Reducing Gun Violence Results From An Intervention In East Los Angeles:

Reducing Gun Violence George Tita, K. Jack Riley, Greg Ridgeway, Clifford A. Grammich, Allan Abrahamse, 2003-09-12 To assess whether an initiative to reduce gun violence that had been successful in Boston could be adapted for use elsewhere researchers selected an East Los Angeles area for a similar intervention that was to include both law enforcement and social service components Although the latter component was not widely available when the intervention began researchers found that the intervention helped reduce violent and gang crime in the targeted districts and that crime also decreased in surrounding communities

Reducing Gun Violence, 2005 **Celebrities Against Violence** Truman R. Keys, 2022-03-23 Violence is more than an issue in America It is a pandemic its negative impacts and corrosive character are harming us whether we are a victim a bystander or professional tasked with public health and safety Violence affects us regardless of class or social standing For decades celebrities and well known public figures have taken to the media to share their own experiences with violence This book spotlights the celebrities and their loved ones who have survived self harm bullying intimate partner violence sexual assault family abuse home invasion gun violence or police brutality Violence prevention experts increasingly recognize the influence of celebrities and work with them to spread awareness This collection of case studies aims to support this growing influence by documenting the effects of violence prevention through celebrity advocacy

Strategies for Disrupting Illegal Firearm Markets Greg Ridgeway, 2008 Could a data driven problem solving approach yield new interventions to disrupt local illegal gun markets serving criminals gang members and juveniles in Los Angeles Law enforcement can analyze patterns in crime gun data to trace illicit firearm acquisition use community based interventions to stem the illegal flow and use retail ammunition purchase records in identifying prohibited firearm possessors

Firearms and Violence National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee to Improve Research Information and Data on Firearms, 2005-01-13 For years proposals for gun control and the ownership of firearms have been among the most contentious issues in American politics For public authorities to make reasonable decisions on these matters they must take into account facts about the relationship between guns and violence as well as conflicting constitutional claims and divided public opinion In performing these tasks legislators need adequate data and research to judge both the effects of firearms on violence and the effects of different violence control policies Readers of the research literature on firearms may sometimes

find themselves unable to distinguish scholarship from advocacy Given the importance of this issue there is a pressing need for a clear and unbiased assessment of the existing portfolio of data and research Firearms and Violence uses conventional standards of science to examine three major themes firearms and violence the quality of research and the quality of data available The book assesses the strengths and limitations of current databases examining current research studies on firearm use and the efforts to reduce unjustified firearm use and suggests ways in which they can be improved

Guns in American Society Gregg Lee Carter, 2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of Guns in American Society An Encyclopedia of History Politics Culture and the Law was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of Guns in American Society is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters

Community Policing and Peacekeeping Peter Grabosky,2009-06-25 In modern industrial societies the demand for policing services frequently exceeds the current and foreseeable availability of public policing resources Conversely developing nations often suffer from

an inability to provide a basic level of security for their citizens Community Policing and Peacekeeping offers a fresh overview of the challenge

Violent Offenders: Theory, Research, Policy, and Practice Matt DeLisi, Peter Conis, 2011-07-20 Although the public interest in criminal predators is extensive the criminology of criminal predators is fragmented Violent Offenders Theory Research Policy and Practice Second Edition aims to demystify the many different types of violent offenders we hear about in the media This newly revised and updated Second Edition is a compilation of original scholarship from an international collection of applied and academic criminologists Based not only on history and academic research but also on the experiences of author Peter Conis as a 25 year veteran of law enforcement it provides students with a realistic view of why people commit violent crimes and how our criminal justice system as a whole responds to these offenders and these violent acts It contains cutting edge material on the broad category of criminal predators including homicide offenders sex offenders financial predators and conventional street criminals Unlike other texts on the subject that narrowly focus on one type of criminal e g serial killers this updated Second Edition illustrates the systemic importance of predation in antisocial behavior This book is divided into two parts part one covers the theoretical and disciplinary foundations of the study of violent behavior spanning the disciplines of sociology psychology biology and neuroscience Part two covers the policy and practice of responding to violent offenders from the insightful perspectives of people who work among them on a daily basis New and Key Features of the Second Edition Contains 10 NEW chapters 5 in theory and research and 5 in policy and practice These additions provide greater overall coverage of sociological theory evolutionary psychology theory and female offenders The section on policy and practice is organized to be consistent with the criminal justice system from law enforcement through the courts to corrections Hands on research and practitioner expertise illustrate today s study of criminal predation Provides clear explanations of how criminological theory relates to the formation of a criminal offender to help students understand the reasons behind a person s violent actions

Operation Fly Trap Susan A. Phillips, 2024-05-31 In 2003 an FBI led task force known as Operation Fly Trap attempted to dismantle a significant drug network in two Bloods controlled African American neighborhoods in Los Angeles The operation would soon be considered an enormous success noted for the precision with which the task force targeted and removed gang members otherwise entrenched in larger communities In Operation Fly Trap Susan A Phillips questions both the success of this operation and the methods used to conduct it Based on in depth ethnographic research with Fly Trap participants Phillips s work brings together police narratives crime statistics gang cultural histories and extensive public policy analysis to examine the relationship between state persecution and the genesis of violent social systems Crucial to Phillips s contribution is the presentation of the voices and perspectives of both the people living in impoverished communities and the agents that police them Phillips positions law enforcement surveillance and suppression as a critical point of contact between citizen and state She tracks the bureaucratic workings of police and FBI agencies and the language ideologies and methods that prevail within

them and shows how gangs have adapted seeking out new locations learning to operate without hierarchies and moving their activities more deeply underground Additionally she shows how the targeted efforts of task forces such as Fly Trap wreak sweeping sustained damage on family members and the community at large Balancing her roles as even handed reporter and public scholar Phillips presents multiple flaws within the US criminal justice system and builds a powerful argument that many law enforcement policies in fact nurture rather than prevent violence in American society *The Routledge International Handbook of Human Aggression* Jane Ireland, Philip Birch, Carol Ireland, 2018-01-03 Drawing upon international expertise and including some of the most well known academics and practitioners in the field The Routledge International Handbook of Human Aggression is the first reference work to fully capture how our understanding of aggression has been refined and reconceptualised in recent years Divided into five sections the handbook covers some of the most interesting and timely topics within human aggression research with analysis of both indirect and direct forms of aggression and including chapters on sexual aggression workplace bullying animal abuse gang violence and female aggression It recognises that in many cases aggression is an adaptive choice rather than a moral choice Providing practitioners and academics with an up to date resource that covers broad areas of interest and application the book will be essential reading for students researchers and practitioners associated with a range of social science disciplines including psychology criminology social work and sociology particularly those with an interest in developmental organisational forensic and criminal justice allied disciplines
