Servant Leadership, Social Entrepreneurship and the Will to Serve Luk Bouckaert,Steven C. van den Heuvel,2019-11-28 This book brings together a number of important essays on the intersection of servant leadership and social entrepreneurship examining them through a shared focus on the will to serve This combination bears out the insight that inspiring social and economic leaders are able to transform a conflictual human settlement into a collaborative and caring human community The book seeks to answer the question of whether we can induce from their way of doing things a model of civic entrepreneurship and leadership that can inspire people in profit non profit and public organizations It also examines the extent to which the will to serve is compatible with the will to maximize profit or the will to gain economic political or religious power Furthermore it asks how far different spiritual traditions create different models and examples of servant leadership and social entrepreneurship This book will be of interest to researchers working in the fields of business ethics business spirituality and corporate social responsibility **Leadership in a Challenging World** Barbara

Shipka,2012-08-06 Leadership in a Challenging World is about a journey to wholeness The whole self is sacred and required in order to lead well in the complex world of today and tomorrow Divided into 3 parts the book begins with the metaphor of the forest for the world with both its demanding challenges and its magnificent possibilities Part 2 uses the metaphor of walking on a path to suggest eight subjective human powers that are essential to leading in business today and tomorrow Finally part 3 describes an ancient basis for the powers and shows how they can serve to bring balance to each other that results in human wholeness Real Leadership Gilbert W. Fairholm,2011-01-04 This text explains why values based spiritual leadership that coalesces employees into a harmonious group is the only way to successfully manage increasingly diverse workers in the 21st century A person s values are the most powerful factor defining his or her actions everyone has a value system or a spiritual component that triggers their behavior Our personal values are a more powerful force upon

individual action than corporate policy procedures tradition or peer pressure Since the work environment is where the typical worker will spend the most time more than at home with family with friends or at church it is reasonable that workers will have spiritual demands as well as economic needs from their work lives Unfortunately this is a task managers are not prepared to meet Real Leadership How Spiritual Values Give Leadership Meaning argues that values based i e spiritual leadership is the only way to do leadership in today s globalized multi differentiated world The author traces the development of real leadership through five generations of theory then builds a strong case for the values leadership strategy because of its ability to unify workers and because it allows them to find personal meaning in the workplace task at hand

international representation The Journal for Quality and Participation ,2001 **Spirituality and Corporate Social Responsibility** David Bubna-Litic,2016-04-01 Religion and spirituality have often been treated with a secular disdain by management theorists Recently the tide has begun to turn and there is a growing openness to cite spirituality in academic analysis and debate and when considering issues of practical concern to those engaged in the actual business of management This provocative book brings together a range of leading thinkers to consider the relationship between spirituality and corporate social responsibility The book s contributors examine spirituality as an inherent dimension of corporate life even if it is only known through its absence and through the negative consequences of this absence on people and the planet With contributors from four continents David Bubna Litic has assembled a range of fascinating perspectives having their origins in traditions that include Christianity Process Theology Hinduism Contemporary Buddhism Deep Ecology Humanism Post Modern and Post Romantic Spirituality Spirituality and Corporate Social Responsibility is a fascinating read for anyone with an interest in ways in which spirituality relates to what is or what should be driving businesses and organizations to more responsible behaviour
