Refugees Asylum In Europe:

Geographies of Asylum in Europe and the Role of European Localities Birgit Glorius, Jeroen Doomernik, 2019-10-03 This open access book describes how the numerous arrivals of asylum seekers since 2015 shaped reception and integration processes in Europe. It addresses the structuration of asylum and reception systems and spaces and places of reception on European national, regional and local level. It also analyses perceptions and discourses on asylum and refugees, their involvement and the consequences for policy development. Furthermore, it examines practices and policy developments in the field of refugee reception and integration. The volume shows and explains a variety of refugee reception and integration strategies and practices as specific outcome of multilevel governance processes in Europe. By addressing and contextualizing those multiple experiences of asylum seeker reception, the book is a valuable contribution to the literature on migration and integration, societal development and political culture in Europe.

Refugees Daniele Joly, Clive Nettleton, Hugh Poulton, 1992-12-10

Queering Asylum in Europe Carmelo Danisi, Moira Dustin, Nuno Ferreira, Nina Held, 2021-08-31 This two volume open access book offers a theoretically and empirically grounded portrayal of the experiences of people claiming international protection in Europe on the basis of their sexual orientation or gender identity (SOGI). It shows how European asylum systems might and should treat asylum claims based on people's SOGI in a fairer, more humane way. Through a combined comparative interdisciplinary socio-legal, human rights, feminist, queer and intersectional approach, this book examines not only the legal experiences of people claiming asylum on grounds of their SOGI but also their social experiences outside the asylum decision making framework. The authors analyse how SOGI related claims are adjudicated in different European frameworks: European Union, Council of Europe, Germany, Italy and UK, and offer detailed recommendations to adequately address the intersectional experiences of individuals seeking asylum. This unique approach ensures that the book is of interest not only to researchers in migration and refugee studies, law and wider academic communities but also to policy makers and practitioners in the field of SOGI asylum.

Haven or Hell? D. Joly, 2016-07-14 This book brings together in a systematic manner three discrete areas of interest pertaining to refugees. Asylum is explored through studies on the evolution of legal instruments in Europe, the harmonisation process of European policies and the broader spectrum of factors underpinning decisions on asylum. Reception and settlement of refugees are analysed through a comparative study of national programmes in France and Britain, and in addition a survey of local authority policies. A typology for refugees is developed and tested by a comparison between Chilean and Vietnamese associations in France and Britain.

The Right to Seek Refugee Status in the European Union Sylvie Da Lomba, 2004 In 2001 the 1951 United Nations Convention relating to the Status of Refugees celebrated its 50th anniversary. Whilst its fundamental contribution to refugee protection is undisputed, the Convention has come under sustained criticism in recent years, founded on its alleged inability to address the complexities and challenges of the world of today. Yet the need for international protection worldwide persists regardless of

changes in the international community and the Convention remains the cornerstone of refugee protection. In that context it is critical that the asylum policy of the European Union fully realises the right to seek refugee status that may be inferred from the Convention provisions. To that end the author examines and measures EU and EC instruments and proposals for legislation on asylum against standards set out in international refugee and human rights law. The author argues that the influence of the European Union and its Member States must not be undermined and that any departure from international standards carries the risk of undermining the right to seek refugee status and refugee protection as a whole within and beyond the borders of the European Union. The communitarisation of asylum operated by the Treaty of Amsterdam presents the European Union with the crucial challenge of remaining true to its humanitarian tradition and vision. Book jacket

Asylum Determination in Europe Nick Gill, Anthony Good, 2018-12-05 Drawing on new research material from ten European countries *Asylum Determination in Europe: Ethnographic Perspectives* brings together a range of detailed accounts of the legal and bureaucratic processes by which asylum claims are decided. The book includes a legal overview of European asylum determination procedures followed by sections on the diverse actors involved, the means by which they communicate and the ways in which they make life and death decisions on a daily basis. It offers a contextually rich account that moves beyond doctrinal law to uncover the gaps and variances between formal policy and legislation and law as actually practiced. The contributors employ a variety of disciplinary perspectives: sociological, anthropological, geographical and linguistic, but are united in their use of an ethnographic methodological approach. Through this lens the book captures the confusion, improvisation, inconsistency, complexity and emotional turmoil inherent to the process of claiming asylum in Europe.

Asylum Migration to the European Union Anita Böcker, Tetty Havinga, 1998 4 Plan of the study **Coping with Migrants and Refugees** Tiziana Caponio, Irene Ponzio, 2022-03-08 This book provides a comparative overview of asylum seekers' reception throughout Europe by adopting a theoretical framework based on an analytical approach to the notion of multilevel governance (MLG). It challenges the tendency of the MLG literature to overlook political controversies and conflicts and questions the assumption that it represents the best policymaking arrangement for promoting policy convergence. In doing so, it explores the functioning of the reception component of the Common European Asylum System in centralised states and federal regional states and analyses its implementation at both national and local levels. The book reveals the heterogeneous development of reception policies not only across Member States but also within each country where solutions adopted at the local level generally diverge substantially. Furthermore, the overall centralisation of policy making on reception, regardless of the institutional structure, seems to leave little room for MLG arrangements tailored to specific localities and triggers tensions between central governments and local authorities. This book will be of key interest to scholars and students of migration and asylum studies, immigration, multilevel global governance and more broadly to comparative politics, European studies, politics and public policy. Chapter 3, Chapter 5, Chapter 6, Chapter 9 and Chapter 10 of this book are available

Reforming the Common European Asylum System Vincent Chetail, Philippe De Bruycker, Francesco Maiani, 2016-02-15 This book, edited by Vincent Chetail, Philippe De Bruycker and Francesco Maiani, is aimed at analysing the recent changes of the Common European Asylum System, the progress achieved and the remaining flaws. The overall objective and key added value of this volume are to provide a comprehensive and critical account of the recast instruments governing asylum law and policy in the European Union. This book is the outcome of the 7th Congress of the Academic Network for Legal Studies on Immigration and Asylum in Europe, held in Brussels in 2014. Contributors are Hemme Battjes, Celine Bauloz, Ulrike Brandl, Vincent Chetail, Cathryn Costello, Philippe De Bruycker, Madeline Garlick, Elspeth Guild, Emily Hancox, Lyra Jakuleviciene, Francesco Maiani, Barbara Miko, Alicja Gajdzik, Geraldine Ruiz, Evangelia Lilian Tsourdi, Patricia Van De Peer and Jens Vedsted Hansen.

Refugees, Security and the European Union Sarah Léonard, Christian Kaunert, 2019-06-07 This book analyses the extent and the modalities of the securitization of asylum seekers and refugees in the EU. It argues that the development of the EU asylum policy far from securitizing asylum seekers and refugees has led to the strengthening and codification of several rights for these two categories of persons. However, the securitization of terrorism and the links that have been constructed between asylum, irregular migration and terrorism in the wake of the various terrorist attacks that have taken place in Europe in the last few years have had a significant impact on the ability of asylum seekers to gain access to asylum systems in the EU. From a theoretical point of view, the book develops an original analytical framework that draws upon and further develops security studies, more precisely securitization theory, by connecting it to the literature on policy venues and venue shopping. It therefore makes a significant contribution to the debates on both securitization and migration. Empirically examining the entire development of the EU's policy towards asylum seekers and refugees from its origins in 1993, this book will be of great interest to students of European and EU politics, refugees, migration, security, terrorism and counter-terrorism, security studies and International Relations.
