous disenfranchising collectivism Pursuing an alternative social reality one that can truly enable free markets overcome religious myth and restore individual choice represents a true challenge to the moral depravity of democracy and faith There are certain elements holding back our economy the author asserts though economists rarely make mention of them due to their status as societal sacred cows His arguments against democracy are the most engaging sections of the book in part because such cases are so infrequently made Kirkus Reviews *Thinking Faith after Christianity* Martin Koci,2020-06-01 Winner of the 2020 Emerging Scholar s Theological Book Prize presented by the European Society for Catholic Theology This book examines the work of Czech philosopher Jan Pato ka from the largely neglected perspective of religion Pato ka is known primarily for his work in phenomenology and ancient Greek philosophy and also as a civil rights activist and critic of modernity In this book Martin Koci shows Pato ka also maintained a persistent and increasing interest in Christianity *Thinking Faith after Christianity* examines the theological motifs in Pato ka s work and brings his thought into discussion with recent developments in phenomenology making a case for Pato ka as a forerunner to what has become known as the theological turn in continental philosophy Koci systematically examines his thoughts on the relationship between theology and philosophy and his perennial struggle with the idea of crisis For Pato ka modernity metaphysics and Christianity were all in different kinds of crises and Koci demonstrates how his work responded to those crises creatively providing new insights on theology understood as the task of thinking and living transcendence in a problematic world It perceives the unthought element of Christianity what Pato ka identified as its greatest resource and potential not as a weakness but as a credible way to ponder Christian faith and the Christian mode of existence after the proclaimed death of God and the end of metaphysics **The Modern Theologians** David F. Ford,2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first

centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century Some Problems of Lotze's Theory of Knowledge Edwin Proctor Robins,1900 **Truth and Near Truth** William Henry Sexton,1908 *Faith in Christ Today Invitation to Systematic Theology* Klaus Nurnberger,2016-06-29 In Volume I the author analyses the Word of God and the response of the Christian community in a lucid and accesible way In this second volume he interprets the classical assertions of the Christian faith in terms of Gods creative and redemptive project in the world of today His experiential approach is meant to restore the credibility vibrancy and relevance of faith in Christ for our times *Christian Faith* Hendrikus Berkhof,1991 In today s secular world the Christian faith is viewed as only one aspect of what could be called religious life Acknowledging this Hendrikus Berkhof begins this thought provoking study with a sketch of religion and faith in general before narrowing it down to a discussion of the specific place of Christian faith in all of reality On the Production of Subjectivity S. O'Sullivan,2012-09-24 This book offers a series of critical commentaries on and forced encounters between different thinkers At stake in this philosophical and psychoanalytical enquiry is the drawing of a series of diagrams of the finite infinite relation and the mapping out of the contours for a speculative and pragmatic production of subjectivity A framework for faith Hall,2024-09-23 The Faith Once for All Jack Cottrell,2002 *Encyclopedia of Theology* Karl Rahner,1975-01-01 An essential and reliable reference work and manual of the Christian faith this book provides both students and interested readers with a basic text presenting the findings of modern scholarly thought and research Ecumenical in spirit and approach no responsible and inquiring Christian can afford to be without it **The Understanding of Christian Faith** Schubert M. Ogden,2010-04-01 As an introduction to Christian systematic theology this volume treats all the main theological topics from God to last things seeking to explicate critically the understanding of them implicit in Christian faith itself in terms at once appropriate to Jesus Christ and credible to human existence Its criteria accordingly are the ultimate criteria of on the one hand specifically Christian experience of Jesus as expressed by the apostolic witness and on the other hand generically human experience of existence as expressed by a sound philosophy And as befits an introduction it employs these same criteria to clarify the process of actually doing Christian systematic theology Thus it begins by explaining both what such a theology has to do and how it is to do it and ends by considering what it means to do theology as a Christian calling particularly as a professional theologian **Truth, Faith,**

and Reason Kenneth M. Sayre, 2022-08-16 John Paul II's Faith and Reason was written against a background of Catholic scholarship focusing notably on the New Testament St Augustine's Confessions St Thomas's De Veritate and the encyclicals of various pre Vatican II popes A detailed textually based critique of these early sources reveals inconsistencies and conceptual errors that are shown to carry over into Faith and Reason John Paul II's treatment of reason in particular turns out to be aberrant to the point of incoherence It is inconceivable how this reason could join with faith in a way that lifts the human spirit to a contemplation of truth as stated in the Preface of the encyclical There is another sense of reason however which demonstrably is capable of cooperating with faith to achieve this effect This reason is free from the fetters of Neo Scholasticism that keep John Paul II's reason grounded The present study joins forces with the encyclical with a detailed example of this other sense of reason in action In this example new truths come to light regarding the complex relation between the first and the second great commandments *Regaining Sanity for the Earth* Klaus Nürnberger, 2011 For centuries science and faith have been drifting apart Science lost its transcendent foundations faith lost its credibility Science conquered the future faith got stuck in the past Science unleashed unprecedented powers faith became a private pastime The economic and ecological consequences are catastrophic Science and faith must reconnect and lead the way out of the crisis **Faith Healers and the Bible** Stephen J. Pullum, 2015-04-14 An insightful read for anyone who is interested in religion this book offers fresh biblical insight into the preaching of faith healing from a Christian perspective Faith healing has been a popular religious phenomenon in this country for well over a hundred years gaining thousands of followers and raking in millions of dollars annually What faith healers teach however often goes unchallenged Faith Healers and the Bible What Scripture Really Says offers an informed critique of many of the themes found in faith healers preaching that documents that much of what they teach is not biblically based contrary to what they would like their listeners to believe Drawing on a lifetime of study and nearly two decades of teaching a university course titled The Rhetoric of Faith Healing Stephen J Pullum PhD provides scriptural insight into the false claims frequently found in the preaching of healing revivalists After an introductory chapter that explains why faith healers have been so persuasive the author addresses a breadth of topics including the miraculous the providential demon possession the call of God the indwelling of the Holy Spirit and the health and wealth gospel Meeting faith healers on their own turf the Bible Pullum clearly demonstrates that much of what faith healers preach cannot be scripturally supported Reality and Faith Heinrich Ott, 1972
