Lui,1957 National Library of Medicine Audiovisuals Catalog National Library of Medicine (U.S.), **The Transnational History of a Chinese Family** Haiming Liu,2005 Family and home are one word jia in the Chinese language Family can be separated and home may be relocated but jia remains intact It signifies a system of mutual obligation lasting responsibility and cultural values This strong yet flexible sense of kinship has enabled many Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility Based on an analysis of over three thousand family letters and other primary sources including recently released immigration files from the National Archives and Records Administration Haiming Liu presents a remarkable transnational history of a Chinese family from the late nineteenth century to the 1970s For three generations the family lived between the two worlds While the immigrant generation worked hard in an herbalist business and asparagus farming the younger generation crossed back and forth between China and America pursuing proper education good careers and a meaningful life during a difficult period of time for Chinese Americans When social instability in China and hostile racial environment in America prevented the family

from being rooted in either side of the Pacific transnational family life became a focal point of their social existence This well documented and illustrated family history makes it clear that for many Chinese immigrant families migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries It convincingly shows how transnationalism has become a way of life for Chinese American families *Longevity and Chinese Herbal Medicine* Jacqueline Buksh,2006
