National Park Service, 1961 **Engineers at the Golden Gate** Joseph Jeremiah Hagwood (Jr.), 1982 **History of Navigation & Navigation Improvements on the Pacific Coast** Anthony F. Turhollow, 1983 *Trains and Technology* Anthony J. Bianculli, 2001 This work presents a view of the history of American railroads in the nineteenth century from a somewhat different perspective The maturation of the railroad is traced through an exposition of the railroad technology that was developed and applied during the period Throughout the nineteenth century a symbiotic relationship existed between railroading and technology each dependent upon the state and progress of the other to a large degree A great deal of new technology was created for the railroad and the railroad in turn applied new technology as it became available Volume four is

about bridges and tunnels and signals An exposition of the various types of bridges their foundations and the materials of which they were made is included Tunnels and marine railroad operations are treated also The development of signal systems is an area that has been overlooked or neglected in the general literature but is fully covered here The text of this volume is accompanied by 145 illustrations and accurate drawings of the equipment and appliances many of which have not been published before outside of old technical journals Anthony J Bianculli is a mechanical engineer with extensive and varied experience in a Fortune 500 company *California; a History* Andrew F. Rolle,1969 Down by the Bay Matthew Booker,2020-06-09 San Francisco Bay is the largest and most productive estuary on the Pacific Coast of North America It is also home to the oldest and densest urban settlements in the American West Focusing on human inhabitation of the Bay since Ohlone times Down by the Bay reveals the ongoing role of nature in shaping that history From birds to oyster pirates from gold miners to farmers from salt ponds to ports this is the first history of the San Francisco Bay and Delta as both a human and natural landscape It offers invaluable context for current discussions over the best management and use of the Bay in the face of sea level rise Westward the Immigrants Andrew F. Rolle,1999 Here is a colourful alternative to the view that America s immigrants were uprooted defenceless pawns adrift in a sea of confusion and despair Taking the members of one nationality as a prototype Westward the Immigrants originally published as The Immigrants Upraised traces the social political and economic progress of Italian immigrants after they deserted New York s crowded Mulberry Street for more rewarding pursuits in the twenty two states west of the Mississippi **A Flick of Sunshine** Alexander Jackson Hill,Frederic B. Hill,Frederick B. Hill,2022-03-15 The true and remarkable life of Richard Willis Will Jackson an intrepid seaman from one of the leading shipbuilding families in 19th century Maine whose exploits and adventures in the oceans of the world would rival characters straight out of the lives and imaginations of Joseph Conrad and Jack London Will Jackson survived a harrowing shipwreck in the Marshall Islands being washed overboard rounding Cape Horn and running down Alaskan glaciers over a tragically shortened life that ended in a most bizarre and pedestrian incident on the eve of realizing his life s ambition appointment as master of a ship After nine months of sometimes perilous life among natives in the South Sea islands in 1884 captured in chapters of a book he helped write Jackson served on a series of large ships and coastal schooners all based in the post Gold Rush boomtown of San Francisco that took him up and down the west coast from Alaska to Mexico and to the four corners of the earth His faithful letters to his family in Maine and a diary provide a colorful background for a compelling portrait of an extraordinary young man of character and independent spirit intellect and curiosity no small ambition and that most admirable of traits an abiding sense of humor *Lexington Group Letter* ,1944 Nominating Historic Vessels and Shipwrecks to the National Register of Historic Places James P. Delgado,1986 *City of Wood* James Michael Buckley,2024-11-19 2025 John Brinckerhoff Jackson Prize Association of American Geographers How San Franciscans exploited natural resources such as redwood lumber to produce the first major metropolis of the American

West California's 1849 gold rush triggered creation of the instant city of San Francisco as a base to exploit the rich natural resources of the American West. *City of Wood* examines how capitalists and workers logged the state's vast redwood forests to create the financial capital and construction materials needed to build the regional metropolis of San Francisco. Architectural historian James Michael Buckley investigates the remote forest and its urban core as two poles of a regional city. This city consisted of a far-reaching network of spaces produced as company owners and workers arrayed men and machines to extract resources and create human commodities from the region's rich natural environment. Combining labor, urban, industrial, and social history, *City of Wood* employs a variety of sources including contemporary newspaper articles, novels, and photographs to explore the architectural landscape of lumber from backwoods logging camps and company towns in the woods to busy lumber docks and the homes of workers and owners in San Francisco. By imagining the redwood lumber industry as a single community spread across multiple sites, a *City of Wood*, Buckley demonstrates how capitalist resource extraction links different places along the production value chain. The result is a paradigm shift in architectural history that focuses not just on the evolution of individual building design across time but also on economic connections that link the center and periphery across space.

[The Laughing Gorilla](#) Robert Graysmith, 2009-10-06 During the 1920s in more than a dozen cities over four years and across two continents women were being butchered. Eyewitnesses claim the perpetrator was a hulking Bible-carrying brute who lumbered on all fours and laughed maniacally with each new slaughter. The crimes haunted San Francisco Police Captain Charles Dullea, the last honest cop in one of the most notoriously corrupt departments in the country. But nothing could have prepared Dullea for where the case and the truth would take him. *California* Andrew F.
