Hollowed Ground Larry D. Lankton, 2010 Details a century and a half of copper mining along Upper Michigan's Keweenaw Peninsula from the arrival of the first incorporated mines in the 1840s until the closing of the last mine in the mid 1990s In *Hollowed Ground* author Larry Lankton tells the story of two copper industries on Lake Superior native copper mining which produced about 11 billion pounds of the metal from the 1840s until the late 1960s and copper sulfide mining which began in the 1950s and produced another 4.4 billion pounds of copper through the 1990s In addition to documenting companies and their mines mills and smelters *Hollowed Ground* is also a community study It examines the region's population and ethnic mix which was a direct result of the mining industry and the companies paternalistic involvement in community building While this book covers the history of the entire Lake Superior mining industry it particularly focuses on the three biggest most important and longest lived companies Calumet Hecla Copper Range and Quincy Lankton shows the extent of the companies influence over their mining locations as they constructed the houses and neighborhoods of their

company towns set the course of local schools saw that churches got land to build on encouraged the growth of commercial villages on the margin of a mine and even provided pasturage for workers milk cows and space for vegetable gardens Lankton also traces the interconnected fortunes of the mining communities and their companies through times of bustling economic growth and periods of decline and closure Hollowed Ground presents a wealth of images from Upper Michigan s mining towns reflecting a century and a half of unique community and industrial history Local historians industrial historians and anyone interested in the history of Michigan s Upper Peninsula will appreciate this informative volume **Michigan's Early Military Forces** Roger Rosentreter,2003 Accompanying histories explain the reasons behind the conflicts and include maps showing all theaters of operations for Michigan troops The in depth accounts of the state s role in these hostilities often serve as the first serious and comprehensive studies of the contributions made by its citizens in these events BOOK JACKET

Bridging the River of Hatred Mary M. Stolberg,2002 Bridging the River of Hatred portrays the career of George Clifton Edwards Jr Detroit s visionary police commissioner whose efforts to bring racial equality minority recruiting and community policing to Detroit s police department in the early 1960s met with much controversy within the city s administration At a crucial time when the Civil Rights movement was gaining momentum and hostility between urban police forces and African Americans was close to eruption Edwards chose solving racial and urban problems as his mission Incorporating material from a manuscript that Edwards wrote before his death supplemented by historical research Stolberg provides a rare case study of problems in policing the impoverishment of American cities and the evolution of race relations during the turbulent 1960s Edwards vision and hope for Detroit gives depth to the national view of Detroit as a symbol of urban decline and offers lessons to be applied to current social and urban problems Architectural Missionary Steven C. Brisson,2021-09-01 The first and most prolific professional architect to reside permanently in Michigan s Upper Peninsula D Fred Charlton used the local Lake Superior sandstone to craft the distinctive style found in buildings throughout Michigan s Upper Peninsula Born in England and trained there as a civil engineer Charlton came to Detroit in the late 1870s seeking work as a draftsman Much like his peers of the time he had no formal training as an architect and learned his trade by working at several prominent firms The last Scott Company sent him to Marquette in 1887 to open a branch office Three years later Charlton opened his own firm and over the next twenty eight years he designed more than four hundred buildings including residences commercial structures schools courthouses and churches throughout the region which offer an invaluable insight into the tastes of Americans before the World War I and provide a unique vantage point for studying the evolution of the architectural profession Deftly adapting national trends he provided the communities of the Upper Peninsula with modern structures worthy of any place in the nation Many of his buildings remain to this day monuments to the skill of this English born architect who made a place for himself upon the shores of Lake Superior Anyone interested in architecture

and in the history of the upper Midwest will find this read both fascinating and informative

Company Suburbs Sarah Fayen Scarlett, 2023-08-18 Winner of the 2022 Fred B Kniffen Book Award from the International Society Landscape Place and Material Culture and the 2023 Abbott Lowell Cummings Award from the Vernacular Architecture Forum Michigan's Keweenaw Peninsula juts into Lake Superior pointing from the western Upper Peninsula toward Canada Native peoples mined copper there for at least five thousand years but the industrial heyday of the Copper Country began in the late nineteenth century as immigrants from Cornwall Italy Finland and elsewhere came to work in mines largely run from faraway cities such as New York and Boston In those cities suburbs had developed to allow wealthier classes to escape the dirt and grime of the industrial center In the Copper Country however the suburbs sprang up nearly adjacent to mines mills and coal docks Sarah Fayen Scarlett contrasts two types of neighborhoods that transformed Michigan's mining frontier between 1875 and 1920 paternalistic company towns built for the workers and elite suburbs created by the region's network of business leaders Richly illustrated with drawings maps and photographs *Company Suburbs* details the development of these understudied cultural landscapes that arose when elites began to build housing that was architecturally distinct from that of the multiethnic workers within the old company towns They followed national trends and created social hierarchies in the process but also uniquely incorporated pre-existing mining features and adapted company housing practices This idiosyncratic form of suburbanization belies the assumption that suburbs and industry were independent developments Built environments evince interrelationships among landscapes people and power Scarlett's work offers new perspectives on emerging national attitudes linking domestic architecture with class and gender identity *Company Suburbs* complements scholarship on both industrial communities and early suburban growth increasing our understanding of the ways hierarchies associated with industrial capitalism have been built into the shared environments of urban areas as well as seemingly peripheral American towns

Upper Peninsula of Michigan: A History Russell M. Magnaghi, 2017 Get ready to discover the rich history of the Upper Peninsula of Michigan From its earliest days it has evoked words of love beauty mystery and legend Drawing on oral histories newspapers census data archives and libraries Russell M Magnaghi has written the seminal history of a very special place as seen through the eyes of the men and women who have lived here the famous and not so famous For the first time in over a century a complete history of the U P from prehistoric origins to the

present is available The Upper Peninsula of Michigan A History is an extraordinary book celebrating this unique sense of place Back cover **Angels in the Architecture** Heidi Johnson,2004-02-20 An intimate photographic journey into 115 years of history inside a nineteenth century asylum In the nineteenth century perhaps no approach to mental illness was more compassionate than that of hospital administrator Thomas Story Kirkbride whose asylum designs integrated beauty and nature as a method to treat patients The Northern Michigan Asylum in Traverse City Michigan was one of the last of nearly two hundred such architecturally intriguing asylums Founded in 1885 under the principle beauty is therapy the Northern Michigan Asylum closed in 1989 and today stands as a haunting reminder of this lost era Angels in the Architecture is a photographic study of this institution s one hundred year history Heidi Johnson s photographs of the building today are juxtaposed with rare images from private collections and state archives Johnson has captured Kirkbride s spirit of compassion of angels in the architecture in a book that conveys the human element of mental illness with beauty and integrity Park Science ,2012 **A Storied Wilderness** James W. Feldman,2011-07-01 The Apostle Islands are a solitary place of natural beauty with red sandstone cliffs secluded beaches and a rich and unique forest surrounded by the cold blue waters of Lake Superior But this seemingly pristine wilderness has been shaped and reshaped by humans The people who lived and worked in the Apostles built homes cleared fields and cut timber in the island forests The consequences of human choices made more than a century ago can still be read in today s wild landscapes A Storied Wilderness traces the complex history of human interaction with the Apostle Islands In the 1930s resource extraction made it seem like the islands natural beauty had been lost forever But as the island forests regenerated the ways that people used and valued the islands changed human and natural processes together led to the rewilding of the Apostles In 1970 the Apostles were included in the national park system and ultimately designated as the Gaylord Nelson Wilderness How should we understand and value wild places with human pasts James Feldman argues convincingly that such places provide the opportunity to rethink the human place in nature The Apostle Islands are an ideal setting for telling the national story of how we came to equate human activity with the loss of wilderness characteristics when in reality all of our cherished wild places are the products of the complicated interactions between human and natural history Watch the book trailer <https://www.youtube.com/watch?v=fRECwKA6oHs>

The Iron Hunter Chase S. Osborn,2002-05-01 Autobiography of Michigan s controversial governor from the Upper Peninsula Originally published in 1919 The Iron Hunter is the autobiography of one of Michigan s most influential and flamboyant historical figures the reporter publisher explorer politician and twenty seventh governor of Michigan Chase Salmon Osborn 1860 1949 Making unprecedented use of the automobile in his 1910 campaign Osborn ran a memorable campaign that was followed by an even more remarkable term as governor In two years he eliminated Michigan s deficit ended corruption and produced the state s first workmen s compensation law and a reform of the electoral process His autobiography reflects the energy and enthusiasm of a reformer inspired by the Progressive Movement but it also reveals the

poetic spirit of an adventurer who fell in love with Michigan's Upper Peninsula after traveling the world **Graveyard of the Lakes** Mark L. Thompson, 2004-04-13 A historically accurate well rounded picture of shipwrecks on the Great Lakes

The Outdoor Museum Marcy Heller Fisher, 2001 Marshall M Frederick's sculptures can be seen in public places throughout the world but it is in Michigan where he lived for sixty years that his legacy shines Although his name is unknown to many people a work such as The Spirit of Detroit is instantly recognized and loved by millions This delightful book follows a young girl named Abby who is captivated by the sculptures she sees around Detroit bronze pterodactyls soaring humans bears clowns and more How could anyone be in charge of decorating a whole city she wonders With so many marvelous sculptures it takes the determination of a curious child to discover them and learn how they were made The Outdoor Museum is a guide to finding and appreciating hundreds of sculptures around the Great Lakes that were created by Marshall M Fredericks an invitation to the region's residents and visitors to discover the private world of public art **Apostle Islands National Lakeshore, Bayfield, Wisconsin**, 2010
