Santa Maria Dei Miracoli In Venice History Architecture And Restoration:

The Venetian Bride Patricia Fortini Brown, 2021 A true story of vendetta and intrigue triumph and tragedy exile and repatriation this book recounts the interwoven microhistories of Count Girolamo Della Torre a feudal lord with a castle and other properties in the Friuli and Giulia Bembo grand niece of Cardinal Pietro Bembo and daughter of Gian Matteo Bembo a powerful Venetian senator with a distinguished career in service to the Venetian Republic Their marriage in the mid sixteenth century might be regarded as emblematic of the Venetian experience with the metropole at the center of a fragmented empire a Terraferma nobleman and the daughter of a Venetian senator who raised their family in far off Crete in the stato da mar in Venice itself and in the Friuli and the Veneto in the stato da terra The fortunes and misfortunes of the nine surviving Della Torre children and their descendants tracked through the end of the Republic in 1797 are likewise emblematic of a change in feudal culture from clan solidarity to individualism and intrafamily strife and ultimately redemption Despite the efforts by both the Della Torre and the Bembo families to preserve the patrimony through a succession of male heirs the last survivor in the paternal bloodline of each was a daughter This epic tale highlights the role of women in creating family networks and opens a precious window into a contentious period in which Venetian republican values clash with the deeply rooted feudal traditions of honor and blood feuds of the mainland *Building Renaissance Venice* Richard John Goy, 2006-01-01 This book brings to life the story of the construction of some of the most outstanding early Renaissance buildings in Venice Through a series of individual case studies Richard J Goy explores how and why great buildings came to be built He addresses the practical issues of constructing such buildings as the Torre dell Orologio in Piazza San Marco the Arsenale Gate and the churches of Santa Maria della Carita and San Zaccaria focusing particular attention on the process of patronage The book is the first to trace the complete process of creating important buildings from the earliest conception in the minds of the patrons the Venetian state or other institutional patrons through the choice of architect the employment of craftsmen and the selection of materials In an interesting analysis of the participants roles Goy highlights the emerging importance of the superintending master the protomaestro *Venice Restored* Unesco, 1978
