China in War and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades *Rural China, 1901-1949* Wang Xianming, 2021-03-02 Highlighting the interwoven relationship between Chinese rural society and larger historical forces this book charts the evolution of China's rural society from 1901 to 1949 concentrating on the major changes of this period and the scenarios developed to modernize rural society during the half century leading up to the Revolution The modern history of rural China is one of sweeping institutional and structural transformation across many dimensions As the first half of the twentieth century unfolded against a backdrop of turbulent changes across a country that underwent industrialization urbanization and modernization China's agriculture rural population and rural communities encountered many crises but also showed remarkable resilience and capacity for adaptation and reform In each of the six chapters the author delves into one aspect or examines one period of this massive transformation and identifies the social economic political and cultural significance of these tumultuous processes at work The book will appeal to both scholars and general readers interested in modern Chinese history and the transformation of rural China *Reform and Revolution*, 1998

The Oxford Illustrated History of Modern China Jeffrey N. Wasserstrom, 2016-06-16 This lavishly illustrated volume explores the history of China during a period of dramatic shifts and surprising transformations from the founding of the Qing Dynasty 1644 1912 through to the present day The Oxford Illustrated History of Modern China promises to be essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century introducing readers to important but often overlooked events in China's past such as the bloody Taiping Civil War 1850 1864 which had a death toll far higher than the roughly contemporaneous American Civil War It also helps readers see more familiar landmarks in Chinese history in new ways such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to

power of the Chinese Communist Party in 1949 and the Tiananmen protests and Beijing Massacre of 1989 This is one of the first major efforts and in many ways the most ambitious to date to come to terms with the broad sweep of modern Chinese history taking readers from the origins of modern China right up through the dramatic events of the last few years the Beijing Games the financial crisis and China's rise to global economic pre eminence which have so fundamentally altered Western views of China and China's place in the world China Joseph Esherick,C.X. George Wei,2013-12-17 The Qing dynasty was China's last and it created an empire of unprecedented size and prosperity However in 1911 the empire collapsed within a few short months and China embarked on a revolutionary course that lasted through most of the twentieth century The 1911 Revolution ended two millennia of imperial rule and established the Republic of China but dissatisfaction with the early republic fuelled further revolutionary movements each intended to be more thoroughgoing than the last from the National Revolution of the 1920s to the Communist Revolution and finally the Cultural Revolution On the centenary of the 1911 Revolution Chinese scholars debated the causes and significance of the empire's collapse and this book presents twelve of the most important contributions Rather than focusing on Sun Yat sen's relatively weak and divided revolutionary movement as much previous scholarship has these studies examine the internal dynamics of political and socio economic change in China The chapters reveal how reforms in education army organization and constitutional rule created new social forces and political movements that undermined dynastic legitimacy within China and on its frontiers Through detailed analyses using new archival memoir diary and newspaper sources the authors cast new light on the sudden collapse of an empire that many thought was at last embarked on a road to reform and national rejuvenation China How the Empire Fell will be of huge interest to students and scholars of modern Chinese history as well as those of contemporary China

Sidel,2021-05-15 In *Republicanism Communism Islam* John T Sidel provides an alternate vantage point for understanding the variegated forms and trajectories of revolution across the Philippines Indonesia and Vietnam a perspective that is de nationalized internationalized and transnationalized Sidel positions this new vantage point against the conventional framing of revolutions in modern Southeast Asian history in terms of a nationalist template on the one hand and distinctive local cultures and forms of consciousness on the other Sidel's comparative analysis shows how in very different decisive and often surprising ways the Philippine Indonesian and Vietnamese revolutions were informed enabled and impelled by diverse cosmopolitan connections and international conjunctures Sidel addresses the role of Freemasonry in the making of the Philippine revolution the importance

of Communism and Islam in Indonesia's Revolusi and the influence that shifting political currents in China and anticolonial movements in Africa had on Vietnamese revolutionaries Through this assessment Republicanism Communism and Islam tracks how these forces rather than nationalism per se shaped the forms of these revolutions the ways in which they unfolded and the legacies which they left in their wakes

Anyuan Elizabeth Perry, 2012-10-01 How do we explain the surprising trajectory of the Chinese Communist revolution Why has it taken such a different route from its Russian prototype An answer Elizabeth Perry suggests lies in the Chinese Communists creative development and deployment of cultural resources during their revolutionary rise to power and afterwards Skillful cultural positioning and cultural patronage on the part of Mao Zedong his comrades and successors helped to construct a polity in which a once alien Communist system came to be accepted as familiarly Chinese Perry traces this process through a case study of the Anyuan coal mine a place where Mao and other early leaders of the Chinese Communist Party mobilized an influential labor movement at the beginning of their revolution and whose history later became a touchstone of political correctness in the People's Republic of China Once known as China's Little Moscow Anyuan came over time to symbolize a distinctively Chinese revolutionary tradition Yet the meanings of that tradition remain highly contested as contemporary Chinese debate their revolutionary past in search of a
