and entranced Catherine the Great who remodelled her landscapes in St Petersburg to reflect the new style. He was famed in his time and recognised by the Crown but Brown's style was readily copied over his later life and particularly after his death. Arguably this ubiquity led to the denigration of his achievements and even his character particularly by the agents of the Picturesque. The lack of any personal primary material from Brown forcing scholars to rely on his landscapes contracts and bank accounts has hindered attempts to provide a rounded and credible account of the man and his works. However by exploring his team of associates and his role as Royal Gardener new light can be thrown on the man his landscapes and his landscape legacy. Bringing together a number of perspectives from across Northern Europe. Capability Brown Royal Gardener explores the lasting international impact of Brown. With Brown's position as Royal Gardener at its heart this book explores for the first time his business methods working methods and European influence. It assesses how crucially Brown's work practices placed him within the world of nurserymen and landscape designers and how his business practices and long term relationships with draughtsmen and designers allowed him to manage a huge number of projects and a substantial financial turnover. This in turn allowed him to work in a way that promoted and advanced his style of landscape. Edited by Professor Jonathan Finch University of York and Dr Jan Woudstra University of Sheffield and with a varied range of engaging contributors drawn internationally from archaeology art history history and landscape architecture. Capability Brown Royal Gardener weaves together strands from across a broad range of disciplinary interests. It makes an important contribution to the scholarly discussion of Brown's work the work of his collaborators and legacy in the UK and across Northern Europe. Relevant to students and academics at all levels this volume throws new light on Capability Brown and his impact on the business of place making in Northern Europe.

Cataloging Policy and Support Office, 2009 **Library of Congress Subject Headings** Library of Congress, 2004 The Pleasure Garden, from Vauxhall to Coney Island Jonathan Conlin, 2012-11-29 Summers at the Vauxhall pleasure garden in London brought diverse entertainments to a diverse public. Picturesque walks and arbors offered a pastoral retreat from the city while at the same time the garden's attractions indulged distinctly urban tastes for fashion novelty and sociability. High and low born alike were free to walk the paths; the proximity to strangers and the danger of dark walks were as thrilling to visitors as the fountains and fireworks. Vauxhall was the venue that made the careers of composers, inspired novelists and showcased the work of artists. Scoundrels, sudden downpours and extortionate ham prices notwithstanding, Vauxhall became a must see destination for both Londoners and tourists. Before long there were Vauxhalls across Britain and America from York to New York, Norwich to New Orleans. This edited volume provides the first book length study of the attractions and interactions of the pleasure garden from the opening of Vauxhall in the seventeenth century to the amusement parks of the early twentieth. Nine essays explore the mutual influences of human behavior and design, landscape painting, sculpture and even transient elements such as lighting and music tacitly informed visitors how to move within the space, what to wear, how to behave and where they might transgress. The Pleasure Garden from Vauxhall to Coney Island draws together the work of musicologists, art historians and scholars of urban studies and landscape design to unfold a cultural history of pleasure gardens from the entertainments they offered to the anxieties of social difference they provoked. **1995** Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times.
