Discourse, Dialogue and Technology Enhanced Learning Rachel Pilkington, 2015-11-19 Discourse Dialogue and Technology Enhanced Learning is invaluable to all those wanting to explore how dialogic processes work and how we facilitate them Dialogue is an important learning tool and it is by understanding how language affects us and how we use language to encourage empathise inquire argue and persuade that we come closer to understanding processes of change in ourselves and our society Most researchers in Education will find themselves interpreting some form of data in the form of words whether these words be explanations conversations narrations reflections debates or interviews and whether they are conducted through digital media or face to face Discourse textual or spoken is therefore central to researching education Each chapter focuses on the ways in which alternative levels of

discourse analysis provide tools for the researcher enabling insights into the way language works in learning teaching practice and wider society Drawing on the author's own DISCOUNT discourse analysis coding scheme and including a wide range of dialogue examples this book covers Why Dialogue The Role of Dialogue in Education Debate Learning to Argue and Arguing to Learn Towards Meaning Making Inquiry Narrative and Experience The Role of the Significant Other Facilitation Scaffolding and Mediation Inclusion Collaboration and Community Media Mode and Digital Literacy Researching Voices and Texts Discourse Dialogue and Technology Enhanced Learning will be an essential resource for all students educators and educational researchers who have an interest in the role of discourse in educational contexts *Re-framing Literacy* Richard Andrews, 2010-09-13 Imaginative and attractive cutting edge in its conception this text explicates a model for the integration of language arts and literacy education based on the notion of framing The act of framing not frames in themselves provides a creative and critical approach to English as a subject Re framing Literacy breaks new ground in the language arts literacy field integrating arts based and sociologically based conceptions of the subject The theory of rhetoric the book describes and which provides its overarching theory is dialogic political and liberating Pedagogically the text works inductively from examples up toward theory starting with visuals and moving back and forth between text and image exploring multimodality and engaging in the transformations of text and image that are at the heart of learning in English and the language arts Structured like a teaching course it is designed to excite and involve readers and lead them toward high level and useful theory in the field Offering an authoritative clear guide to a complex field it is widely appropriate for pre service and in service courses globally in English and language arts education **The SAGE Handbook of E-learning Research** Richard Andrews, Caroline Haythornthwaite, 2007-07-10 I would like to enthusiastically recommend The SAGE Handbook of E Learning Research An international set of authors have produced a highly readable handbook that covers topics in E learning research theory policy language and literacy and design issues The work draws on multiple perspectives ranging from early work in asynchronous learning networks to community organization in e learning This is a large and much needed work that organizes and illuminates issues in E learning in a way that readers will be able to take away practical advice for their own use I am quite pleased to see this handbook that provides a very useful organization of knowledge for our field John Bourne Ph D Professor and Executive Director The Sloan Consortium www.sloan.c.org This book is an important contribution to the development of E learning because its account of the research always begins with the context of learning from which the exploitation of technology can be viewed The authors help us understand that technology affords new kinds of relationship between the learner and what is learned and how it is learned With this rich understanding the book is able to build the wide ranging research foundation on which the field can move forward Diana Laurillard Institute of Education University of London A comprehensive and compelling resource that provides a global perspective on a development that is transforming higher education David Pilsbury Chief Executive Worldwide Universities Network Unlike many how to books on the topic this

work focuses on research for educators and others interested in how technology enhances or diminishes learning Highly Recommended Choice Magazine This handbook provides a state of the art in depth account of research in the rapidly expanding field of E learning The first of its kind it provides reviews of over 20 areas in E learning research by experts in the field and provides a critical account of the best work to date The contributors cover the basics of the discipline as well as new theoretical perspectives Areas of research covered by the Handbook include Contexts for researching e learning Theory and policy Language and literacy Design issues History of the field The editors introduction and many of the chapters show how multiple aspects of E learning interact The introduction also provides a new model for researching the field This book is relevant for everyone in higher education from undergraduate to faculty as well as university administrators involved in providing E learning It will provide a research background for higher education including universities training colleges and community colleges It will also be relevant to those involved in any research and developmental aspect of E learning corporate trainers and those involved in online programs at secondary school or in virtual high schools Whether you are a lecturer researcher or programme designer this is an essential read Richard Andrews is Professor in English at the Institute of Education University of London and Visiting Professor at New York University s Steinhardt School of Education Culture and Human Development Caroline Haythornthwaite is Associate Professor at the Graduate School of Library and Information Science at the University of Illinois at Urbana Champaign

Ritual and Religious Experience in Early Christianities

David John McCollough,2022-09-19 In this volume David John McCollough challenges the common assumptions that Paul thought the Spirit was communicated through water baptism that justification was non experiential and unrelated to ritual that Luke was incoherent or a poor editor and that water baptism was the cardinal initiation rite among early Christianities
