historians of society politics ideas science literature and the arts explore topics such as the formation of a culture consuming public the development of a literary canon the role of consumption in the formation of the modern state elite and popular forms of cultural consumption and the place of women as consumers of culture Urbane and Rustic England Carl B. Better a Shrew than a Sheep Pamela Allen Brown,2018-08-06 In a study that explodes the assumption that early modern comic culture was created by men for men Pamela Allen Brown shows that jest books plays and ballads represented women as laugh getters and sought out the laughter of ordinary women Disputing the claim that non elite women had little access to popular culture because of their low literacy and social marginality Brown demonstrates that women often bested all comers in the arenas of jesting gaining a few heady moments of agency Juxtaposing the literature of jest against court records sermons and conduct books Brown employs a witty entertaining style to propose that non elite women used jests to test the limits of their subjection She also shows how women s mocking laughter could function as a means of social control in closely watched neighborhoods While official culture beatified the sheep like wife and disciplined the scold jesting culture often applauded the satiric shrew whether her target was priest cuckold or rapist Brown argues that listening for women s laughter can shed light on both the dramas of the street and those of the stage plays from *The Massacre of the Innocents* to *The Merry Wives of Windsor* to *The Woman s Prize* taught audiences the importance of gossips alliances as protection against slanderers lechers tyrants and wife beaters Other jests ballads jigs and plays show women reveling in tales of female roguery or scoffing at the perverse patience of Griselda As Brown points out some women found Griselda types annoying and even foolish better be a shrew than a sheep **Early English in the Computer Age** Matti Rissanen,Merja Kytö,Minna

Palander-Collin,1993 The future of English linguistics as envisaged by the editors of *Topics in English Linguistics* lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The *TiEL* series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics *The Press and the People* Adam Fox,2020-09-01 The *Press and the People* is the first full length study of cheap print in early modern Scotland It traces the production and distribution of ephemeral publications from the nation s first presses in the early sixteenth century through to the age of Burns in the late eighteenth It explores the development of the Scottish book trade in general and the production of slight and popular texts in particular Focusing on the means by which these works reached a wide audience it illuminates the nature of their circulation in both urban and rural contexts Specific chapters examine single sheet imprints such as ballads and gallows speeches newssheets and advertisements as well as the little pamphlets that contained almanacs and devotional works stories and songs The book demonstrates just how much more

of this literature was once printed than now survives and argues that Scotland had a much larger market for such material than has been appreciated By illustrating the ways in which Scottish printers combined well known titles from England with a distinctive repertoire of their own The Press and the People transforms our understanding of popular literature in early modern Scotland and its contribution to British culture more widely **A Companion to Romance** Corinne Saunders,2008-04-15 Romance is a varied and fluid literary genre notoriously difficult to define This groundbreaking Companion surveys the many permutations of romance throughout the ages Considers the literary and historical development of the romance genre from its classical origins to the present day Incorporates discussion of the changing readership of romance and of romance s special relation to women readers Comprises 30 essays written by leading authorities on different periods and sub genres Challenges the idea that the appeal of romance is exclusively escapist Draws on a wide range of specific and influential literary examples **Liberty Against the Law** Christopher Hill,2020-01-14 A classic study of popular resistance to the momentous changes of 17th century England In 17th Century England the law was not an instrument of justice it was an instrument of oppression The enclosures of common land loss of many traditional rights and draconian punishments for minor transgressions changed the lives of the peasantry and created a landless class of wage labourers In this the last book published during his lifetime renowned historian of the English Revolution Christopher Hill explores the immense social changes that occurred and the expressions of liberty against the law through the literary culture of the times and the hero worship of the outlaw As well as chapters on gypsies and vagabonds Hill analyses class religion and the shift away from the importance of the church after the Reformation Liberty Against the Law is a late classic of Hill s work and essential reading for anyone interested in the history and politics of the 17th Century **The Aesthetics of Service in Early Modern England** Elizabeth Rivlin,2012 In The Aesthetics of Service in Early Modern England Elizabeth Rivlin explores the ways in which servant master relationships reshaped literature The early modern servant is enjoined to obey his or her master out of dutiful love but the servant s duty actually amounts to standing in for the master a move that opens the possibility of becoming master Rivlin shows that service is fundamentally a representational practice in which the servant who acts for a master merges with the servant who acts as a master Rivlin argues that in the early modern period servants found new positions as subjects and authors found new forms of literature Representations of servants and masters became a site of contact between pressing material concerns and evolving aesthetic ones Offering readings of dramas by Shakespeare Jonson and Thomas Dekker and prose fictions by Thomas Deloney and Thomas Nashe Rivlin suggests that these authors discovered their own exciting and unstable projects in the servants they created
