Roberts, 2013-09-13 Suitable for 19th and 20th century Europe modern Europe undergraduate courses This well established and immensely successful book provides a standard introduction to the subject by one of Britain's most popular historians Social economic and social history are skillfully integrated within a framework of political narrative history **The Dictionary of National Biography, 1912-1921** John Reginald Homer Weaver, Henry William Carless Davis, George Smith, 1927 *Reflecting Imperial Overstretch and New Realities* Brian O'Sullivan, 2024-07-03 This book is the first comprehensive history of the British Trade Corporation which was constituted under a Royal Charter on 21st April 1917 Its charter was meant to last for sixty years but in 1926 after a turbulent existence of only nine years it was amalgamated with the Anglo Austrian Bank and absorbed into the Anglo International Bank The corporation together with its two main subsidiaries the Levant Company and the National Bank of Turkey conducted business not only in Britain but in Russia Turkey the Middle East and in Continental Europe Although the corporation was not an agent of empire it reflected Britain's imperialistic ambitions after the First World War As a result it invested in some of the most unstable regions of the world It was also severely affected by British foreign policy which was often misjudged and at times duplicitous resulting in serious damage to British trade Within five years of its launch the

British Trade Corporation needed to be refinanced The economic downturn in the early 1920s and ongoing hostilities in Eastern Europe and the Near East meant that it struggled to survive Its difficulties reflected many of those faced by Britain in general after the war and the need to come to terms with the new realities of the post war world Despite its innovative attempt to address the perceived deficiencies in Britain's financial system especially in respect of industrial finance the British Trade Corporation has been largely ignored by financial historians Based on substantial archival research this book rectifies this neglect and makes an important contribution to the financial history of interwar Britain *Young Hitler* Paul Ham,2018-06-05 When Adolf Hitler went to war in 1914 he was just twenty five years old It was a time he would later call the most stupendous experience of my life That war ended with Hitler in a hospital bed temporarily blinded by mustard gas The world he eventually opened his newly healed eyes to was new and it was terrible Germany had been defeated the Kaiser had fled and the army had been resolutely humbled By peeling back the layers of Hitler's childhood his war record and his early political career Paul Ham seeks the man behind the myth More broadly Ham asks the question Was Hitler's rise to power an extreme example of a recurring type of demagogue a politician who will do and say anything to seize power who thrives on chaos and who personifies in his words and in his actions the darkest prejudices of humankind *Emma Goldman, Vol. 2* Emma Goldman,2008-07-16 Emma Goldman A Documentary History of the American Years reconstructs the life of Emma Goldman through significant texts and documents These volumes collect personal letters lecture notes newspaper articles court transcripts government surveillance reports and numerous other documents many of which appear here in English for the first time Supplemented with thorough annotations multiple appendixes and detailed chronologies the texts bring to life the memory of this singular pivotal figure in American and European radical history Volume 2 Making Speech Free 1902 1909 extends many of the themes introduced in the previous volume including Goldman's evolving attitudes toward political violence and social reform intensified now by documentary accounts of the fomenting revolution in Russia and the legal opposition toward anarchism and labor organizing in the United States Always an impassioned defender of free expression Goldman's launch of her magazine Mother Earth in 1906 signaled a desire to bring radical thought into wider circulation and its pages brought together modern literary and cultural ideas with a radical social agenda quickly becoming a platform for her feminist critique among her many other challenges to the status quo With abundant examples from her writings and speeches this volume details Goldman's emergence as one of American history's most fiercely outspoken opponents of hypocrisy and pretension in politics and public life **Biography: An Historiography** Melanie Nolan,2023-04-03 Biography An Historiography examines how Western historians have used biography from the nineteenth century to the present considering the problems and challenges that historians have faced in their biographical practice systematically This volume analyses the strategies and methods that historians have used in response to seven major issues identified over time to do with evidence including but not limited to the problem of causation the problem of fact and fiction the problem of other

minds the problem of significance or representativeness the problems of perspective both macro and micro and the problem of subjectivity and relative truth This volume will be essential for both postgraduates and historians studying biography
