Reception Of Swift In Europe:

The Reception of Jonathan Swift in Europe Hermann J. Real, 2005-07-31 Jonathan Swift has had a profound impact on almost all the national literatures of Continental Europe The celebrated author of acknowledged masterpieces like *A Tale of a Tub* 1704 *Gulliver's Travels* 1726 and *A Modest Proposal* 1729 the Dean of St Patrick's Dublin was courted by innumerable translators adaptors and retellers admired and challenged by shoals of critics and creatively imitated by both novelists and playwrights not only in Central Europe Germany and Switzerland but also in its northern Denmark and Sweden and southern Italy Spain and Portugal outposts as well as its eastern Poland and Russia Hungary Romania and Bulgaria and Western parts from the beginning of the eighteenth century to the present day *Systematically Analysing Indirect Translations* James Luke Hadley, 2023-05-11 This volume applies digital humanities methodologies to indirect translations in testing the concatenation effect hypothesis The concatenation effect hypothesis suggests that indirect translations tend to omit or alter identifiably foreign elements and also tend not to identify themselves as translations The book begins by introducing the methodological framework to be applied in the chapters that follow and providing an overview of the hypothesis The various chapters focus on specific aspects of the hypothesis that relate to specific linguistic stylistic and visual features of indirect translations These features provide evidence that can be used to assess whether and to what extent the concatenation effect is in evidence in any given example The overarching aim of the book is not to demonstrate or falsify the veracity of the concatenation effect hypothesis or to give any definitive answers to the research questions posed Rather the aim is to pique the curiosity and provoke the creativity of students and researchers in all areas of translation studies who may never have considered indirect translation as relevant to their work *Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs* Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina **The Reception of Charles Dickens in Europe** Michael Hollington, 2013-08-29 The Reception of Charles Dickens in Europe offers a full historical survey of Dickens's reception in all the major European countries and many of the smaller ones filling a major gap in Dickens scholarship which has by and large neglected Dickens's fortunes in Europe and his impact on major European authors and movements Essays by leading international critics and translators give full attention to cultural

changes and fashions such as the decline of Dickens's fortunes at the end of the nineteenth century in the period of Naturalism and Aestheticism and the subsequent upswing in the period of Modernism in part as a consequence of the rise of film in the era of Chaplin and Eisenstein. It will also offer accounts of Dickens's reception in periods of political upheaval and revolution such as during the communist era in Eastern Europe or under fascism in Germany and Italy in particular. The Cambridge Companion to Gulliver's Travels Daniel Cook, Nicholas Seager, 2023-10-19 Jonathan Swift's satirical masterpiece *Gulliver's Travels* has shocked and delighted readers worldwide since its publication in 1726. At turns a humorous and harrowing indictment of human behaviour, it has been endlessly reinterpreted by critics and adapted across media by other artists. The *Cambridge Companion to Gulliver's Travels* comprises 17 original chapters by leading scholars written in a theoretically informed but accessible style. As well as providing detailed close readings of each part of the narrative, this Companion relates *Gulliver's Travels* to the political, religious, scientific, colonial and intellectual debates in which Swift was engaged and it assesses the form of the book as a novel, travel book, philosophical treatise and satire. Finally, it explores the *Travels'* rich and varied afterlives, the controversies it has fuelled, the films and artworks it has inspired and the enduring need authors have felt to write back to Swift's original, disturbing and challenging story. Britain and Italy in the Long Eighteenth Century Rosamaria Loretelli, Frank O'Gorman, 2010-02-19 The essays in this collection range across literature, aesthetics, music and art and explore such themes as the dynamics of change in eighteenth-century aesthetics, time, modernity and the picturesque; the function of graphic ornaments in eighteenth-century texts; imaginary voyages as a literary genre; the genesis of children's literature; the Italian opera and musical theory in Frances Burney's novels; Italian and British art theories and patterns of cultural transfers; and of book circulation between Britain and Italy in the eighteenth century. Collectively, they epitomise the concerns and approaches of scholars working on the long eighteenth century at this challenging and exciting time. In the absence of universally agreed overarching interpretations of the cultural history of the long eighteenth century, these papers pave the way for the ultimate emergence of such explanations. Authors discussed here include Margaret Cavendish, David Hume, Francis Hutcheson, Reverend Gilpin, Samuel Richardson, Henry Fielding, Laurence Sterne, Dugald Stewart, Dorothy Kilner, Frances Burney, Anna Gordon Brown, Saverio Bettinelli, Henry Ince, Blundell, Francesco Algarotti, Ugo Foscolo and Francesco Domenico Guerrazzi. **The European Magazine and London Review, by the Philological Society of London**, 1789 Translation in Anthologies and Collections (19th and 20th Centuries) Teresa Seruya, Lieven D'huylst, Alexandra Assis Rosa, Maria Lin Moniz, 2013-08-29 Among the numerous discursive carriers through which translations come into being, are channeled and gain readership, translation anthologies and collections have so far received little attention among translation scholars: either they are let aside as almost ungraspable categories astride editing and translating, mixing in most variable ways authors, genres, languages or cultures, or are taken as convenient but rather meaningless groupings of single translations. This volume takes a new stand, makes a plea to consider translation anthologies

and collections at face value and offers an extensive discussion about the more salient aspects of translation anthologies and collections their complex discursive properties their manifold roles in canonization processes and in strategies of cultural censorship It brings together translation scholars with different backgrounds both theoretical and historical and covering a wide array of European cultural areas and linguistic traditions Of special interest for translation theoreticians and historians as well as for scholars in literary and cultural studies comparative literature and transfer studies *The Afterlives of Eighteenth-Century Fiction* Daniel Cook,Nicholas Seager,2015-09-29 This collection of essays offers insights into the ways in which eighteenth century novels have been adapted and appropriated by later writers It will be of interest to students of the rise of the novel interdisciplinary approaches to literature and the developing field of adaptation studies **The European Magazine, and London Review** ,1803 **MLA International Bibliography of Books and Articles on the Modern Languages and Literatures** ,2008 **Utopia and Its Discontents** Sebastian Mitchell,2020-02-20 Utopia and Its Discontents traces literary representations of ideal communities from Plato to the 21st century Each chapter offers close readings of key utopian and anti utopian texts to demonstrate how they construct challenge and explore the ideas and forms of earlier utopian writings and the social and political ideals of their own periods In this original and insightful study Sebastian Mitchell demonstrates how literary utopias are often as much about the past as they are about the present and the future Utopia and Its Discontents concludes by arguing against the idea that the utopian has been eclipsed by the dystopian in contemporary culture Topics covered include Early political and philosophical authors such as Plato and Thomas More Literary works from Jonathan Swift s *Gulliver s Travels* to George Orwell s *Nineteen Eighty Four* Speculative fiction writers such as H G Wells Aldous Huxley and Margaret Atwood Ecological and feminist texts by Ernest Callenbach Ursula Le Guin and Marge Piercy Twenty first century utopianism This is an essential study for scholars and students of utopian literature

Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs Ms Katalin Nun,Dr Jon Stewart,2015-01-28 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex The present volume is dedicated to the treatment of the variety of literary figures and motifs he used **Annual Report on English and American Studies** ,2005 **Globalization in English Studies** Maria Giorgieva,Allan James,2010-02-19 Globalization the concept used to account for the multitude of linkages interconnections and interdependences that currently transcend territorial and sociocultural boundaries in the world has been in the centre of continual controversy over its meaning scope intensity and social significance for post modern societies However whether considered from the narrow angle of current socio economic developments or from the broad perspective of evolutionary processes straddling all spheres of life

A Modest Proposal in the Context of Swift's Irish Tracts Maria-Angeles Ruiz

Moneva, 2020-06-12 Swift's A Modest Proposal has always aroused the interest not just of literary critics but also of linguists and pragmatists Within the latter approaches the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount However it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself In the present author's view it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland an approach that remains to be carried out Accordingly this work sets out to analyse a selection of Swift's Irish Tracts with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland Although different pragmatic approaches are applied the emphasis is laid upon the contributions that the relevance theoretical framework and its studies on irony may bring to the understanding of this particular Tract The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the Irish Question It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of A Modest Proposal
