Reflexive Representations Politics Hegemony Discourse In Global Capitalism:

Reflexive Representations Johannes Angermüller, 2004 This volume addresses the manifold conjunctures interactions and disjunctures that occur at various levels of what has come to be rubricated under the buzzword of globalization While this term has the merit of reperiodizing our account of the capitalist dynamics it simultaneously points to a crisis of representation both in political and epistemological terms The contributions collected in this volume being reflexive representations from the social sciences and humanities assess some of the manifold aspects of this crisis *The Risk Society Revisited* Eugene Rosa, Ortwin Renn, Aaron McCright, 2014 Risk is a part of life How we handle uncertainty and deal with potential threats influence decision making throughout our lives In *The Risk Society Revisited* Eugene A Rosa Ortwin Renn and Aaron M McCright offer the first book to present an integrated theory of risk and governance The authors examine our sociological understanding of risk and how we reconcile modern human conditions with our handling of risk in our quest for improved quality of life They build a new framework for understanding risk one that provides an innovative connection between social theory and the governance of technological and environmental risks and the sociopolitical challenges they pose for a sustainable future Showing how our consciousness affects risk in the decisions we make as individuals and as members of a democratic society *The Risk Society Revisited* makes an important contribution to the literature of risk research BorderCrossings Gerd Sebald, Michael Popp, 2006 On Willing Selves S. Hegemony and the European Union Glyn Williams, Gruffudd Williams, 2016-10-18 This book critically examines the European Union's Unity in Diversity mantra with regard to language. It uses a theoretical framework based on hegemony both as a system and as a relationship. Operating within sociolinguistics, the book replaces the notion of ideology in poststructuralist thought with that of hegemony. The authors argue that forging unity across language communities contradicts the tenets of classical liberal theory. Global neo liberalism influences this orthodoxy, shifting the parameters of power and political control. Over nine chapters, the authors cover topics such as globalization and social change, justice, governance, and education. The book will be of interest to sociolinguists, political scientists, sociologists, as well as scholars of language and globalization and European studies.

Guidebook Gazes Joanna Dybiec, 2004 Tourism as a mode of interaction, visualization, and experience provides a valuable insight into the transformation processes in modern societies and cultures. Travel guides both document and contribute to these processes. This study analyses over forty American and German travel guides to Poland, formerly a politically isolated destination, now a considerably globalized EU member state. In this historically based analysis, the author examines the creation of a tourist gaze of Poland, discussing stereotypes of Poles and the development of the country's touristic attractiveness.
