Terror Sans Frontiers Jaideep Saikia, 2003 *Tense, aspect and mood in first and second language acquisition*
Emmanuelle Labeau, Inès Saddour, 2012-01 Tense aspect and mood have attracted much attention in the areas of both first and second language acquisition but scholars in the two disciplines often fail to learn from each other Western European languages have also been the focus of most studies but there would be lessons to learn from less studied languages This volume offers new insights on tense aspect and mood by bringing together the findings of first and second language acquisition and comparing child and adult monolingual and multilingual learning processes that are approached from various theoretical points of view In addition it spans over a wide range of less studied languages Bulgarian Hebrew Korean Russian and Western European languages are studied from new angles Jacaranda Geography Alive 10 Victorian Curriculum, 3e learnON and Print Jill Price, 2025-11-24

Médecins Sans Frontières, Evolution of an International Movement: Associative History 1971-2011 Laurence Binet, Martin Saulnier, 2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of fait accomplis when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971 2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011 Morbidity and Mortality Weekly Report, 1985
