Reflections In The Mirror Of Religion Ninian Smart:

Reflections in the Mirror of Religion Ninian Smart, 1997 The essays selected for this volume represent Professor Ninian Smart's most contemporary reflections on major issues in the field of religious studies. Beginning with investigations into the possibility of a science of religion, Professor Smart then goes on to consider how a sociology of religious knowledge can be developed, focusing in particular on Asian cultures and traditions. Finally, he analyses the growth of religious studies as an academic field, a field his own work has helped to shape in a definitive way. Ninian Smart on World Religions: Traditions and the challenges of modernity. I. Individual traditions. Buddhism. 'Mysticism and scripture in Theravāda Buddhism' Ninian Smart, 2009

Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s. His pioneering views on education in religion proved hugely influential at all levels, from primary schools to academic teaching and research. An unending string of publications, many of them accessible to the general public, sustained a reputation that became worldwide. Here, for the first time, a selection of Ninian Smart's wide-ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century. The editor, John Shepherd, was Principal Lecturer in Religion and Philosophy at the University of Cumbria. He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster.

Maya Christians and Their Churches in Sixteenth-Century Belize Elizabeth Graham, 2020-03-17 It is widely held that Christianity came to Belize as an extension of the conquest of Yucatan and that adherence to Christian belief and practice was abandoned in the absence of enduring Spanish authority An alternative view comes from the excavations of Maya churches at Tipu and Lamanai which show that the dead were buried in Christian churchyards long after the churches themselves fell into disuse and pre-Columbian ritual objects were cached in Christian sacred spaces both during and after Spanish occupation Excavations also reveal that the architectural style of these early churches is Franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair A conclusion difficult to ignore is that the Maya of Tipu and Lamanai considered themselves Christians with or without Spanish presence Viewing historical and archaeological data through the lens of her personal experience of Roman Catholicism and informed by feminist approaches Elizabeth Graham assesses the concept of religion the significance of doctrine the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas objects and images by the Maya by Iberian Christians and by archaeologists Graham's provocative study also makes the case that the impact of Christianity in Belize was a phenomenon that uniquely shaped the development of the modern nation A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase

Rudolf Otto and the Foundation of the History of Religions Yoshitsugu Sawai, 2022-02-10 This book provides an up-to-date treatment of Rudolf Otto and his work placing him in the context of comparative religion theology and the philosophy of religion Yoshitsugu Sawai shows how Otto has three faces the Lutheran Theologian the Philosopher of Religion and the Comparative Religionist The book also shows how of these Otto saw himself primarily as a Lutheran Theologian and provides an account of Otto's engagement with India and the centrality that Hindu theology had on his thinking In Otto's theory of religion his well-known concepts including wholly other and numinous constitute a multiple structure of meaning For example his concept of the wholly other *das ganz Andere* no doubt has the meaning of God in his Christian theological studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity

Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimation of violence *Muslims as Actors* Jacques

Waardenburg, 2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion A careful study of this debate should steer clear of political religious and ideological interests Research in this area by Muslims and non Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances Current political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading observing listening and reflecting Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present day Muslim life situations Muslim recourse to Islam can be studied as human constructions of value and meaning and relations between Muslims and others can be seen in terms of human interaction without blame always falling on Islam as such **British Buddhism** Robert Bluck, 2006-09-27 Despite the popularity of Buddhism in Britain there has so far been no study documenting the full range of teachings and practices This book fills this gap and serves as an important reference point for further studies in this increasingly popular field

Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Religious Education Clive Erricker, 2010-04-12 The role of Religious Education in secondary schools is the subject of national and international debate. This book examines the current debates surrounding RE and puts forward a new approach to teaching the subject that is non-faith based and focused on conceptual enquiry and the development of a clear pedagogy. The book is based on the Living Difference learning model developed in Hampshire and adopted in other parts of the UK, which is sparking international discussion and provides an effective approach to implementing the new secondary curriculum. The chapters include examinations of religious education and the curriculum, an interdisciplinary approach to religious education, the significance of pedagogy and learners' development, planning, progression, assessment, and delivery, specific case studies and examples of good practice in schools, theoretical grounding, and the future of RE, the effects of globalisation, post-modernity, and multiculturalism. Providing a basis for developing thinking about Religious Education, its place in the curriculum, and how it can be delivered effectively in schools, this book is essential reading for tutors, students, and teachers.
