Abstract

What is the status of belief in God? Must a rational case be made or can such belief be properly basic? Is it possible to reconcile the concept of a good God with evil and suffering? In light of great differences among religions, can only one religion be true? The most comprehensive work of its kind, *Reason and Religious Belief*, now in its fourth edition, explores these and other perennial questions in the philosophy of religion. Drawing from the best in both classical and contemporary discussions, the authors examine religious experience, faith and reason, the divine attributes, arguments for and against the existence of God, divine action (in various forms of theism), Reformed epistemology, religious language, religious diversity, religion and science, and much more. Retaining the engaging style and thorough coverage of previous editions, the fifth edition features revised treatments of omnipotence, miracles, and providence and updated

The Rationality of Theism Godehard Brüntrup, R.K. Tacelli, 2013-04-17 In May 1998 a distinguished group of philosophers met in Munich to discuss the rationality of theism This volume is a collection of the papers read at that conference While in recent years the rationality of theistic belief has been widely discussed the Munich conference was an event of some moment in the history of philosophical dialogue for the first time German and English speaking philosophers of religion representatives of both the Continental and the Anglo Saxon traditions joined together to grapple with a common philosophical theme This multiplicity of perspectives brought a unique richness to the analysis of rationality that no one tradition by itself could provide Readers will find that richness displayed in the pages of this book Professional philosophers will find here a great deal to stimulate and challenge them but graduate students capable undergraduates and all others with a serious interest in the philosophy of religion will be well rewarded for their efforts to come to grips with these thought provoking papers

Martin Luther: The Problem with Faith and Reason David Andersen, 2012-09-01 Luther's critics have consistently charged him as an irrationalist and pessimist concerning reason's capabilities and even by his followers as a fideist who sees little or no relationship between faith and reason In this book David Andersen offers a fresh and timely re evaluation of Luther and his understanding of the relationship between faith and reason based upon a thorough engagement with Luther's mature writings Dr Andersen persuasively argues that far from being either an irrationalist or a fideist Luther stands within an empiricist tradition and that his pronouncements on fallen human reason can be understood only from that philosophical perspective Based upon recent research into the writings of William of Ockham who positively influenced Luther in this area Dr Andersen also shows that Luther can no longer be charged as a pessimist concerning human knowledge Reason has an important role to play for Luther in bringing one to faith and the objectivity of Christ's resurrection serves as that focal point that validates all Christian discourse In subordinating itself to the facts of the death and resurrection of Christ for the forgiveness of sins reason's created function is restored to some extent as it receives that forgiveness in the words of Holy Scripture and the visible means of Baptism and the Lord's Supper

Resurrection, Scripture, and Reformed Apologetics Steven D. West, 2012-07-26 Apologetic methodology has been the subject of intense debate in Reformed circles This book argues that we can test Reformed apologetic methods for consistency using two linchpin theological topics the doctrine of the resurrection and the doctrine of Scripture Should apologetics move from

establishing theism to the resurrection and then to Scripture Or should theism the resurrection and the doctrine of Scripture be accepted on the testimony of the Holy Spirit as basic beliefs Alternatively do these doctrines need to be presupposed and incorporated into a transcendental defense of the faith After analyzing classical apologetics historical evidentialism Reformed epistemology and presuppositionalism for their apologetic cogency Steven D West contends that any method used by Reformed apologists should be able to argue successfully for a high view of Scripture the source of the doctrine of the resurrection The book will be useful to everyone interested in the relationship between theology philosophy and apologetics
